

PROVISIONS NEEDED FOR CLEARING UP COURT DOCKETS.

Laws and courts were presumably made and established for the protection of the injured and weak, as against those committing overt acts, who by their strength could defy the oppressed, and so rule independent, responsible only to themselves, and be accountable to no one, for their transgressions.

HOT WEATHER AND RELAXATION

With the temperature thus early in the year getting well up towards ninety degrees, the thought of other hot days yet to come during the next four months, naturally arouses the thought and question, what is to be the program for those who must remain in the city during the summer months, for hot weather calls for and demands of humanity, not merely lighter clothes, a less heating diet, but further there is demanded the opportunity for relaxation of body and mind, in order that good health may be enjoyed and maintained.

A CONGRESSMAN'S BLASPHEMY

The too flippant regard, and the low esteem, in which too many people hold those in public office, is often warranted by the conduct of those elected to positions of what should be honorable and demanding respectful behavior on the part of those who occupy them.

CONTAGIOUS BLOOD POISON

HUMILIATING - VILE - DESTRUCTIVE

The very name, Contagious Blood Poison, suggests contamination and dread. It is the worst disease the world has ever known; responsible for more unhappiness and sorrow than all others combined. Nobody knows anything about the origin of this loathsome trouble, but as far back as history goes it has been regarded the greatest curse of mankind.

No part of the body is beyond the reach of this powerful poison. No matter how pure the blood may be, when the virus of Contagious Blood Poison enters, the entire circulation becomes corrupted, the humiliating symptoms begin to appear, and the sufferer finds himself diseased from head to foot with the vilest and most destructive of all poisons.

Usually the first symptom is a small sore or ulcer, so insignificant that it rarely ever excites suspicion, but in a short while the skin breaks out in a red rash, the glands of the groin swell, the throat and mouth ulcerate, the hair and eye-brows come out, and often the body is covered with copper-colored spots, pustular eruptions and sores.

There is hardly any limit to the ravages of Contagious Blood Poison; if it is not driven from the blood it affects the nerves, attacks the bones, and in extreme cases causes tumors to form on the brain, producing insanity and death. No other disease is so highly contagious; many an innocent person has become infected by using the same toilet articles, handling the clothing, by a friendly handshake or the kiss of affection from one afflicted.

But no matter how the disease is contracted, the sufferer feels the humiliation and degradation that accompany the vile disorder.

Mercury and Potash are commonly used in the treatment of Contagious Blood Poison, but these minerals cannot cure the disease—they merely mask it in the system. All external evidences may disappear for awhile, but the treacherous poison is at work on the internal members and tissues, and when these minerals are left off the disease returns worse than before, because the entire system has been weakened and damaged by the strong action of the Mercury and Potash.

There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the great vegetable blood purifier. It attacks the disease in the right way by going down into the blood, neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system, and cures this humiliating and destructive disorder permanently.

The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood and the sufferer is completely restored to health. S. S. S. is not an experiment; it is a success. It has cured thousands of cases of Contagious Blood Poison, many of which had given the Mercury and Potash treatment, Hot Springs, etc., a thorough trial, and had almost despaired of ever being well again. S. S. S. is made entirely of roots, herbs and barks, and does not injure the system in the least. We offer a reward of \$1,000 for proof that it contains a particle of mineral of any kind. If you are suffering with this despicable and debasing disease, get it out of your blood with S. S. S. before it does further damage. We will gladly send our book with instructions for self-treatment and any medical advice, without charge, to all who write.

Dear Sirs—I had a friend who had a bad case of Contagious Blood Poison and was in a terrible condition. He tried all the medicines he could hear of, but nothing did him any good. He went to Hot Springs but it was like the other treatments he had used, and he was in despair of a cure when he heard of S. S. S. After taking it for awhile the sores all healed, his hair stopped falling out, and, continuing with it, he soon found himself cured entirely of this hideous disease. JOHN LESLIE, Rockford, Ill. 710 W. State St.

I was afflicted with Blood Poison, and the best doctors did me no good; though I took their treatment faithfully. In fact I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease; and had no effect whatever. I was despondent, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S. and began to improve. I continued the medicine, and it cured me completely. W. R. NEWMAN, Hamlet, N. C.
