

SHORT PASSING EVENTS.

Attention is called to a notice to the Knights of Honor which appears in this issue and which explains itself.

The Jumbo fig of the season, arrived at the Journal office Wednesday. It weighed six and one-fourth ounces and measured full nine inches, circumference. The mammoth specimen was grown by Mr. Samuel Parsons on his premises, on Craven street, and is of the Royal Purple variety one of three being the first crop borne by the tree.

Governor Glenn passed through here last night, taking the steamer for Oriental, where he gave an educational address last night.

The Beaufort base ball team defeated the Kinston's at the latter grounds yesterday by a score of 1 to 0. Batteries Longest and Chadwick for Beaufort and Shell and Armstrong for Kinston.

Two heavy rain-falls yesterday amounting to over an inch. The storm of last night was one of the most furious we have had yet.

The semi-weekly ice cream party at A. B. Wallace's at Bridgeton occurs tonight.

The rain gauge used for measuring the rain fall indicated that there was 1.28 inches precipitation Wednesday evening. The storm which made this record lasted but a little over twenty minutes; consequently it must have been very severe, a miniature cloud burst, in fact.

Mr. I. L. Cosby received a rambler automobile yesterday. It is of the touring car variety and is a fine machine.

The revival meetings at the Tabernacle Baptist church which have been conducted by Rev. C. W. Blanchard of Clayton for several days were closed last night. The attendance at the meetings has been fair, the weather interfering somewhat with a larger attendance. There were several conversions.

The Kinston Free Press showed commendable enterprise in giving an account of the corner stone laying exercises in full. The paper was embellished with cuts of the speakers, a cut of Hon. D. L. Ward also appeared in that issue. The paper was issued in 8 pages. The usual issue is 4 pages.

The negro, James Henry Bryan, who was shot and dangerously wounded by constable Dwight Styron last Saturday is reported as improving and he may recover.

A dance was held in the Armory last night. Music was furnished by the Thurman Cornet Band.

It is a fact worthy of note and commendation that there was no rain yesterday.

The dog editor of the Charlotte Observer is a peach. Its a cold day when he can't throw off a half column or more about some wonderful canine inhabitant of Charlotte. Not many months ago he had a story a column and a half long about a dog fight which could probably be told as intelligently in six inches space.

The tobacco crop is reported to be seriously injured by the weather conditions.

One of the largest local cotton sales of the year was made yesterday when Mr. E. H. Meadows sold 200 bales of cotton to J. E. Latham & Co. at 10.75.

A good orchestra has been engaged to play for the dances at Wallace's pavilion tonight at Bridgeton.

Mrs. Lucy A. Cunningham, widow of the late Dr. Jesse Cunningham of the N. C. Conference, died at Greensboro, Wednesday, 68 years of age. She was sister-in-law of Mrs. Kate Richardson and Mrs. Margaret Griffin of our city and well-known throughout the State as president of the Alumnae Association of Greensboro Female College, and of the Woman's Foreign Missionary Society of the N. C. Conference. She was a woman of unusual ability, conversation and usefulness, and her death will be universally regretted.

The dry goods house of Charles Blomme, Wilmington, made an assignment Wednesday. The liabilities are placed at \$7,500 and assets at \$5,500.

This paper is in receipt of a notice from the George C. Snyder Traveling Piano and Pipe Organ shop, as follows: "We will be in New Bern in a few days for a short stay with a complete line of material for rebuilding, repairing, voicing and tuning. My former patrons and others interested will be notified on arrival through this paper. George C. Snyder, of Washington, D. C."

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. "George, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of. The "Words of Praise" for the several ingredients of which Dr. Pierce's medicine is composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonial" as conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has this honor or honesty on every bottle wrapper, in a full list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Home, Sweet Home.

The Journal is in receipt of a letter from Mr. J. B. Hanks, formerly of this city, now of Houston, Tex., a valued and esteemed subscriber. A liberal renewal is enclosed for which the paper is accordingly grateful, but the kindly sentiments expressed in the letter for his home are such that the Journal takes pleasure in publishing an excerpt, that Mr. Hanks' many friends may know how he values the memory of the happy days spent here in the past:

Houston, June 23.
"I don't want the paper discontinued, it keeps me in touch and memory of my old home is a pleasure to me to read and think over the many pleasant times and happy days. I realize something of the meaning of what the poet writes, 'The man who forgets entirely his native home and its happy memories his soul is dead within him.'"

Cove

June 23.
The wet weather has ruined crops but cannot say how much; tobacco, lots of it is dead, cotton in some places is red and grassy, and corn in low land is turning red.

C. F. Taylor has over two hundred barrels of potatoes to ship, but prices have gone down now.

The heavy rains of last week were the cause of potatoes rotting in the ground. W. C. Davis lost his crop, they all rotted, several have lost part of their crops from the same cause.

If the weather don't settle soon so the people can get the grass out of their cotton, it will soon take it.

Mr. T. E. Outlaw left for his home in Kinston today after a three weeks' visit to his daughters at Cove and Tuscarora.

W. T. Meloy is all smiles; it is a girl. The report of one Wetherington being murdered is a mistake. The people around here know nothing of it.

J. F. Robinson has gone to Dover to work in the Goldsboro Lumber Company's shop.

Mr. Hancock Succeeds Himself.

It was a matter of gratification to his many friends to note that Mr. S. W. Hancock had been re-appointed postmaster at New Bern. This is Mr. Hancock's third term and he has filled his office acceptably and to the satisfaction of the government. His administration has seen one of the greatest eras of prosperity the city has known. The post office is one of the best places to watch the growth of the city and established the post office on a rating of second to none in the State.

Terrorists killed three detectives in Warsaw, Russian Poland.

MUTINEERS WERE PIRATES.

A Strange Story of Condemned Men Who Not Only Murdered Seamen But Looted Ships.

The Wilmington Star of June 28 published a strange story of the mutineers, Sawyer and Adams, condemned to be hanged in August. It says that a letter has been found and is now in the possession of the clerk of the United States court in which will be found evidence that piracy was practiced and robbery and murder had been committed on the high seas all along the coast from Maine to Florida and that the tragedy of the schooner Harry A. Bonwind for which the men are to hang was one of a long list of crimes.

The document mentioned is closely guarded and the contents are not made public except as already stated that piracy exists along the coast to a considerable extent and that just such men as Sawyer and Adams are concerned in the deeds.

First Cotton Blossoms

The Journal office has received three cotton blossoms this week as an earnest progress of the crop. Farmers are somewhat dubious over their crop on account of the weather, but there is a good chance left still for improvement to set in and make a large crop. The blossoms come from widely separated places and tend to show the condition of cotton in this section. They are from the farms of M. M. Shute, Rhems, S. E. Melton, Pollockville; and N. C. Weeks, Cedar Point.

June 37.

Very little rain has fallen here for the past two weeks and the weather is not extremely hot. These two good conditions of the weather makes it very pleasant for the thousand teachers that daily parade the beautiful lawns of the A. & M. College.

A lawn party at the Capitol Square was greatly enjoyed by a number of our delegates Tuesday evening, June 26th.

Tuesday night in Pullen Auditorium Dr. Edwin A. Alderman, president of the University of Virginia and known throughout the South as one of the most influential educational speakers, spoke to a large audience. Dr. Alderman is a native North Carolinian with a grand record, briefly, he told the story of his visit to this State, and how much pleasure it gives him to meet so many familiar faces, and to note the great improvements that have been accomplished. Later he told how North Carolina has always been to the front in so many unfavorable circumstances, and of the present growth of educational influence throughout North Carolina.

In honor of Mr. Alderman's visit a reception was given at the home of Mr. Josephus Daniels' Wednesday night. All the faculty and delegates to the Summer School were invited to be present on this grand occasion.

On Monday evening Col. F. A. Olds, director of the museum, took us through the Hall of History. The Colonel is a grand gentleman of some fifty years, but judging from his activity and the pleasure he seems to have in explaining the relics, especially to the young ladies, we would not say he was more than thirty. Among the many relics we saw, was the pistol used by the famous pirate, Edward Teach, or "Black Beard," and the bell used by Gov. Tryon while in New Bern.

Strange to say, out of a thousand teachers, if there is any here from Jones county, we haven't met them.

Where Will You Spend The Fourth?

The Fourth of July begins to show its approach, and people are planning where to spend the day. Inasmuch as there is not to be any celebration in New Bern we may all as well go if there is any place to go. Morehead expects to have a big crowd and the Atlantic hotel is preparing for a rousing time. There are to be some good attractions down there, especially the dance. Efforts are being made to have a train return to New Bern after the dance, and quite likely the efforts will be successful if a sufficient number can be secured to warrant the running of a special.

Spend the day at Morehead. We guarantee that you will enjoy every minute that you stay there.

Unknown Friends.

There are many people who have used Chamberlain's Colic Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by Davis Pharmacy and F. S. Duffy.

That Fourth of July Train.

The Journal is not disposed to enter into an injunction suit or anything of the kind, but would say that the Fourth of July special train to Morehead that is to be put on that day is a great inconvenience to the citizens of New Bern who would like to participate in the dance at the Atlantic on the night of the Fourth.
