COLD STORAGE INVESTIGATION
New York Tribune.

Dr. Wiley's investigation of the system of cold storage of poultry and other articles of food is a timely undertaking, in line with the inspection of meats at the packing houses and with the Tribune's recent suggestion that poultry might be as proper an object of inspection as beef or pork. In two major respects the inquiry will be of peculiar interest and will strongly appeal to multitudes of people to whom some features of the food storage business have long seemed doubtful.

It will be of interest, for example, to know, so far as science can ascertain and tell, precisely what is the effect upon articles of food of long storage in the cold. It is well known that cold prevents decomposition of the ordinary kind. Indeed, it has been known to preserve flesh in an apparently fresh condition for a very long time. But it has been an open question in the minds of many whether some other changes may not occur in frozen flesh and other objects which render them undesirable, if not directly noxious. Men who would accept without hesitation as perfectly fresh a fowl which had been in cold storage for many days would look decidedly askant at one which had been thus kept for as many years. It would be interesting and useful to know whether or not frozen food does deteriorate, and, if it does, at about what time.

THE NEGRO AT JAMESTOWN

The Norfolk Virginian Pilot states very clearly the status of the negro at the coming Jamestown Exposition as an exhibitor. In this exposition, as on many previous occasions of public importance, there is the cry raised by ignorant or prejudiced persons, of discrimination against the negro. From one side, if there is an invitation extended to the negro to join anything the white man goes, there is the cry of "coddle," and at the same time, "on another side there will be the cry 'Jim Crow.'"

So far as the Jamestown Exposition goes the negro is incident, not peculiar. It was entirely right and in order that the colored race should have an opportunity to exhibit their individual and race progress. The negro is of the South, is best treated and most representative of this section, therefore if he shall show his progress at the Jamestown Exposition, there is no reason whatever a comment should be made. There will be hundreds of thousands of negroes at the Jamestown Exposition next year sight seeing, and their not being given a chance to show what advancement, as a race they have made, would be absurd, it would be more consistent to bar out foreign nations, showing their progress, as to bar the colored people of the South.

ONEAT OPPORTUNITY TO ADVERTISE NEW BERN

There are notices almost daily in the newspapers, certainly weekly, telling of cities throughout the country, which are advertising their resources, telling of their special advantages for capitalists, of their situation for the investor and home seeker.

ment and great financial and industrial growth for the cities which enter this race to attract outsiders, and those cities which fail to realize the need of this, or hesitate to act once the course is seen, are going to remain deserted and non-progressive and to be forced into the back ground.

Next year will be the two hundredth anniversary of the settlement of New Bern, and this offers a great opportunity for its citizens to get together, and advertise Old New Bern so well as to make every one forget its age, and desire to take up their residence here at once, in a place that shows so much public spirit, and which offers so many attractive chances for the investor or business man. This two hundredth anniversary could be made the occasion covering several days, of presenting a great out-door scenic series of tableaux, dealing and treating of the great events of this city's past history, and arranged in the right way and presented under a management which would not hesitate to do it right, and on a great and elaborate scale, it would prove of tremendous value to New Bern and attract thousands here during the days of the presentation of the scenic historical display, and advertise the city a hundred times the cost. This work, if undertaken, should be started at once so that a complete presentation may be made and time be taken in getting all in order.

Police Court News.

Mayor Patterson has the pleasure of being able to give a brute the limit of the law without a bit of compunction of conscience. Weldon Mann was charged with cruelty to animals. He is a transfer driver for Mr. C. M. Heath and had been using the horse on the hack all day. At night he drove to Vanceboro giving the poor animal barely time for feeding. He drove back reaching New Bern at day break so as to be ready for business next day with the same horse. Nature, however, came to the relief of the animal and it collapsed, saving it from further abuse at the hand of a merciless driver. The Mayor ordered Mann to pay 50 dollars fine or go to jail for 30 days.

County Boards of Elections.

Raleigh, July 14.—The State Board of Elections will appoint the county boards at its meeting on the first Monday in August. Not more than two members of the County Board shall belong to the same political party. The State Chairman of each party shall recommend three electors in each county, from whom the County Boards shall be made on or before the first Monday in August.

Very truly yours,

Was It a Suicide?

Yesterday afternoon two gentlemen who had been driving over in No. 7 township, returning found a colored man lying beside the road, in a dying condition. The man was apparently about thirty years of age, was neatly dressed, and was lying on his face holding in his hand an empty pistol. The stricken man was unconscious and perfectly helpless, with just life in him. He had been discovered by some passing colored people before the white men appeared upon the scene, but they were afraid to approach what they thought was a dead man. The place of discovery was on the south side of Scotts Creek in what is called Graywood, and the dying man is said to be one Charles Rhodes. The gentlemen came on to town, were unable to give any particulars as they made no examination of the body. A crowd of the people living near by had gathered in the meantime. It is not known whether it is a suicide or came from natural causes.

A Twenty Year Battle.
"I was a lawyer in a twenty year battle with chronic piles and malignant sores, until I tried Buckle's Arnica Salve, which turned the tide, by curing both, till not a trace remains." writes A. M. Bence, of Farmville, Va. Best for old Ulcers, Cuts, Burns and Wounds. 25c at all druggists.

Busy Season at Morehead

The season at Morehead is at high tide and the gaiety has never been equalled. The guests at the hotel number about 1,000 and there are constant additions. House parties are numerous and recreation and camping parties are not a few. Conspicuous among the arrivals this week are the one hundred boys from Raleigh composing the "Sunshiners" and under the chaperonage of Col. F. A. Olds. Col. Olds went to Morehead last summer with this society and they had such a pleasant time they voted that Morehead was the only place for them.

Central Carolina Fair.

The premium list of the Central Carolina Fair has been issued and it will pay all farmers and others who are interested to investigate the inducements offered. Premiums and purses are larger this year than ever before. The fair will be held in Greensboro October 9-12. It is an institution which has grown with every other valuable interest of the farming community. The fair is the means of stimulating competition and in that way of improving all the products of the farm. This is one of the best fairs in the south and people of Eastern Carolina will find it to their interests to attend it.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by Davis, and R. S. Duffy.

TALK OF ANOTHER CONFERENCE
Of Southern Governors on Immigration and Quarantine
Rewards for Murder
Death of Mrs. Stewart.

Special Correspondence.

Raleigh, July 17.—Governor Glavin is receiving more letters from the Trustees at Chattanooga, Tenn. in regard to another conference on Southern immigration and quarantine, also a meeting of the industrial parliament. Governor Cox, who has been interested, will soon retire from the active part of the work, though he may be induced to act as chairman of such meetings. This summer paper has also requested the Governor to prepare a special article on North Carolina, giving its growth and development which is to be published together with a number of live articles, Jan. 1907, when the Tradesman will publish its 25th annual.

The governor offered two rewards of \$50, each at the instance of the board of county commissioners of Warren county, the first being for Edward Williams, colored, for the murder of Paul Carrington, in Smith Creek township, on the 11th of last April. The other for William Byrd, colored, for killing Willie Coker, also colored, in Fishing Creek township. The second murder also having occurred April 15th of the present year.

Mrs. John W. Stewart, wife of the chief engineer of the Raleigh & Pamlico Sound Railway, died last night after a short illness, her little babe having died a few days ago. Mrs. Stewart was Miss Grace Revin, of Duxbury, Tenn. The remains were taken to her old home.

For County Commissioner.

Mr. Editor
The voters of the county should certainly nominate at the primary Mr. John S. McGowan. The three townships south of Trent river, 5th, 6th and 7th have no representation on the Board of Commissioners, and have not had some time. They are entitled to it and Mr. McGowan will make a splendid commissioner.

If the voters will select Mr. C. E. Roy, Mr. J. B. Harvey, Mr. G. V. Richardson, Mr. A. E. W. L. Worth and Mr. John S. McGowan they will have a board representing every part of the county and a splendid Board of Commissioners.

Installation of Officers

At a regular communication of Vanceboro Lodge, No. 433 A. F. and A. M., the following officers were installed for the ensuing year:

RUSHING WORK.
On The New Bern and Washington Branch of Raleigh and Pamlico Sound Road. Lot of Laborers Arrive.

Affairs on the construction of the New Bern and Washington division of the Raleigh & Pamlico Sound railway are booming and strenuous efforts are being put forth to make good the company's statement that trains would be going over the road by January 1st 1907.

Yesterday one hundred laborers were received by the steamer Albemarle and Atlantic Coast Line road. This makes a total of 700 laborers. They are working in equals at different places between the terminating points. Over ten miles have been graded and about six miles have been graded. The iron for track is arriving every day and several car loads of ties have been delivered.

Mr. J. J. Haines who has been superintendent of labor has resigned and his place has been taken by Mr. Hammond who has recently been engaged in railroad work on the Big Four near Columbus, Ohio.
