STEWART SANITARIUM BUSY.

Fourteen Patients of Whom Four are Surgical Indicates That Treatment There is Successful.

The Stewart sanitarium is filled with patients now and the nurses and doctors have a busy time there. The institution has gained wonderfully in popularity and it is becoming known the best of medical treatment and the best of care is given there.

Surgical cases have been very successful there. The fact that all kinds of appliances are always ready and surgeons and doctors of established reputation are always on hand.

The case of Cicero Buck, white, who was almost crushed to death by being caught between a belt and a fly wheel of the engine at the Griffith street mill last Saturday, is regarded as out of the ordinary as his injuries were considered very serious.

There is great need of pupil nurses there. Young women can receive expert instruction and be placed in position to gain a competent livelihood.

CONTAGIOUS BLOOD POISON

HUMILIATING—VILE—DESTRUCTIVE

The very name, Contagious Blood Poison, suggests contamination and dread. It is the worst disease the world has ever known; responsible for more unhappiness and sorrow than all others combined.

No part of the body is beyond the reach of this powerful poison. No matter how pure the blood may be, when the virus of Contagious Blood Poison enters, the entire circulation becomes corrupted, the humiliating symptoms begin to appear, and the sufferer finds himself diseased from head to foot with the vilest and most destructive of all poisons.

Dear Sirs:—I had a friend who had a bad case of Contagious Blood Poison and was in a terrible condition.

He tried all the medicines he could hear of, but nothing did him any good. He went to Hot Springs but it was like the other treatments he had used, and he was in despair of a cure when he heard of S. S. S. After taking it for awhile the sores all healed, his hair stopped falling out, and, continuing with it, he soon found himself cured entirely of this hideous disease. JOHN LESLIE, Rookford, Ill. 719 W. State St.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S. and began to improve. I continued the medicine, and it cured me completely. W. B. NEWMAN, Hamlet, N. C.

Mercury and Potash are commonly used in the treatment of Contagious Blood Poison, but these minerals cannot cure the disease—they merely mask it in the system.

All external evidences may disappear for awhile, but the treacherous poison is at work on the internal members and tissues, and when these minerals are left off the disease returns worse than before, because the entire system has been weakened and damaged by the strong action of the Mercury and Potash. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the great vegetable blood purifier. It attacks the disease in the right way by going down into the blood, neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system, and cures this humiliating and destructive disorder permanently.

The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood and the sufferer is completely restored to health.
