Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are us-ally due to the fact that the nerves are Nervousness and sleeplessiess are usually due to the fact that the nerves are not fed on properly nourishing blood; they are started nerves. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and strennous—you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are lasting. good for a whose for or physical or meetal work. Best of all, the strength and increase in vitality and health are lasting. The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weekened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper The Budge of Honsyty, has full list of all its several ingredients. July 4. Among the farmers we have tried to get a fair estimate of the damage done to the crops of our vicinity, but estimates are so different as made by different farmers that no correct conclusion can be made. It is evident however that the greatest rainfall was about the middle of our county, both extremes having reported much lighter rains than have fallen in the vicinity of New Bern, and the rain of Sunday afternoon evidently centered around Bellair as we have noticed it was much lighter near Streets ferry and also at New Bern than it was here and now at Tuesday noon there are acres of cotton and other crops under water, and very little that can be cultivated yet, as the ground is so completely full of water. Corn and cotton are yellow generally, though there are a few exceptions where each has stood the weather and looks well It is impossible to estimate losses as we cannot tell how much recuperative energy there is remaining in our soils, but we cannot yet know if we have favorable conditions from now on what wonderful improvements will take place in the standard crops. Of course where our potatoes are rotton that is a complete loss and yet we have the chance of another crop from the land, and if we get a good crop of pea-vine hay, it is not so bad after all. We occasionally hear the sad wail 'ruined,' "crop half out off" &:., these expressions are unwarranted and useless, and do more harm than good. No man is ruined as long as he has a wife and children to love him, and if he has no one to love him he was about ruined rain or no rain. Qn on ? farm in our midst mulberries floated off, the was swam over the fence and ate the roasting ear corn; the peaches rotted and the faithful old cow went dry, so there is no milk and peaches in that ome, but it might be lots worse. Perhaps the germs of many diseases are ers for a few day and they are now washed into the broad Atlanti; so some liseases may thus be averted.

We can't tell just yet what effect the continued rains will have on the Methodist Conference that convenes here this week, but rather think it will be a dampening one.

The republicans held their convention here Saturday for the purpose of electing delegates to the State, Judicicial, and Congressional Conventions. It was a small affair in point of number, but it looked at one time as if it was going to be warm. Mr J R Rice led the fight for the organization and Mr Philip Jones strongly opposed him. They finally agreed if both Judge Adams and Spencer Blackburn were candidates for the tate Chairmanship, then Adams was to have six seventeenths of the four votes that the Pamlico delegation is entitled to cast. If one is a candidate and the other is not, or if both are not candidates, then the delegates uninstructed. The following are the del-

A QUIET DAY IN NEW BERN

Occasional Firecracker and Beat Races About all There Was to the Fourth

It is doubtful if there has ever been more quiet Fourth of July here than esterday was. The popping of firecrackers was heard quite often and the cutter was decorated more than is usual giving evidence that there was the observance of a holiday. The colored people also had their fun, a great many coming here from other places but compared with other years the Fourth was uncommonly quiet.

The most exciting demonstration was the county convention and the most interesting event was the faunch races. In the evening fire-works were displayed quite generally.

The annual dinner given by the aughters of the Confederacy was
