#### THE WOMAN'S CLUB EFFECTIVE. NESS.

Notice appeared in these columns : few weeke ago, that the last meeting of the year of the Woman's Club of this city' was to be held. This did not mean the last meeting of the year 1906, but the last of the club's year, as the summer would oppose any regular meet ings or the extension, or continuation to any extent of the work of the several departments which has engaged the attention of the members during the

past year. Without any data at hand, the Journal would say that the efficctiveness of the Woman's Club during the year had been more real than apparent, that is what it had accomplished was more of the order of beginnings, which demand a following up, and not work done which shall remain without need of further effort, or seeing to that it be maintained. That the club has established reforms and betterments, can be testified to, and noted in New Bern, but more has been done in suggestive lines which are not now but are to be, which must be followed up and consummated either through the willingness of those who are pointed out the way to city betterments, and accept the advice, or through the diplomacy of

the members of the club, which no one is going to be able to resist, much less evade or escape. One thing which the Journal believes has been of special value to the Woman's Club, has been its meetings, and

perhaps more especially those when

erand the me

phas add

VERKLY HOURNAL Bern, there is no greater security todestructive fires may not take place at my time in this city. Every month's delay in this matter,

> keeps householders and those who own property liable to fire destruction, in constant danger, and jeopardizes hundreds of thousands of dollars of perishable property. It means ever increasing fire premiums, and the feeling of uneasiness which now prevails every time the alarm sounds for fire in down town portion of the city.

REPUBLICANISM. STATE AND NATIONAL.

The speech of Secretary of War, Mr. Taft, delivered at Greenstoro, N. C., last Monday night, was an able address, one which provoked the applause of Republicans, and one which calls for the consideration of Democrats, for while the speech will have little effect, that is to change Republican conditions which now exist in North Carolina, coming as he did, representative of the Roosevelt administration, it is wisdom for the Democrats to note the political attitude taken, and to be prepared

thereby for what the future may develop:

Two points in Secretary Taft's speech call for special attention. The first to quote

I do not wish to seeem ungracious but I must be candid. In my judgment, the Republican party of North Carolina would be much stronger as a voting party if all the federal offices were filled by Democrats.

As long, however, as the Republican party in the Southern States shall rep-resent little save a factional chase for federal offices in which business men

and men of substance in the community have no desire to enter and in the result of which they have no interest we may expect the present political conditions of the South to continue. While this expression of the evil of office holding as it now exists in the State, no doubt received the plaudits of many Republicans who heard it, yet there was not one office holder who felt stirred enough to offer to get out, and let a new order of federal office holding begin in this State. It is this very tenacity of federal office holding in North

Carolina which perpetuates a Republicanism, which recognizes office as the principle, not incident, to Republicanism. If a survey of the State will be made, it will be found that there has not been any success in any movement in the Republican party for the past quarter of a century, which had for its

purpose the exaltation of principle over office. Organization has meant, and means today, among North Carolina Republicans, the strength of federal office holding against any politics which

# POSSIBLE NEW THEATRE

Under Different Management at Raleigh. Blind Tiger Hard Hit. City Water

Contract. (Special Correspondence.)

Raleigh, July 10 .- The members of he Sub-Text Book Commission as anounced yesterday are formerly sworn in this morning the office of the Governor. Headquarters had been established in the Senate Chamber where exan instions and other works of the commission will be carried on. Masses of books are piled about the building. The Superintendent of Public Instrution has received information that a local tax has just been voted at Old Trap District No. 2 in Camden county. There is every likelihood that Raleigh will have another theatre and under a different management. To this end it is possible that the old Metropol itan Hall over the city market will be eased in which event it will be thoroughly renovated and modernly fitted. An attorney for the Wake Water Co. last night appeared before the Raleigh Board of Aldermen making a proposition that the city renew the contract with the company for furnishing water for all purposes. The mat ter was again referred to a special ommittee, appointed some months ago to value the Wake Water Company's plant and to negotiate with a view to purchase. That relationship was, however, discontinued owing to a disagreement relative to making public certain facts and figures of the water company's property. The proportion now

made by the water company would mean a reduction in the rates with a guarantee of purer water for all pur-

The fact that blind tigerism may not rosper in dispensary Raleigh was well evidenced by the fact that Lewis Spencer a Raleigh negro convicted in five separate cases of retailing, his fines amounting to nearly three hundred dol lars was sentenced in police justice's ourt for a term of seven months. Hillsboro street from the fair ground to the capital square will be double

tracked for the operation of electric street cars, it is stated, in time for operation by the next State Fair to be held in October. It is possible that Fayetteville street also will be double tracked.

ship and its friends, has there been a gain to the club, and on this line the Journal believes that if the club can secure two or three good speakers next fall, it will be the means of promoting the club's strength, and bringing together its membership for work, as nothing else could do.

There is very much for the Woman' Chub to do, and always will be, and the Journal looks forward with undisguised interest and concern to see its work go forward to the beautifying and betterment of many things in New Bern which are of vital importance in their good for the city's development and growth.

#### THE EVIDENT NEED OF PAID FIRE DEPARTMENT.

If additional evidence was needed to their hide bound democracy for there prove the absolute need of a change cannot be found in this section the from a voluntary to a paid fire depart- fraud and graft to be found in Repubment service in New Bern, any doubter who was out at the recent fires, would have been clear in his mind from what he saw at those fires, and declared at once for the change.

As for the past two years, the Jouraal sees more and more the demand for | ed with kidney trouble for five years the change in the system of fire hand- had severe pains in back and a frequen ling and fire fighting in this city. As so often before said, it is not that the local volunteers do not work, and exert their best efforts, all most willingly and with no reward for what is done, but conditions have changed, and no voluntary fire service in a city of this size is going to meet the calls for service, as will a fire department which is paid. And the whole solution may be found in one the word,-paid, for where men are paid there is the demand for services at every hour, upon every occasion and any failure to meet requ sonn dismissal. It is the differen intween what is demanded and what is tarily given, a business proposition, which can be changed at an hour's

The the theory so often express is the increased premium which may fall upon insurers, unless there he bet-

might mean a new crowd to take the jobs. All opposition comes under the head of "insurgents" and is promptly crushed by the powers which hold position and can in a way leave offices as an inheritance to those found worthy, who may follow.

In the political thraldom which Secretary Taft says exists in this State because of Democratic supremacy, while the political health is not as good as it might be under two good opposing political parties, yet there is the certainty of a safe administration at present, and a local development, prosperity and continuous growth, which could not be, if there was the possibility of a change to State Republicanism. As

compared to northern states, which are closely Republican, there is much in favor of the Southern States, albeit
