The first Bogue sound melons arrived Thursday, a boat load of them. The melons were of fairly good size and quality and was eagerly bought up by the hucksters. The reports are that the crop while late will be fairly good in the Sound section.

The authorities made a raid on a poor little "blind tiger" down on market dock, and made a "glorious" capture. Carried away a bottle of beerine that is an insult to the memory of lager beer and one little bottle of sure enough "Blue Ribbon," which the trainer says was given to him by a friend.

The dogs of Kinston are an educated breed, as so the Free Press would infer. Sometine ago that worthy and esteemed paper had cause to complain about the dogs on a certain street making a nuisance of themselves barking all night. It seems that after the dogs read the complaint they resolved to be good and the noctural disturbances has become as the memory of an unpleas-

The mosquitoes are holding high carnival now, night and day. It is noticed that the species are unusually small and they are almost jet black. Nets don't seem to turn them and they are so determined they will creep beneath the covering to present their bills.

Thursday morning was ushered in with rain and at one time it looked as though it would continue but the air cooled off and the day passed off clou ly without any more rain.

The United States dredge has been steady digging out Trent river from the A. & N. C. railroad bridge towards the confluence with the Neuse for nearly a year and the amount of stumps and logs taken from the stream is something wonderful. Many stumps so large it required the use of dynamite to blow them up. One stump has been noticed that measured fifteen feet across the roots, while many other large ones have been blown to pieces and the measurements are not known. These stumps have been taken from about middle way the stream and their presence would indicate an ancient swamp which has been gradually submerged as they cannot cut their way into joint upon which reposes the city.

The Atlantic Coast Line train did not arrive last night until 9:15. The engine broke down and another engine had to be supplied from Wilmington.

## Let Us Have Light

Mr. Editor : The many friends of Mr. W. C Brewer would delight to honor him in any way which could not be construed as endorsement of views to which they

are opposed. His record in war and in peace commends him to all our people favorably and all would be glad if he would commit himself on the question which is most vital just now.

Moral questions are rightly overshadowing all others with the people of our community and certainly a candidate for the legislature should let the people know how he stands upon questions which he may have so much influ-

ence to the determination of. As he was foreman of the Grand Jury which failed to find "true bill" in so many "blind tiger" cases, we are interested to know how Mr. Brewer will vote upon temperance questions which may come before him. Will he, or wil he not support measures favored by the e people of this town?

President McNeill in responding to Drive in Ashevitle, Tuesday, took occasion to throw same nice boquets to the haldres which they well deserve. The following is one of the prettiest:

"Ask me to point out to you a pictore of the highest type of American Wheeler, rather it would be a man coming from a burning building through his breast the sweet form of a babe. and, he udded, "I have the honor to be at the head of 100,000 such heroes."

## The Dance Saturday Niget.

The fancy dress ball and masquerade Saturday night at the Atlantic hotel will be one of the greatest events of the social season at Morehead. It is expected that more couples will participate in the dance than the one on 4th July night and that was deemed as a record breaker. It will be well worth the cost of the trip to witness this af fair even if you do not care to dance.

It is said by those who are capable of knowing that the music furnished at these dances are something grand.

## Dance at Bridgeton.

Ladies and gentlemen get ready for the big dance at Bridgeton tonight The crowds have been so large at Mr. A. B. Wallace's darking hall the last few times that he has been compelled to build a new floor, larger and better and the dancers of New Be n and Bridgeton will soon have a nice level floor, all c'osed in. No one will be nllowed within only those who pay. We will furnish nice music, and we guarantee good order.

Spring comes with its sunshine, its fresh vegetables and all else invigorating, but the children are in no condition to receive nature's reme

Many parents call in the family physician. Many other parents take advantage of what the physician told them when he was first called in consultation All good family physicians say: "Give the children Castoria," Healthy parents know this remedy of old, for more than thirty years ago that Casteria has made a place for itself in the household. It bore the signature of Charles H. Fletcher then, as it does today. The signa ture is its guarantee, which is accepted in thousands of homes where there are children.

Much is printed nowadays about big families. Dr. William J. McCrann, of Omaha, Neb., is the father of one of these much-read-about families. Here is what he says:

"As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have, in my years of practice, found Castoria a popular and efficient remedy in almost every

Harry Thaw States That He Never Was in Better Physical Mental Condition.

Special to Journal.

New York, July 11.-The efforts to make the murderer Harry Thaw insane has aroused a world of protest in the breast of Thaw himself. He wants the newspapers all over the country to announce that he's no lunatic and that he never was in better physical or mental condition. He desires his attorneys to have experts examine him for insanity.

Mr Editor :-

In a recent issue of the Journal the name of Mr. M W. Carman, of the 9th township, has been mentioned as a candidate for County Commissioner.

In my opinion the public can not select a better man to fill the position and I trust that in the coming primary, Mr. Carman will receive the support of every man who desires this position to filled by a democrat who will reflect credit upon the community.

doing more thorough educational work. E. Y. WEBB, M. C.

I take pleasure in bearing testimony regarding the Piedmont High School. I have spent some time in this school and found the work of the class rooms to be thorough, practical and far reaching in its scope. The teachers are devoted to their work, are thoroughly competent, and they spare no effort in making the class oom a place of interest to the pupil. The school also has an excellent literary society. One of the strongest high school debates I ever listened to was the one given by the members of this society. In my opinion this school deserves a place among the best schools in this part of the State, and I readily commend it to all the people.
