State the Bear Work.

Bill Webster used his wit to save his skin. During a camping trip in the Maine woods he was easily the laziest man in the party. Finally his exasperated comrades told him that if he did not kill something besides time they would pack him off home. The next morning Bill borrowed a rifle and went off up the mountains. Two hours later the men in camp saw Bill running down again as fast as he could come, and close behind him was a bear. The men watched the chase, with loaded rifles ready. On reaching camp Bill turned and shot the bear. When the men could stop laughing one of them said, "Bill, what on earth possessed you to run that distance with the bear so close when you might have killed him on the hill and saved your breath?" Bill smiled slowly. "What's the use of killing a bear in the mountains and leaving him in when you can run him far?" he asked. - Boston Herald.

Moors Consider Us Dirty.

A habit of our own which we consider far more cleanly than eating with our fingers is looked upon by the Moors as filthy—that is, washing our hands or face in a basin and, still more, taking a bath where the water is not running. The cleaner we become, they say, the dirtier the water we are washing with must necessarily become, and eventually we step forth as cleansed from water which is no longer clean. A Moor to wash his hands has the water poured from a vessel over them and never by any chance dips them into the dirty water. The same way in their baths. The water is thrown over their bodies out of bright brass bowls and flows away through holes in the marble or tile floor.—Modern Society.

The Harvard Cross.

The iron cross burnished with gold which is over one of the entrances to the Harvard college library (Gore hall) was at the time of the 1745 siege of Louisbourg taken from a Catholic chapel and brought to Massachusetts as one of the spoils of victory. In 1877 Justin Winsor, the librarian of Harvard college library, found it in the cellar of the library and had it gilded and placed in the position which it now occupies.

Daring and Dexterous.

For a feat of dexterity and nerve it would be difficult to surpass that of the Bojesman of South Africa, who walks quietly up to a puff adder and deliberately sets his bare foot on its neck. In its struggles to escape and attempts to bite its assailant the poison gland secretes a large amount of the venom. This is just what the Bojesman wants. Killing the snake, he eats the body and uses the poison for his arrows.

SHORT PASSING EVENTS.

The telegraphic forecast received here yesterday indicated a northeasterly storm. Up to the time of going to press, however, there was but little sign of such a storm or of any other kind. A rainfall in neighboring sections gives us a little hope that we shall have showers within a short time. A stiff east wind yesterday kept the atmosphere uncomfortably cool.

The Journal office has received a paper of the Evening Sentinel published at Carlisle, Pa., containing the picture of Rev. J. Harvey Anderson, D. D., pastor of St. Peter's church. The article says that Rev. Anderson is a strong candidate for editor of the official paper of A. M. E. Zion church, The Star of Zion.

A cutting affray that will likely result fatally occurred in Kinston Monday. There was a baseball game in progress at Lenoirville, a colored suburb and a row arose between two negroes. The fuss increased in numbers and Charles Parker, one of the late comers was cut in the breast so badly that he may die.

There was one State case in the police court yesterday. Charlie Slade was charged with having sold an intoxicating beverage known as cider. He was put under a one hundred dollar bond to prove to the Superior court that it was not cider. Another case was cited for trial, Frank Slaton, shooting fire arms within city limits. His case was continued to Saturday on his request.

The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced nor live with out them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." Not II as Rich as Rockefeller.

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, both for children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by Davis Pharmacy and F. S. Duffy.

THE GREATEST OF ALL TONICS

The ingredients that enter into S. S. S. and the method of combining and preparing them so that they build up and strengthen every part of the body, make it the greatest of all tonics. S. S. S. is nature's remedy—PURELY VEGETABLE—and while it is restoring the lost appetite, overcoming that tired, run-down feeling, and other ailments common to Spring, which warn us that it is necessary to take a tonic, it is purifying the blood of all poisons and waste matters so that it can supply to the system the strength and nourishment it needs to keep it in perfect condition during the depressing summer months that are to follow.

Spring is the season when most every one needs a tonic. It is nature's time for renewing and changing; and as everything puts on new life, the sap rises in vegetation, the earth thaws out from its winter freezes, and all respond to Spring's call to purge and purify themselves, there is a great change also takes place in our bodies. The blood endeavors to throw off the poisons and accumulations which have formed in the system, and been absorbed by it, from the inactive winter life, and calls upon every member to assist in the elimination. The system is often unequal to the struggle, the appetite grows fickle, the energies give way, the spirits are depressed, and a general run-down condition is the result.

Then the body must have assistance—it must be strengthened and aided by a tonic, and S. S. S. is the ideal one. Being made entirely from roots, herbs and barks, it does not disagreeably affect the system in any way as do most of the so-called tonics on the market, which contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, unfavorably affect the bowels, or otherwise damage the health. S. S. S. tones up the stomach and digestion and assists in the assimilation of food; it rids the system of that always-tired, worn-out feeling, and imparts vigor and tone to every part of the body. It re-establishes the healthy circulation of the blood, stimulates the sluggish organs, and calms the unstrung nerves which make one feel that he is on the verge of prostration. S. S. S. gives an appetite and relish for food that nothing else does, and by its use we can find ourselves with as hearty, hungry an appetite in Spring as at any other season.

It acts more promptly and gives better and more lasting results than any other remedy, and is absolutely safe because of its vegetable purity. Dyspeptic, irritable, nervous, debilitated people will find S. S. S. is just the medicine that is needed for the purification of the blood, which, from its diseased or impure condition, is causing their trouble, as well as for toning up and helping the entire system. When you take your tonic this Spring do not experiment, but get the best—the tonic with forty years of success behind it, and the one endorsed by the best people all over the country—S. S. S., THE GREATEST OF ALL TONICS. It is necessary at this time, when the system is depleted and weakened at every point, that the right remedy be used—one that is especially adapted to the condition, and S. S. S. has proved itself to be this remedy for many years. If it is taken at the first sign of Spring the system will be so built up and strengthened that the disagreeable affections of the season will not be felt as warmer weather comes on.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Russells Creek

May 22, 1906.

The farmers carry long faces now, the dry weather is so discouraging.

We are glad to note the little son of Mr. and Mrs. Nathan Ferrell is improving.

Mrs. Sallie A. Springle, who has been visiting her daughter in Norfolk, Va., returned home Friday. Her very many friends were glad to welcome her home.

Rev. W. B. Avery filled his regular appointment Saturday and Sunday.

Mr. and Mrs. John Sabiston, of Core Creek, attended services Sunday.

Miss Janie Lewis, who has been teaching at Russell's Creek academy, closed her school last week with an entertainment. The recitations were very nice, also the dialogues and music.

Miss Janie Lewis returned to her home in Beaufort Sunday, accompanied by a few of her friends.

Mr. and Mrs. W. G. Dudley and little son were guests in our neighborhood Sunday.

The little shower we had Saturday afternoon made the farmers smile.

We are glad our Sunday school is still in good progress.

Rev. J. R. Jinnett will fill his regular appointment Sunday at the Discipline church.

Rev. J. B. Russell, who has been on the sick list, is slowly improving, which his many friends are glad to hear.

Misses Mattie Duncan and Willie Williams were the guest of Mrs. L. L. Springle last week; they returned home much to the regret of their many friends. "BLUE EYES."

Stomach Troubles.

Mrs. Sue Martin, an old highly respected resident of Faisonville, Miss., was sick with stomach trouble for more than six months. Chamberlain's Stomach and Liver Tablets cured her. She says: "I can now eat anything I want and am the proudest woman in the world to find such a good medicine." For Sale by Davis Pharmacy and F. S. Duffy.

The New Coal Chute

The new coal chute located on the A. & N. C. railway close to National Avenue is now nearly completed and is quite an institution. It is for the purpose of supplying coal to locomotives and will contain five or six cars of coal. Although not occupying very much area it is very substantially built. The foundations are solid masonry laid ten feet in the ground and the super structure is made of massive beams of oak. It was built at a great expense but will be a help to the company.

PERMANENT MEADOWS should have an annual dressing of 500 pounds per acre of a fertilizer containing eleven per cent. POTASH and ten per cent. available phosphoric acid.

This will gradually force out sour grasses and mosses from the meadows, and bring good grasses and clovers; thus increasing the quality as well as the quantity of the hay.

Our practical book, "Farmer's Guide," gives valuable facts for every sort of crop-raising. It is one of a number of books on successful fertilization which we send on request, free of any cost or obligation, to any farmer who will write us for them.
