GREENSBORO.

Lull in Legal and Criminal Circles

Legislature Damage Suit Act Gives Relief.

Historic Dam Breaks Away. Negro Murderer Conductor a Bad One.

Burned Wedding Trousseau.

(Special Correspondence)

Greensboro, N. C., May 4.—There is a distinct lull in legal circles here, after a long spell of hard work for lawyers in the state and Federal Courts. Even in criminal realms law breakers seem to be taking a rest. The jail is empty with the exception of two prisoners.

Lawyers here say the act of the legislature of 1905 requiring damage suits against railroads to be brought in the county where the plaintiff resided or where the accident occurred, will prove a great benefit to the regular Guilford practice, and litigants as well as the tax payers. The docket here for a long time has been congested by reason of the fact that railroad suits were tried here from counties all over the state. As these cases often took a week, and never less than one or two days, it presented the reaching of other cases of local importance, keeping court in almost continuous session. After the act was passed lawyers continued the practice of bringing suits on cases from other counties into Guilford Court, contending that the act could not apply to foreign corporations. Recently a case taken to the Supreme Court on this point was decided in favor of the legislature.

The dam at Col. James T. Morehead's Hamburg mill, eight miles from the city broke yesterday and the hundred acre mill pond is dry this morning. For some time, the dam has been leaking but it was thought it had been repaired. A party of negro men who were camped just below the mill on a fishing frolic came near being drowned. The water came like an avalanche upon them. They fled up the hill, but their tent and wagon were washed away. An old horse tied to a tree was whirled around with such force, the rope which held him broke, and he managed to escape drowning by climbing up the bank the moment he was freed. Hamburg dam will be repaired, and the old water mill, which for more than a century has ground the old fashioned excellent water meal in the old fashioned excellent mill stores, will continue its blessed career. The noted pond will continue to be the resort of fish sportsmen and in summer of picnic parties from Greensboro, Oak Ridge, Summerfield and Kernersville as it has been for generations past. When Cornwallis was in Guilford, he used this mill for grinding, it being but a short distance from where he joined Green in Battle at Guilford court house.

Ed Davis, the negro so badly wounded in Salisbury for the murder of street car conductor Wiggins, was formerly a resident of Greensboro while here he had the reputation of being a "bad nigger," his penchant however being the beating of women of his own color. Time and again he was up before the Mayor and fined for lambasting some negro woman who assaulted or angered him. His last frolic of this kind was about a year ago. He was beating a woman in "Apple Bottom," on the suburbs and she was howling so loud it attracted several of the dusky demons of the neighborhood. One of them was more chivalric than the others, kicked Ed out, and Ed, made for him with an ax, receiving in return a pistol ball in his thigh and a wound which kept him laid up for four months.

Miss Annie Poindexter of 123 West Lee St. was badly burned about her arms and body last night in trying to save her wedding trousseau from destruction by fire. On May 10th Miss Poindexter and Mr. J. T. Hayes of Durham are to be married. Last night while the hall of her house was used as a display room for the numerous articles of lace, silk and delicate wearing apparel going to make a beautiful and happy bride, a large lamp suspended in the center of the hall broke and fell right in the midst of all the fixtures they caught fire and despite the efforts of several ladies, were entirely burned or hopelessly ruined.

Another Ultimatum for Turkey

Special to Journal.

London, May 4.—The government has delivered its order to the Sultan of Turkey requesting him to withdraw his troops from Egyptian territory. France and Russia support the English view and Germany stands neutral. The presence of soldiers in alien territory has irritated the English government for a long time and the Sultan's refusal to withdraw them has been construed a sign of hostility.

HIGHWAY ROBBERY.

Charged Against Negroes Who Resist Arrest.

Commencement Program E. F. C. Loses Leg Getting On Train. Phosphate Cider Drunkenness. Daughters of Confederacy Memorial Day.

(Special Correspondence)

Greensboro, May 5.—On complaint of a negro railroad truck walker, Charles Donnell, that Tom Whitfield, Charles Cecil and Will Stewart, colored, had waylaid and robbed him a few miles north of here, officers yesterday afternoon arrested the three men and they are now in jail charged with highway robbery. Donnell said Stewart held a pistol at his head, while the others took his watch and all his money. The officers secured a hand car and overtook the men near Brown Summit. Being ordered to surrender, the man named Stewart drew a pistol and it snapped. He then jumped in the bushes and ran, the officers firing at him. He was struck in the left elbow, in the right arm and in the leg, and surrendered, being hand-cuffed and brought to jail with the other men. The wound in his left elbow is thought to be serious and physicians are attending him at the jail. The men claim that Donnell was sitting on the road gambling with them and losing his watch and money made the trouble.

Charlie Earl, the 12 year old son of Mr. and Mrs. W. M. Earl, who lives on Gregory street, had his left foot so badly mangled by being run over by a freight train yesterday afternoon about six o'clock that amputation was necessary. The leg was amputated just below the knee last night. According to information obtained Charlie attempted to board a moving freight train at Spring street crossing and in so doing lost his balance and fell, the wheels running over his left foot, crushing it into a jelly.

Samples of the phosphate cider which is on sale at a number of stores here has been analyzed by Prof. J. H. Bluford of the A. and M. College, and he found that it contained 12.3 per cent alcohol. He said that the cider was evidently made from fruit juice and corn whisky. On the strength of the testimony given by a defendant in the mayor's court a few days ago to the effect that the cider would produce drunkenness, Chief Needley procured samples and had it analyzed with the result as above stated.

The Guilford Chapter, Daughters of the Confederacy, are steadily at work for Memorial Day; The chairmen of the committees are women of executive ability, with experience in the work, and under their wise leadership the success of the day is assured. The Hon. Frank C. Rollins, of Lexington, will deliver the address, introduced by the Hon. A. M. Scales, commander of Guilford Camp of Sons of Veterans. Dr. Crawford, the chaplain of Camp 795, will be present.

Farewell to The Carnival.

The carnival is now a thing of the past. It has had the best kind of weather and the patronage has been liberal. The crowds have been large at night and each show has had a successful week. There have been a whole lot of things that might have been better and few that might have been worse, but the people seemed to enjoy themselves; consequently it must be voted a success. It is not the best carnival that has visited New Bern by any means. It shows at Wilmington this week.
