**New Coats Long and Short, Pretty Wash Dresses, Smocking and Other Self Trimmings, Fancy Neckwear, Malinette and Lace**

Automobile is responsible for many sensible modes and a few pretty ones. In the beginning it seemed as everyone were trying to see how hideous they could make themselves when indulging in this sport but gradually better looking styles have prevailed. As a rule the materials chosen for three-quarter or full length coats are of the rain-proof sort but this now embraces almost any substantial weave of silk or woolen. It is curious to note how the demand for waterproof materials, have been met on all sides. The latest fabric to take its place in this class is a waterproof maline known as

Malinette. "Malinette" has come just in the nick of time too, for never was there a season when maline was so much in demand. Almost every hat has more or less of it, and nearly every modish woman one meets is wearing a full wide

be silk, wool, cotton or linen, nothing seems so exactly right as the little silk coats that are being extensively worn. It is a pretty notion, much indulged, to have these little concoctions accord with the hat and parasol, and to choose them of a color that will go well with one's various toiles. Black is a good if rather sombre choice, and lingerie trimmings and touches of color can be employed to make it as youthful and cheerful as is desirable.

There are bran new collar stiffeners to be had this season that are more satisfactory than anything heretofore made. These come in dainty silk covered loops, elongated, round, at either end, and giving a double support wherever they are attached. These are known as "Tryone" collar stiffeners and are being used by the highest class dressmakers here and in Paris. The material is a secret but is guaranteed,

ruff of Malinette, if she is fortunate but of maline of some sort anyway. These ruffs are so pretty and becoming that they are irresistible to the woman who has a generous dress allowance. The woman with less hesitates, for she knows how perishable ordinary maline is, and that a ruff once flattened and made limp with dampness loses its attraction altogether. It is here that the new waterproof "Malinette" gets its innings, for dampness does not affect it at all, and even the economically inclined can indulge and be happy in the assurance that their newly purchased "ruff" will last a reasonable time.

Illustration. Thanks are due the McCall Co., makers and designers of fashion for handsome illustration accompanying this article. Dainty Gowns and Silk Coats. To accompany the dainty gowns that are the ruling style whether material

not to rust like steel, curl like celluloid, or stick into your neck as the feathered supporters are apt to do. In another form, a trifle thicker and heavier this same stuff is made up and called "Lastikon." In either style one can get the usual sizes and a white or black silk finish.

Wash Gowns. Wash gowns so-called for many of them never come to the laundress for rejuvenation are to be popular in the warm days of 1905 as they were in 1905. What more can one say? Materials are more enticing than ever and given a good pattern and a certain amount of "gumption" and skill with the needle, the prettiest sort of toiles are within reach of almost any woman. The silk and cotton fabrics are of many weaves and make fascinating dresses, at very low cost. Self trimmings are fashionable and a little smocking or tucking or frilling put on in braided patterns create either's both modish and inexpensive.

### THE TERROR OF A MIND DISEASED.

Sad Case of Insanity on Inmate of the County Jail.

A very pitiable case of insanity was seen at the county jail yesterday. The person was a young woman named Enla Oast whose home has until a year ago been in Kinston, but recently has made her home with the family of Mr. Gardner at 189 George street. Her father was Burton Oast, late a citizen of Kinston and the family having become poor, the young woman was sent to New Bern. She is about 19 or 20 years and in ordinary circumstances would be an attractive looking young woman.

The character of her insanity is both homicidal and suicidal and the family and neighbors where she has been, have lived in mortal terror of her for many weeks and the people have often had to keep their children locked up to save them from attacks; and then she has often attempted her own life. Yesterday she attempted to get up the fire place chimney and made a little progress in the act to the ruin of her clothes.

Jailer Williams and deputy sheriff White went and got her yesterday. They had no trouble to bring her to the jail and she seemed quiet and answered questions asked of her by Mr. Watson in a rational manner. Mr. Watson conducted an examination on her sanity last evening.

It seems a pity that there is no place that such an unfortunate person may be placed. The jail is too forbidding and unwholesome. There is no room at the asylum and the prospects are that the poor woman must be kept in the jail until some further disposition can be made for her.

### Sciatica Cured After Twenty Years of Torment

For more than twenty years Mr. J. B. Massey, of 3322 Clinton St., Minneapolis, Minn., was tortured by sciatica. The pain was suffering which he endured during this time is beyond comprehension. One application of that liniment relieved the pain and made sleep and rest possible, and less than one bottle has affected a permanent cure. If troubled with sciatica or rheumatism why not try a 25-cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by Davis Pharmacy and F. S. Duffy.

It always cures and is pleasant to take. For sale by Davis Pharmacy and F. S. Duffy.

# THE KING OF BLOOD PURIFIERS

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT CURES DISEASE." It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anaemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin

**S.S.S. PURELY VEGETABLE**

Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.
