THE DEVASTATED CITY

FIRE AGAIN SEEMS CHECKED. LEAVES PLACE THREE FOURTHS A RUIN.

People Sleep in Parks And Drink Ditch Water

Government Rushes Aid. Volcano Brakes Loose in New Mexico. President Roosevelt Personally Gives Money to Red Cross Society. Soldiers Doing Great Work Preserving Order.

Special to Journal. San Francisco, April 19.—The fire thought to have been checked last night, continued until this afternoon, when it was finally checked at corner of Van Ness and Mission streets. Three fourths of the city is utterly destroyed, and 300,000 are homeless, two-thirds of this number slept in Golden Gate Park, last night.

Provisions Scarce and High. Provisions are scarce and bread has sold as high as a dollar a loaf. The military under orders have seized all the food supplies remaining in stores and warehouses. The rush to leave the city continues.

Drink Water from Ditches. One bank president has directed that \$300,000 of the bank's funds be applied to the immediate relief of the people. The suffering from thirst is great, the water mains are broken in hundreds of places, but no water appears above the ground, all sinking into the earth. People drink from ditches or pools, as they can find water. One water company says it will have water in part of the mains tomorrow, and will be able to furnish 10,000,000 gallons.

Twenty Thieves Shot. Today the regular troops shot dead twenty persons who were discovered stealing. Five hundred cadets from the University of California are put on duty, these are shooting every one attempting robbery.

The report that the famous Cliff House had toppled into the sea, is untrue.

Hundreds of Thousands Homeless. The country about the city, and also the hills and beaches, resemble a vast camp, with its tents. The problem of feeding and sheltering 300,000 homeless people, is one of the greatest this nation has ever had to face. Portsmouth Square has been made the public morgue. The soldiers have forced the citizens, rich and poor, alike, at the muzzle of their guns, to go to work burying the dead, yet many remain unburied, and remain a menace to public health.

Losses to Be Paid. The insurance companies announce that they will pay losses by earthquakes, as well as by fire, though the policies do not cover earthquake losses.

The U. S. Treasury Department has failed to find its assistant treasurer, in this city, also several other officials, and it is believed they are lost.

Other Places Affected. It is reported today that an earthquake shook Split Mountain, an extinct volcano, near Folsom, New Mexico, and that smoke is pouring from it and melting the snow. A hundred people are dead at the town of Folsom, California.

Government Aid Forwarded. Secretary of Commerce and Labor, Metcalf, is on his way from Washington, to represent President Roosevelt. He will confer with the governor of California, and will recommend what steps are necessary to be taken by the government to aid the people of California. Aid is being rushed by the government. Forty six car loads of tents and food are going from Portland, Ore. with vast supplies from a score of other ports and military depots. The President has himself sent \$1,000 to the Red Cross Society. General Funston, commanding here, says a famine seems inevitable. The soldiers are doing a noble work.

MOVING OUT BY THOUSANDS.

People Are Leaving Stricken City Temporarily.

Dead are Buried in Trenches Filled With Quick Lime. No Estimate Can be Put on the Number Killed. Relief Coming Rapidly.

Special to Journal. San Francisco, April 21.—The fire continues but is believed to be somewhat under control and if no unforeseen circumstance occurs it may gradually be extinguished. The ferry to Oakland was threatened but the flames were checked. The use of fire was prohibited in houses.

Disposing of Dead. The bodies of the dead are lying all over the city and the disposition of these corpses has come to be a serious problem to the authorities. No one can tell the exact number and it is doubtful if it ever will be known. Quick lime is being used as disinfectants. Bodies are buried in trenches filled with quick lime.

The Exodus is Great. People are leaving the city as fast as they can get away. It is estimated that 25,000 left today and they are not only going on trains but are hurrying out by any means they can get. The railroads are carrying people out free of charge.

No Fear of Famine. The prospect of famine has disappeared and food is abundant but the supply of drinking water is still limited. This, however, may be adjusted in a short time. There is no possibility of obtaining water through the city system as both water and sewer systems are destroyed.

Utilizing Vacant Buildings. All vacant buildings are being seized for quarters for the homeless and no claim of former owner or occupant is honored. Persons are forbidden to enter other buildings than their own on pain of death. This order has been made to prevent looting as far as possible.

Another Town Destroyed. Tulane, a village of 3,000 people was destroyed by the earthquake and the ruins are burning. So many towns have been damaged that the legislature has been called in extraordinary session to prepare immediate relief measures.

Subscriptions Pouring In. The amount of subscriptions received by the relief committee has reached \$2,500,000. President Roosevelt has asked Congress to increase its appropriation.

J. E. Latham & Co's. Weekly Cotton Letter

Special to Journal. Greensboro, April 21.—During the week just past, the market suffered a decline of about 38 cents from the high of Tuesday, due nearly entirely to the calamity on the Pacific Coast. The uncertainty of the financial situation caused a gloomy feeling to pervade the holders of stocks, and cotton sold by them in fright. On Friday there was a partial recovery in the market, which was resumed today, and the closing is only 8 points lower for May than last Saturday. The demand for spot cotton was not quite so brisk as the week previous, but there is no halting in the spindles, and good, desirable grades will command a large premium until the next crop is marketed. Next Friday is notice day for May delivery, and it is understood all tenders will be taken care of, and we see no reason for any decline, and if shorts get nervous, they may force the market much higher.

A Wild Time.

Special to Journal. Raleigh, April 21.—The A. & M. College baseball team won from the U. of N. C. today in a most exciting and interesting game. No scores were made until the eighth inning when the A. & M. batted safely twice and again scored in the ninth, making the score 3 to 0. Patterson pitched a splendid game and had his support been decent would have won a great victory. He had six strike outs to his credit and the opponents only got three hits on him. The game was won on errors.

There was great excitement during the game and the police had hard work to maintain order, being obliged at one time to make a pretense of getting his pistol. The U. of N. C. rooters were endeavoring to occupy a place on the front lines but were prevented. When the A. & M. crowd went to the same place they were not prevented and that made the Varsity sore.

The crowd was large and uproarious and there has not been a more exciting game than that. Governor Glenn was among the spectators and enjoyed the game.

HAPPY BLACKBURN.

The Republican Congressman Overwhelmed with Congratulations.

Democrats and Republicans Express Satisfaction Over His Victory. Liberal Contributions For San Francisco Sufferers. Mass Meeting Sunday Afternoon.

Special to Journal. Greensboro, N. C., April 21.—Since his vindication, Congressman E. Spencer Blackburn has received from all parts of the State, over five hundred telegrams congratulating him on the outcome of the trial. A. Mr. Blackburn returned from the court room yesterday, he was given an informal reception in the Benbow House lobby by his many friends, in Greensboro. All political feelings were forgotten, as they grasped the Congressman's hand, Democrat and Republican alike, eager to show their gratification of Mr. Blackburn's victory.

Mr. Blackburn and family will leave for his home in Washington, D. C., in a few days.

Last night Mayor Murphy received from Mr. Moses Cone, president of the Cone Export Commission Company, a check for \$1,600, to be sent to the sufferers of the San Francisco disaster. Following Mr. Cone's check came one from the Meyer Brothers Co. for fifty dollars, and other contributions are rapidly coming in. A mass meeting has been called by T. J. Murphy, Mayor, and the Chamber of Commerce, to be held Sunday afternoon, to solicit subscriptions to the relief funds.

Burr McIntosh Monthly For May

The current number of the "most beautiful magazine in the world" is now on all news stands. The cover is a fine portrait of that popular stage favorite, Miss Ethel Barrymore, and is presented in colors. Among the prominent people portrayed are Chancellor McCracken, the eminent financier, the late Susan B. Anthony, and the Emperor of Austria. Among the people famous for their work in the drama or opera are DeReszke, the famous basso, Lillian Blauvelt, of Grand Opera fame, Paul Edwards, Virginia Earle, Adele Ritchie and Yvette Guilbert, the celebrated French character actress who is now making a fare well tour of this country. The panoramic features of the issue deal quite extensively with Egypt from photographs obtained on the ground by our personal representative. These photographs were selected with great care and represent the most interesting scenes in the Land of the Nile. The color work of this issue is exquisite and another of the famous shadow pictures, this one representing Miss Henrietta Crossman, will attract admirers of this class of photography. Altogether this May issue is quite equal to any which precede it. Burr Publishing Company New York.

JUST BREATHE IT

Hyomei Cures Catarrh in Natural and Rational Way.

No dangerous drugs or alcoholic concoctions are taken into the system when Hyomei is used in the treatment of catarrh. Breathed through the neat pocket inhaler that comes with every outfit, the balsamic healing of Hyomei penetrates to the most remote cells of the nose, throat and lungs, killing all catarrhal germs, healing the irritated mucous membrane and effecting a complete and permanent cure.

No medicine taken into the stomach can possibly reach the remote cells of the air passages, or give the immediate relief that follows the use of Hyomei. A few days treatment is usually all that is necessary to show how quickly this remedy will cure catarrh.

So successful has Hyomei been in the cure of catarrh among his customers that F. S. Duffy sells it under a positive guarantee that it costs nothing unless it gives satisfaction. The complete outfit sells one dollar, while extra bottles can be obtained for 50 cents.

Outlawry Adds to the Horror of the Quake and Fire

Large Amounts of Money Pouring into the Stricken City. Earthquake Said to Have Been Felt in Oregon.

Special to Journal. San Francisco, April 23.—Fire broke out in the coal bunkers of the Union ferry today and is fiercely raging. These had not shown any signs of fire and was believed they would escape but the flames have made them their prey. This presents a hard condition as it may shut out communication with Oakland. The total area of the burnt district is said by people who have surveyed it to be seven square miles.

President Lady Missing. The wife of Chief Justice Shaw was last night in confusion following the earthquake and her friends have been unable to find any trace of her.

Tremors Still Felt. Disasters of earthquake have been felt at Grants Pass, Oregon. The shocks have been accompanied by loud noises.

Murdered by Patrol. A most unaccountable and horrible affair occurred today in the murder of H. C. Tilden, a leading member of the Citizens Relief Committee. He was riding in his automobile when he was shot and killed by six members of the Citizens Patrol. The attack was without warning or reason. Three of the assailants have been arrested. His chauffeur was slightly wounded in the melee.

Funds are Increasing. Congress has appropriated another half million dollars for the victims of the fire, making a total of two and one half million dollars. The United States Treasury has deposited five million dollars in San Francisco banks since Saturday.

Business Change at Arapahoe. Mr. J. A. Johnson has purchased the interest of his partner, Adam Bennett in the general mercantile business of Johnson and Bennett at Arapahoe. Mr. Bennett retires on account of ill health.

The Regular Spring Tribunal Commences Its Sessions

The changes of the personnel are confined to the marshals office and consist only in the persons of Mr. Claudius Dockery the United States Marshal, vice H. C. Dockery, and Deputy Marshal R. W. New Bern Gave \$600
The total contributions of the city of New Bern to the sufferers in San Francisco were over \$600. Aside from the general subscription taken up by Mayor Patterson, the Knights Templar, Elks Lodge and the congregation of the Presbyterian church took up special collections.

In our summary of the donations we were in error as to the gift of Mr. J. A. Meadows; it should have been \$50.00. Following are those who have given money since the list in Sunday paper: The Lumber Co., \$25; Mike Joudy, \$3.00; Cash, \$1.50; Cash, 50 cts; M. Hahn, \$5.00; Cash, \$1.00; R. F. Broadus, \$5.00; I. P. Hatch, (col.) \$1.00; R. W. Williamson, (col.) \$2.00.

New Bern Underwriter's Agency.
Whilst at this time we have no definite news of the extent of the Company's loss at San Francisco, we know that our interest (whilst doubtless great) is yet in a comparative sense moderate, the volume of business transacted in that city, judged by premiums received, not being much above the average.

Our United States funds are doubtless quite ample to satisfy this loss without call upon our home office, but, as has been customary on like occasions in the past, arrangements are in progress to furnish the whole of the needed money from England, in order that these funds may be undisturbed.

Yours very truly,
HENRY W. EATON,
Resident Manager.
