**GASTORIA**

THE GASTORIA COMPANY, NEW YORK CITY.

**GLAD OF HOLTON'S CONFIRMATION**

Such is Sentiment in the Gate City. Candidate for Judge, J. J. Holton in Probation Places. (Special Correspondent.)

Greensboro, March 20.—It is said that J. A. Long, Esq., who formerly lived here, has written friends here asking their support for the judgeship in this the 9th judicial district. The candidacy of J. Crawford Biggs has previously been announced. It is expected that S. M. Gattin, of Hillsboro will get in the race very soon. And Judge Shaw's friends are of course advancing his interests to the best of their ability.

There was general satisfaction here yesterday at the news of United States District Attorney Holton's confirmation for re-appointment by the Senate. The bulk of the people here believe that Holton is not only officially honest but that he is honestly determined to clean up the grafters.

Reidville is fast capturing Winston-Salem's jug trade from Greensboro. The round up by the police Saturday night included several drunks of Greensboro negroes who had been to Reidville. John Henry Johnson got so drunk he refused to give the conductor his ticket returning to Greensboro, wanted to fight everything in sight and had to be tied before he was controllable. A policeman met the train here and placed John Henry in the city jug to cool off. Three other blacks, whose names would not indicate it, got into trouble and in the city jail by going to Reidville Saturday. Mark Cotton couldn't walk straight when he landed at the station and was accommodated with the patrol wagon. William Brown could walk all right, but was seriously handicapped by a heavy bag slung over his shoulder. The police found 2 three gallon jugs of Reidville liquor in the bag and put the whole outfit in the lock up. Sam Blue got tangled in Reidville too and arrived in such condition he had to be helped to the cooler. Sarah George landed behind the bars because she was so sober enough to begin the business of retailing her liquor in an hour after arrival.

The Goods Manufactured by the

**NEW BERN COTTON OIL & FERTILIZER MILLS**

Are Handled by the Best Dealers. **WHY NOT BY YOU?**

**OUR NAME ON THE BAG MEANS BEST QUALITY**

Right goods at right prices form best foundation for any business. If you are interested in growing larger crops on smaller acreage, first properly prepare soil, then use Fertilizer absolutely pure and straight. Right goods at right prices most important and necessary. Sale of inferior Fertilizers generally prove disastrous, makes complaints, dissatisfied customers and decrease in business. You want to get right and stay right, hold your customers, get many new ones, then handle the Fertilizers manufactured by New Bern Cotton Oil and Fertilizer Mills, recognized as standard quality. Our Fertilizers sell themselves. The man who buys once wants them again, his friends want them. Can you afford to be without an article which silently but forcibly recommends itself.

Margin of profit may not be so large to the dealer as in some other goods, there is something in feeling you have given your customer full value. "That your trade is increasing."

Our goods are made in various grades to suit crops usually grown in your section. You can rest assured each grade is best that can be had for money. We believe in long run quality is bound to count, though we do not make quite as good profit.

Call to see our Sales Agent in your section, and if none near you write direct to the

**NEW BERN COTTON OIL & FERTILIZER MILLS**

NEW BERN, N. C.

**THE DEPEW-BURDETTE CO.**

Repertoire Shows of High Order to Be Played Here by Capable Actors.

Commencing Monday, March 26, the DePew-Burdette Stock Co., will appear in repertoire at the New Masonic Opera House. The company is not unknown here and Thomas DePew is a hot favorite with the amusement loving public. He is one of the cleverest—a most versatile comedian who treads the boards. Whether in the play, between the acts, or making announcements his stunts are always mirth provoking. He is supported by a large and strong company, of whom Will T. Burdette, Miss Minnie DuPre and J. A. Osborne will all be remembered with pleasure. The company numbers 16 persons.

Their plays include The Silver Dagger, The Counterfeiters, A Homespun Heart, At Pikes Peak, The Outcast Son, A Prisoner of France and Rip Van Winkle. Evidence of their popularity may be found in the fact that in their stands in six cities of the South and West their receipts were over \$30,000. Their claim as leaders in their class is substantiated by the character of their performances.

**SLEEPING CARS.**

The First Grade Ones Were Thought the Acme of Comfort.

Current advertisements describing the luxurious appointments offered the modern traveler on sea and land give point to the contrast afforded by the facilities of the middle of the last century, which were then regarded as the height to which the passengers had a right to aspire. The issue of the Pennsylvania Railroad and Mining Register of June 28, 1854, said:

"The Buffalo Car company lately shipped a lot of cars for the Illinois Central railroad which are far ahead of anything in their line yet seen in the west. One of them contained six staterooms, each room having two seats with cushioned backs, long enough for a person to lie upon. The backs of the seats are hung with hinges at the upper edge, so that they may be turned up at pleasure, thus forming two single berths, one over the other, where persons may sleep with all the comfort imaginable. In one end of the car is a small wash room, with marble washbasin, looking glass, etc. On the opposite side of the car from the staterooms is a row of seats with revolving backs, similar to barbers' chairs, so arranged that the occupant may sit straight or recline in an easy attitude at pleasure. The other five cars have each two or three similar staterooms."

The birth of the Pullman car came a little later. In the spring of 1858 George M. Pullman remodeled at Bloomington, Ill., a few of the cars of the Chicago and Alton and made them the first Pullman sleeping cars.—Railway World.

**THOUGHT HE WAS LOST**

A Young Traveling Man Has a Terrible Experience at Beaufort.

The storm and wind of Monday is a matter of record but though it was severe here, it was of much greater violence at Beaufort. The wind blew furiously all day and not many sailors left the land on account of the prevailing storm.

Mr. Walter Pugh, the well known and efficient salesman for C. S. Hollister was one who braved the angry billows though and nearly had a grave in the deep to pay for it. He was with two drummers for northern wholesale houses and was showing them over Beaufort and vicinity and was desirous of returning to Morehead. He engaged a gasolene launch of Capt. Willis, of Beaufort, and started out.

They had not gone far before they ran into a bad storm and they were completely at the mercy of the waves. The light boat was tossed about with scarcely any resistance and there seemed to be no apparent chance for a rescue. Happily the boat was cast upon the shore of Horse Island and there they were taken on board the life saving crews boat and returned to Beaufort.

Of course the entire party was badly frightened and they may have been. The effect the experience had on our genial friend Mr. Pugh was that not a thought of himself escaped him but his only desire was for those he loved. He prayed for his family and employer's business interests, and undoubtedly prayer was answered.

**SHORT STORIES.**

Of the 643 steamers and sailing vessels lost last year England lost 200, America 110, Norway, 60, Italy and Russia each 37, Japan 34, France 33 and Sweden 31.

The Japanese proprietors of three large, modern apartment houses for orientals in San Francisco have decreed that no children shall be allowed within their walls.

According to a recently published official statement, tetanus is extremely prevalent in Cuba, especially among infants. During the last five years over 25 per 1,000 of newborn infants have died of tetanus.

National Commander in Chief Corporal Tanner has published a statement which shows that 104 members of the Grand Army of the Republic are passing away every twenty-four hours, or at the rate of one death in every eight and one-third minutes.

Although unknown as an inventor and almost blind and heavily weighted with his eighty-six years, Wareham F. Chase invented fifty years ago what is said to be the first electric motor, the model of which is now in the Vermont statehouse. The model will run today when an electric current is applied, as it did half a century ago in Mr. Chase's shop in Montpelier.

**EDITORIAL FLINGS.**

The pace is so rapid in New York that a life sentence for homicide only averages about ten years.—Philadelphia Record.

Dr. Henson says the country is going insane for lack of rest. Let the good doctor start reform by giving us one.—Chicago Journal.

A college professor says the women will be ruling the country fifty years from today. Of course; why should they abdicate?—Memphis News-Scimitar.

Optimism is when you wish to live; pessimism is when you wish to die, and Oserism is when other people think you ought to die.—Columbia State.

There must be something wrong somewhere. Either all these stories we hear about lupine food are not true or we are not half as well as we feel.—Chicago Inter Ocean.

In the production of solid emery wheels the best cement that can be employed is one that binds the emery together with that degree of strength which will resist the centrifugal strain due to the high speed at which emery wheels cut best—about 5,000 feet speed per minute. It must not soften by frictional heat or glaze or burst or become brittle and break with cold, nor must it hold the cutting grains until they are too dull to cut nor release them so readily as to waste away the wheel too fast. It must be capable of being thoroughly mixed evenly with the grain emery, so that the wheel may not have either hard or soft spots and be out of balance, and must also be capable of being tempered to suit different kinds of metal or work. Great care and skill are required in the matter of selecting only pure and strong chemicals for these cements.—Cassell's Magazine.

The Bald Head. A bald head is a less familiar (and nowadays less true) representative of the unchangeable than the Ethiopian's skin or the leopard's spots, but it was cited in this character with impressive pathos by Hipparchus, one of the seven martyrs of Samsata. After they had been subjected to severe tortures they were at last confronted with seven crosses, and the Emperor Maximian offered them a last chance to recant. But the aged Hipparchus put his hand on his bald head and cried, "As this, according to the order of nature, can never again be covered with hair, so never will I change or conform to your wish." Maximian ordered a goat's skin to be nailed to Hipparchus' head and then jeeringly claimed that the condition was fulfilled. But Hipparchus remained obstinate and speedily died on the cross.—London Chronicle.

**THE DEPEW-BURDETTE CO.**

Repertoire Shows of High Order to Be Played Here by Capable Actors.

Commencing Monday, March 26, the DePew-Burdette Stock Co., will appear in repertoire at the New Masonic Opera House. The company is not unknown here and Thomas DePew is a hot favorite with the amusement loving public. He is one of the cleverest—a most versatile comedian who treads the boards. Whether in the play, between the acts, or making announcements his stunts are always mirth provoking. He is supported by a large and strong company, of whom Will T. Burdette, Miss Minnie DuPre and J. A. Osborne will all be remembered with pleasure. The company numbers 16 persons.

Their plays include The Silver Dagger, The Counterfeiters, A Homespun Heart, At Pikes Peak, The Outcast Son, A Prisoner of France and Rip Van Winkle. Evidence of their popularity may be found in the fact that in their stands in six cities of the South and West their receipts were over \$30,000. Their claim as leaders in their class is substantiated by the character of their performances.

**HORSESHOES.**

The Three Lucky Elements That Are Associated in Them.

The supposition that associates the horseshoe with good luck is very old. It is said to prevail not only among English speaking people, but in all the races of Europe and in southern Asia. Antiquarians are undecided whether its origin has to do with the material from which the horseshoe is made or with its shape.

The ancients believed that iron as a metal had great secret powers, and they drove nails into their walls as a protection against pestilence. The Arabs when overtaken by severe storms in the desert cry out, "Iron, iron!" which they think will propitiate the evil spirits which have raised the storm. The Scandinavians have held from time immemorial the idea that it was lucky to find a piece of iron.

As regards the form of the horseshoe, there is no doubt that among the ancients the crescent form was much favored as having lucky or preservative powers. Ornaments were shaped in this way to drive away evil spirits. The Chinese have their tombs built in a semicircular form, like a horseshoe, and the Moors use the same form in their architecture.

It may be remarked that in the mythology of Europe horses were also regarded as lucky by men, and superstition on a supposed that a horse's hoof placed under the bed would cure certain complaints. The horseshoe therefore may be said to unite within itself three lucky elements—it is in the shape of a crescent, it is made of iron, and it has been taken from a horse.

**WORKS WONDERS**

A Wonderful Compound. Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises.

Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. New Bern testimony proves it.

John F. Hanff, proprietor of general merchandise store, at 80 Middle street, says: "I used Doan's Kidney's Pills and they are all they are represented to be. I can also say that Doan's Ointment is the best thing that I ever used for itching hemorrhoids. I suffered untold agony with them, could not rest one moment day or night, and I could not find anything to relieve the suffering until I came across Doan's Ointment and procured it at Bradham's Pharmacy. It relieved me at once, and acted entirely different from anything else I ever used. You could talk about this remedy for a month and it would not be in the least application of the ointment. You can use my name if I will be only too pleased to recommend these remedies to anyone who ever suffers from either of them."

For sale by all dealers. Price 50 cts. a box.—Putnam-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name—Doan's, and see no other.
