### THE ALBEMARLE BRIDGE AND FISHING INTERESTS.

The opposition of the people of Edenton, N. C., also others in the same vicinity, to the building of the railroad bridge across Albemarle Sound by the Norfolk and Southern Railroad Company may not be unnatural, accepting the reason of the people for their opposition, which is that a bridge will destroy the fishing interests of that section, which is an industry of importance.

But while the contention may be honestly made, that a bridge will greatly interfere and cause severe loss to the fishing interests of Edenton and vicinity, can it be said that this contention can be practically demonstrated?

So far as the railroad people are concerned it cannot be argued that they would wish to build a bridge or even a foot of road, which might lead to the lessening of their revenues. The bridge is wanted, because commercial needs call for this shortening of time across Albemarle Sound, instead of the old method, by ferry. That is the necessity in the situation, and it would be foolish to suggest that the Norfolk and Southern people have any but the utmost consideration to uphold and maintain every dollar's worth of fishing trade in Albemarle Sound and Chowan river, and every tributary to the section which the road touches, or may do business with through branch roads, or by boat lines.

But if the fishing interests of Albemarle Sound, and specially Edenton, want to get at the real source of danger, let them urge in the next State legislature, the abolishment of the set nets, the Dutch nets in the sounds and rivers, and so get at the evil which today is destroying more fish, and leading to the certain destruction of the fishing interests in the principal waters of eastern Carolina, working far greater harm and injury than all the bridges which commerce might demand across the sounds and rivers tributary to the sounds and ocean.

A railroad bridge across the Albemarle Sound may look like a barrier to the fishing interests, but it does not act the part of a Dutch net, which respects no fish, big or small, in season or out of season, going up the river to spawn, or the young not half grown fish which coming down to the salt water, is caught, instead of being permitted to grow and become an article of trade, is caught and thrown on shore to rot, perhaps used for fertilizer purposes, when it was created for human food.

The Dutch net is the evil which the fishing interests of Eastern Carolina must fight to avoid destruction, not railroad bridges.

### BEWARE OF POLITICAL CROW EATING.

Political likes or dislikes, or perhaps better expressed, political preferences for candidates for nomination, demand a certain conservatism of expression by the individual or the newspaper, unless the individual and newspaper shall have nothing to bind them to what primary or convention may do in the way of nominations.

Political independence of expression and action can be held by men of any political party, without in any degree detracting from their party character, or placing them at variance with the principles and tenets of their party. But there are heard expressions, and published criticisms, which can hardly come under the description of party independence, because these expressions must be classed as ultra party in their bearing, if the results of the party's actions shall be in variance with the declarations uttered or published.

Any democrat is entitled to a favorable office, providing that the choice

shall be as prescribed by party rules and platform. This choice may extend from Constable to President, but the independence too often goes beyond the preference, and takes the form of discrediting other candidates. The result is seen when the primary or convention instructs and nominates the man who has come in for abuse by those of his own party, who must recede from their previous position of antagonism, and enter the race, supporting a candidate whom they may have declared unfit for the office. If the individual or newspaper is honest in its anti-nomination convictions and expressions, then there is the humiliation of crow eating, or the repudiation of party, and all the time there was no necessity that opinion should have forced such a situation in order that individual or newspaper independence was to be enjoyed.

In this day of extremes, of quick political changes, who may declare Roosevelt or Bryan the paramount leaders and proceed to discredit every possible political competitor of these men? The ultra may do so, but it is the wise political follower of party observance who will not, and so be spared the necessity of any possible crow eating when the political whirligig sends up some new name to be voted for by the voters of the political parties.

### PERSONAL VANITY WHICH DESTROYS.

"Is not this great Babylon that I have built for the house of the kingdom, by the might of my power, and for the honor of my majesty?"

And how many men since the days of the Babylonian king, have exclaimed about themselves in like manner, if not in the same words, and like Nebuchadnezzar lived to see that their human creations were vanity, that the seeming gold was tinsel, and the glory perished and vanished leaving hollowness and wretchedness behind.

The world of today finds many men who, builders up of their own destinies and fortunes have achieved a financial success which even to the ancients of past kingdoms in the world's history, would appear like tremendous fortunes. The Captains of Industry and financiers of this twentieth century have much to be proud of and to boast themselves. "Is not this great fortune the creature of my skill and genius," and so forgetting all else but self, fall into such personal vain glory, that destruction following quickly after them, finds them easy victims, because of their consuming vanity.

The pride of money and its power, is to be noted on every side today. It makes the millionaires and the multi-millionaires a class to be emulated by the youth of this age, until hunger for money power destroys the moral side of man, and the possessor of money feels that he is amenable only to himself for any and every action, be it in the business circle or in the moral law.

Morals or money, the choice too often is not even considered, for with the dollars cannot man exclaim, "is not this great Babylon that I have built," and who dare defy the king of the money kingdom?

But happily for the good of the world and the preservation of all that is highest and best in man, the same power from heaven, while it may not be heard in the voice which came to the Babylonian monarch, yet equally effective metes out justice today, and the man of money power, seemingly serene and secure in his vast possessions, yet because of flagrant violations of morality, is not at heart sound, his body may appear to enjoy but the spirit is haunted, his associations with men lack the sterling strength which honor and character can only give, and like Nebuchadnezzar there would be equal peace if his dwelling was with the beasts of the field, instead of in his own gilded palace which only reflects the dishonor by which it was created.

### NO REPUBLICAN SUCCESS

#### In North Carolina In Sight, Says Senator Simmons. Crop Outlook Desolate.

(Special Co. correspondence.)  
Raleigh, Aug. 3.—Senator Simmons returned today with his family from his farm in Jones where he has been since Congress adjourned. His work during the session was very onerous and he was threatened with a breakdown, his physician advising him to go to the country and take a rest. Speaking of the crop conditions he remarked that there was almost desolation in a string of the eastern counties, about forty miles in length from north to south, rain having fallen for two months with only a week of good weather. He does not think that Craven and Jones counties can possibly make more than a third of a cotton crop and in the whole district east of Goldsboro he thinks the cotton crop has been cut 50 per cent.

The Senator was asked about politics, as the Democratic State Chairman and said that he had every reason to believe that the Democrats would make a clean sweep in all the congressional districts, and so far from the Republicans making gains, he believes that they will lose in this campaign and that the Democratic party will make gains. He says the Democratic party has not been in better condition in the State since he began to consider politics. He says that Congressman Blackburn is already a whipped man in the Eighth District and that the last defeat of the Democrats in their district was on account of over confidence and because in a few counties there were some local difficulties which resulted in a large stay-at-home vote, but this will not occur again. It is absurd to talk of the Republican party making gains in North Carolina at a time when it is so clearly demonstrated that it is the bread and butter brigade, absolutely dominated by office holders. The Republican party may build up some of these days, but not until after the present office-holding oligarchy has been ended. The Republican party in the south is dominated by cabinet. Secretary Taft told the truth in his speech at Greensboro. The selfishness of the nominating crowd is so great it will not let go.

### VOICE OF THE PEOPLE.

Names, Not Insinuations Wanted. Editor of the Journal.

I inclose copy of a letter written to Col. Skinner from this city, sent by him to Marshal Dockey and sent by the latter to me, and ask that you publish the same.

New Bern N. C. July 21, 1906.

Learn Sir.

We temperance people here cannot understand why you do not direct and authorize your Dept Marshal here in New Bern to go and arrest certain U.S. defendants wanted here for selling liquor without license.

Plenty people here know where they are at, it is believed Mr. Babbitt knows right where they are at. These defendants are wanted by United States, correspond with your own Dept U.S. Marshal I think he can tell you where they are at. They can be taken.

Signed Temperance Cause.

For the information of "Temperance Cause" I will state I have warrants for people who did live in New Bern but who have left since these warrants were issued, my information is, some are in Norfolk, New York and Boston if this "Temperance Cause" knows the whereabouts of any defendant in my territory, write me where he can be found I will be much obliged to him he can sign his name, I will keep it a profound secret so he need fear no damage.

I want to tell "Temperance Cause" on the 27 of July 1906 I arrested a party in Duplin Co., who was openly violating the Ward bill, he is bound over to the Oct. U. S. Court. I was informed the constable of that township, acting as Deputy Sheriff, (being engaged in counting witnesses to the Duplin County) bought and drank whiskey at this man's shop the day before I arrested him, suppose Temperance Cause looks after the state officers whose duty it is to enforce his "Temperance Cause" my duty is to enforce the collection of revenue.

C. M. BABBITT,  
Deputy Marshal.

### Was Wasting Away

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and in less than two bottles completely cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Sold by Davis Pharmacy.

### Was in Poor Health For Years.

Ira W. Kelley, of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others. Refuse substitutes. Sold by Davis Pharmacy.

### MRS. MARSHALL SUFFERED WITH SYSTEMIC CATARRH. PE-RU-NA SAVED HER.

Mrs. Viola Marshall, 117 East Jackson street, Springfield, Ill., writes: "Two months ago when I sought your advice, and you told me that I was suffering from systemic catarrh, I had gotten so bad that I could not bear the jolt of walking and had to lie down most of the time.

"I began taking your Peruna and now I feel like a new woman.

"I can walk just as far as I please without feeling any fatigue and I have taken only three bottles of Peruna.

"I shall never cease praising Peruna, nor thanking Dr. Hartman for his kind advice."

Systemic catarrh claims many victims because this disease is not always understood, and therefore not correctly treated.

What is needed is an internal cathartic remedy which exerts a healing effect on the mucous membranes of the entire body.

Such a remedy is Peruna. The sincere letters of those who have experienced its benefits in such cases are evidence of its medicinal value.

Peruna is sold by your local Druggists. Buy a bottle today.

### Bradstreet Trade Report.

New York Aug. 3.—Bradstreet tomorrow will say for Richmond and vicinity. Trade this week has been devoid of special features. In dry goods, notions, shoes and kindred lines the season has been satisfactory, sales having a fair increase over the same period last year. Dealers in machinery and mill supplies report an active season and favorable conditions almost without exceptions. The produce market is quiet as usual at this time of the year but conditions are favorable for a period of unusual activity within the next two or three weeks. Manufacturer and jobbers of paper are well supplied with orders and the increasing importance of the industry locally is worthy of note. Collections are irregular in some lines they are satisfactory but in others particularly those that depend upon local retail trade they are backward. Retail trade is at the usual period of end season dullness continued excessive rain has had an adverse effect upon corn and tobacco but it is believed that no serious injury to the crop will result.

### TWENTY DAYS OF RAIN.

#### More Wet Days Than in the Month of June. Rain Fall Was Less, 11.90 Inches.

The years are few and far between—for which fact we may be thankful that has such a record of moisture as this summer has seen. It has been trying on the patience and it requires the most sunny disposition possible not to have some gloomy foreboding as to the outcome of this weather. There were twenty rainy days last month but the rainfall was more than four inches less than the rainfall in June. The biggest fall for one day was 3.09 inches.

Following is the report as taken by local observer, James B. Hill:

### CAMP GLENN A MEMORY.

#### The Second Regiment Leaves The Scene of Its Ten Days Outing.

Camp Glenn is no more. The martial city by the sea has passed into a hazy memory and the soldiers of the second Regiment N. C. G. are now pursuing their regular peaceful avocations under their own vine and fig tree. The camp was broken up early yesterday morning and the special trains bearing the soldiers passed through New Bern at 7:30 and 8 o'clock. The Light Artillery and Wilmington soldiers were transferred to the Atlantic Coast Line road.

There has been no special feature to speak of in connection with the camp. It has been regarded as successful by the officers. The gun practice and drill showed some creditable work but at the same time the wheelmanship in general was criticised and it was said that at the next encampment special attention should be paid to the marksmanship.

The Governor's presence among the men and his review and kind word from him inspired them to make extra efforts to merit his approval. The social features of the camp were all highly enjoyable and the innumerable outings of the ladies of whom there were many at the Atlantic hotel.

There was one matter of disappointment to the boys and it is said some feeling was aroused on account of the pay. The soldiers were on the ground ten days and expected pay for that length of time but they were only allowed pay for eight days. They made some protest, but of course, the matter could not be adjusted. Col. Bragaw put them in a more pleasing frame of mind but they left feeling a trifle sore.

Some of the Naval Reserves went to Wilmington on the Compton and were the guests of the local division and the Star says of the return of the entire regiment there.

### Galveston's Sea Wall

makes life now as safe in that city as on the higher uplands. E. W. Goodloe, who resides on Dutton street, in Waco, Tex., needs no sea wall for safety. He writes: "I have used Dr. King's New Discovery for consumption for the past five years and it keeps me well and safe. Before that time I had a cough which for years had been growing worse. Now it's gone." Cures chronic cough, LaGrippe, croup, whooping cough and prevents pneumonia. Pleasant to take. Every bottle guaranteed at all drug stores. Price 50c and \$1.00. Trial bottle free.

### Convicts Attempt to Escape.

Atlanta, Ga., Aug. 4.—Sixty negro convicts attempted an escape from the convict camp at midnight last night. A guard was making his rounds and opened the door of the room in which the men slept was knocked down. The negroes then started for the door but the first one out was shot dead by another guard. This caused the escape to cool down. One, however, escaped and Atlanta is having another man hunt which is the second this week.

### Builders' Strike Unchanged.

(Special Correspondence.)  
Raleigh, Aug. 4.—There is no change in the situation as regards the strike of the carpenters here. The ranks of the strikers received one accession today, bringing the total number up to 140. The president, Mr. Barrow, of the local union, says the strike is only for a nine hour day and that it is not the purpose of the union to say that contractors shall or shall not employ union men only, the only point being to secure the shorter day, leaving the employment of men entirely to the contractors.

### San Francisco Threatened With Strike.

San Francisco, Cal., Aug. 4.—The city is now threatened with a great strike. Representatives of all unions whose members are in pay of united railroads met in secret session last night and affected an amalgamation. A move for increased wages caused the strike which may shut down the entire system.

# Women's Pains

"I was a total wreck," writes Mrs. Beulah Rowley, of Champeog, Oregon, "from pains I had suffered, for 4 years, every month. Sometimes I would be unconscious for 12 hours at a stretch. I did not know that anything could stop the pain entirely, but Wine of Cardui did. I advise all women suffering with painful periods to use Cardui and be relieved."

It does this by regulating the functions and toning up all the internal female organs to health. It is a pure, specific, reliable, female remedy, with a record of 70 years of success. It has benefited a million others. Why not you? Try it.

Sold by Every Druggist in \$1.00 Bottles.

## WINE OF CARDUI

### An Accurate History.

(Special Correspondence.)  
Raleigh, Aug. 4.—Mention was made a few days ago of the fact that Capt. Samuel A. Ashe had in preparation the very complete history of North Carolina. This is to be brought about in very handsome style and is to be very completely illustrated. Great numbers of special photographs are now being taken for it in the Hall of History here and at other points. Capt. Ashe, than whom no man is more competent to write the history of the State has devoted some years to this work and the first volume is almost completed.

### Rocketeer's Gift Never Arrived.

San Francisco, Aug. 4.—When subscriptions were received in New York for the relief of stricken San Francisco John D. Rockefeller subscribed \$100,000, and the Standard Oil Company was put down for the same amount. In the course of time was an order directing Superintendent Leach, of the mint, to pay to the relief committee \$70,000, being as the order states, "a portion of subscription to the fund." At the relief headquarters they are waiting for the rest of the money, but it has not yet come. James D. Phelan, who directs the finances of the relief committee, was asked about the subscription, and admitted it was a mystery to him.

### John Gasper, a colored man from Pamlico county was in the police court for disorderly conduct. The fact was, that he was drunk. He had a bottle of liquor on him which he said was nothing but cider. When it proved that the contents of the bottle was stronger than cider he began to lie and Amnias would have gladly adopted him as a worthy son if he could have heard the multifarious prevarications. He fought hard against it but he had to cough up five dollars.
