29th YEAR

## TELEGRAPHIC NEWS

Events of Past Three Days  
Tersely Told For Journal Readers.

### TERRITORY INCLUDED MAINE TO MEXICO

Industrial, Commercial, Social, Religious, Criminal and Political Happenings Condensed in Few Lines.

Chicago, Aug. 14.—The subways for freight traffic are to be opened tomorrow. This will relieve the congested conditions in freight yards and of traffic generally. The whole system consists of 35 miles of tracking underground and cost \$30,000,000. There is more traffic underground than on the surface.

Rome, Aug. 14.—In his last pontifical letter Pope Pius calls attention to the fact that the life of the Catholic church is threatened in France. The action in the House of Deputies in denying certain privileges to the Holy Church and the attitude of the peasants makes the Pope's fears not without some foundation. He makes urgent appeals to Bishops to organize to save the church.

Pittsburg Aug. 14.—A plan has been proposed by some of the principal steel and railroad men to build a double track light gradient electric railway between New York and Chicago. The cost of the construction is estimated to be \$150,000,000. Three railroad companies are interested in the project.

Chicago, Aug. 14.—Each day brings to light more evidence of dishonesty and loose operations in the conduct of affairs of the Milwaukee Avenue bank. It is now thought that the depositors will not get more than 25 cents on the dollar. Several more warrants have been issued for directors.

Manila, Aug. 14.—Outlaws and native malcontents have been so active lately that it is the purpose of Gen. Wood to annihilate them, especially on the island of Cavite where they have been very active.

Atlantic City, Aug. 14th.—The next legislature will probably be called upon to enact some adequate rate law, and it is said that such a law has already been drawn up. There are over one hundred railroad lawyers in secret session here and they have entered a pace to fight the bill with vigor.

Atlantic Hotel, Morehead City, Aug. 14.—Governor Glenn arrived with his staff this morning and most of the day was spent at the camp. He expressed gratification at the matters in camp. A brilliant reception was given the Governor and his staff this evening, after which the grand military ball took place.

Raleigh, Aug. 15.—Governor Glenn issues an address to the people of North Carolina based upon the Salisbury lynching says that until a few weeks ago, the State has been blest with law and order for four years, but now a few lawless men in three instances have overthrown the law and wilfully and deliberately committed murder by lynching persons confined in jail; there being in no case the slightest excuse, special terms of court having been ordered and in one case a court actually trying the prisoners.

The Governor says, to stop these disgraceful occurrences and protect all prisoners, he issues orders to all sheriffs and to captains commanding the National Guards. In the instructions to sheriffs he directs them to notify him immediately of any threats or rumors of violence, also to at once notify the captain of the nearest company, and if violence is attempted to order out the companies and a posse of citizens, armed and equipped to use all peaceful means to disperse crowds, but if they refuse to disperse, then at all hazards even if killing necessary, and to arrest all members of such mobs.

His orders to captains are if they hear of any attempted violence to report the facts to him and notify the sheriff and if the latter, after ordering crowd to disperse, and upon its refusal, order the captains to fire, to do so instantly. Also arrest all the mobs possible, to deliver these to sheriffs and to protect jails. The Governor says news papers can greatly aid in warning of danger and thus repress lynching.

Buenos Ayres, Aug. 15.—Secretary Root delivered the most important address of his South American visit here today. He revealed his mission which, he said, is to assure the people of the Latin American republics that the people of the United States are one with them in sentiment and they must know each other better. He was given immense cheering.

St. Louis, Aug. 15.—Acting under instructions cabled from England a laborer assisting in tearing down one of the Exposition buildings found hidden in the wall diamonds valued at \$50,000. They were stolen two years ago from an English lady visiting the exposition. Considerable excitement was caused by the theft at the time but no trace of them nor the thief could be found.

It developed that the Hindoo servant of the woman was recently fatally hurt by an elephant in India made a confessor to his attendants just before dying stating where they could be found.

Lenoir, Aug. 15.—A daughter of Thomas Coffee was killed by lightning this morning while asleep. The bolt entered the house on the telephone wire. Other members of the household were shocked and the house set on fire.

St. Petersburg, Aug. 15.—While a platoon of the aristocratic Cavalier guards were marching along the street a young lady was overheard to say to a friend: "They are as gay as if they had a Port Arthur." The people hearing this remark laughed and hooted at the soldiers who with sudden movement drew their sabres and charged the crowd.

Pursuing the young lady who made the remark, captured her and took her to the barracks where she was given 27 lashes on the bare flesh by two of the guards by which wounds she almost died.

## GOVERNORS ACTION APPROVED

His Refusal To Commute Hasty And Samuels Sentence Gives Satisfaction.

### CRUSHED ROCK FOR CITY IMPROVEMENT.

Private Plant Assists City Enterprise. New Insurance Agency Concern.

Big Fruit Shipping Shed at Pomona; Indicating Possibilities As a Great Fruit Centre. (Special Correspondence)

Greensboro, Aug. 14.—The refusal of Governor Glenn to remit the sentence of imprisonment on ex-Revenue officers G. W. Samuel and J. W. Hasty for the assault and battery on Editor Deal at Wilkesboro, to a fine was generally expected here, and is as generally commended by all who have kept up with the case in Wilkes, and the subsequent developments in the trials of the revenue officers in the Federal court here. Both men are out on bond, but their friends here say they will at once surrender themselves to the jailer at Wilkesboro and begin the service of their sentence. Their being in jail when the special term of the Federal court meets here the first Monday in September to continue the trials of revenue officers indicted for alleged frauds against the government, will in all probability work a continuance of all the cases.

Samuel has already been convicted in this court, and sentence was deferred, awaiting the disposition of other cases. One of these to be tried is against Hasty, indicted for conspiracy with distillers, false reports, etc. So on the whole, the imprisonment of these men at that time, may redound to the general benefit of all the revenue officers under indictment, by gradually easing up on these cases, until finally the whole batch will be decanted out of court and nothing further done with any of the parties, convicted or yet to be tried. Such a denouement has been freely predicted from the very beginning by many observant people, who while commending District Attorney Holton for his remarkable perseverance and ability in prosecuting the cases, have realized that he could not forever stand alone against the whole allied forces of the republican organization in North Carolina, backed by the powerful influence of Internal Revenue Commissioner Yerkes, and his subordinate heads in North Carolina. It is well known that Collector Harkins lost his job on account of his lodging up the department of justice officials in the prosecutions, instead of siding with the forces under Yerkes, who have from the first resented bitterly the indictment and conviction of their leading lieutenants in the revenue service and hardest workers in the political field.

State Chairman Adams, has been the Attorney, leading counsel for all these indicted revenue officers, and has done his full professional duty in defending them, and yet, some of the Blackburnites are so bitter in their spite against them, that they are now saying that if Judge Adams had not put off letting the Governor act on these applications for a fine instead of imprisonment, Hasty and Samuel could have finished serving their sentence of three and six months in time to have done campaign work for Blackburn in Surry, Wilkes and Cabarrus counties, and also have voted at the election. Now they will not be able to vote or to take in the campaign rounding up others for Blackburn. It's a funny world.

Messrs. J. C. Abbott and S. B. Kersey are installing a rock crushing plant on W. Lee street preparatory to doing an extensive business. They have contracted to deliver their entire output to the city up to December 1st as the city is not equipped to crush half the rock it will require in improving streets this fall. The plant will be operated by electricity, while most of the stone used will be brought here by rail from Randolph where there is an abundance of desirable surface rock.

The South Greensboro Fire Insurance and Real Estate Company is the name of a new Greensboro enterprise. The company will represent the "original four" fire insurance companies and this life department of the Southern Life and Trust Company.

The J. Van Lindley Nursery Company is erecting a mammoth shipping shed and storage house at Pomona. This big shed will cover more than one-half of an acre, and will be used as a shipping station for the thousands of fruit trees annually sent out from Pomona. The building will cost \$3,500 and its dimensions are 100 x 300 feet.

The doctors used to bleed mankind. For every ill that they could find, But now they're wiser, and one to me, And give instead Rocky Mountain Tea.

Another resolution adopted looking to improve freight service, was the recommendation of the passage by Congress of a law requiring railroads to make at least 150 miles a day in its through freight service between the states, or be required to remit from its freight charges a certain per cent every day delay in delivering where the 150 miles a day's progress had not been made in taking shipments to their destination.

The resolutions approved are those adopted by the Hardware Jobbers Association of America at its recent annual session at Hope Springs, Va.

Another important action of the Chamber was the announcement that in 1908, there would be a celebration on a large scale of the one hundred anniversary of the city's birth, and in conjunction with this would be held the next great reunion of non-resident North Carolinians. A general meeting of the

## ELECTRIC RAILWAY EXTENSION.

Famous Landscape Artist Ready For Work on Campus of Greensboro Female College.

### VERY LARGE DOCKET OF CIVIL CASES.

Educational Picnic at Whitsett Institute Aug. 25th. Committee Appointed to get Freight Rate Benefits Under New Law. Preparing for Celebration of Centennial of City's Birth.

Greensboro, Aug. 16th.—The Greensboro Electric Company today gave an order for 15,000 cross ties with which to equip the new extension of their car line from Ashboro street in south Greensboro, down west Lee street to the two new suburbs of Glenwood and Piedmont Heights. The order for other material has been placed, and Mr. R. H. Caswell, the superintendent of the company says that barring delays in freight service the extension will be completed by Jan. 1st.

A new ice plant will be in operation here by March 1st 1907, with a capacity of 35 tons per day. Messrs. Powers & Armstrong, wood and coal dealers, have placed an order for the necessary buildings and machinery to manufacture ice, in connection with their other enterprise. These gentlemen came here from Raleigh three years ago, made large investments and have had unqualified success in the real estate, coal and wood business.

Mr. L. L. Miller, a celebrated landscape artist, of New York, is here with a corps of assistants making surveys of the Greensboro Female College campus with a view to beautifying the grounds. It will require several days to complete the survey, as a complete topographical map will be taken showing the position of the walks, the trees, the shrubbery and the various elevations, before any real work will be begun.

Last year there were more applications for students at the College than there were accommodations in the main building. To avoid this trouble at present, the College is building two dwellings on the lots donated by Mr. J. A. Odell. They will give sleeping accommodations to thirty students. As soon as a contemplated wing is added to the College building, the residence will be rented for private use. The College will open Sept. 12th.

A one week term of court for the trial of cases will begin here next Monday, Judge Fred Moore presiding. With about four hundred cases to be tried, the work usually done in one week will not more than make a dent in the docket.

Colored fire companies from New Bern, Oxford, Henderson and Durham were here last night going to Winston, where the State Firemen's Association and tournament exercises began today.

At the coming annual educational picnic at Whitsett Institute, Aug. 25th, there will be speakers of state wide reputation to address the assemblage, a free dinner served on the campus to everybody, and a general good time had. For several years these educational picnics have been a yearly feature at Whitsett.

At a meeting of the Chamber of Commerce here last night, a resolution was adopted, authorizing President Battle to appoint a committee of five, charged with the duty seeing that Greensboro gets what benefits that may be possible under the amended freight rate bill recently passed by Congress. This committee is to thoroughly investigate the question of freight discrimination, in the terms of the new law, and report back to the Chamber, such measures as they may think will be necessary to be taken to obtain relief from present freight rate discrimination against Greensboro. President Battle announced that owing to the importance of the work proposed he will ask for time to announce the Committee.

Another resolution adopted looking to improve freight service, was the recommendation of the passage by Congress of a law requiring railroads to make at least 150 miles a day in its through freight service between the states, or be required to remit from its freight charges a certain per cent every day delay in delivering where the 150 miles a day's progress had not been made in taking shipments to their destination.

### COLORED R. R. EMPLOYEE KILLED BY SOUTHERN TRAIN

Property Owners Must Put Substantial Walks in Front of Their Places. Rev. C. F. Rankin. Prominent Presbyterian Minister. May Accept Call to Virginia Pastorate. Forger Under Arrest.

Greensboro, Aug. 16.—Chief Police Neeley received a phone message from Thomas Duncan of High Point this morning, notifying him to watch incoming trains and the Register of Deeds office for his seventeen year old daughter, Tiney, who eloped last night with Peter Durham, aged 30. The father alleges that his daughter has been "overpersuaded" by Durham to marry him and she is not old enough to marry, without parent's consent, which he says will never be given. He wishes the arrest of both parties if they can be found. Officers have not been able to locate them here.

On the railroad trestle near Lexington yesterday, a train ran over William Wilson, a Southern railway employee, killing him instantly. The particulars of his death, and the cause of the accident are shrouded in mystery, as the trainmen say they cannot see how he could have failed to get out of the way of a fast approaching passenger train. Wilson lives in Greensboro, and the remains were buried here today. He was sixtiy-five years old, and had a good reputation for sobriety and industry.

Property owners who have failed to have cement sidewalks put down in front of their lots, have had a last notice issued to them, that if not done by September first, proceedings against them will be instituted for penalties provided by the ordinance. Mayor Murphy has made a fine showing on this question, there having been laid in the fifteen months of his administration, 25 miles of concrete sidewalks in the city. The trouble now is, the vacant spaces, seen here and there, where some lot owners have failed to pave. These "gaps" will soon be filled up. The owner failing, the city will have the work done, assess the cost against the property, as well as fine the recalcitrant owner.

Rev. G. F. Rankin, evangelist, of Orange Presbytery, left this morning for Portsmouth, Va., to meet the members and officials of the First Presbyterian church there, in connection with a call to the pastorate recently extended the able and consecrated young Guilford county divine.

Sergeant Barnes returned from Washington this morning, having in custody Henry Fulton, who had committed several forgeries here. He was arrested in Washington for some offense there, and the officers notified the police here that they could have him if they would come after him.

Young Fulton, who is but sixteen, is the son of excellent parents here, and his bad conduct has been a source of trouble to them for some time. He seems to be insanely intent on getting money, and getting it crookedly, not hesitating to pass forged checks whenever he got a chance.

The 180th annual protracted meeting at the old Murrs chapel camp ground begins next Sunday.

Barbecue and Clams. Customers please remember that I am still doing business at the old stands. Nice fresh barbecue each day, and clam, whenever they are in the market. All kinds soft drink on ice, also cigars and tobaccos.

W. M. CANADY, 128 Middle Street. OLD newspaper for 15 cents per 100, at the Journal office.

Bridge Question Not Settled. The following telegram denies the report of the Journal that the War Department has decided against the Norfolk & Southern railroad in the construction of its bridge across Albemarle Sound at Keys Ferry. The Journal has what is considered reliable information and is glad to publish an authoritative statement to the contrary from headquarters.

Norfolk, Va., Aug. 16. Editor Journal. Referring to item in issue of August fifteenth headed "Bridge question lost" there has been no decision whatever in this matter by government engineers. Evidently you have been misinformed, the Norfolk and Southern is not contemplating construction of a bridge at some other point than that, now proposed as stated by you.

Jenny.—Treatment for pimples and blackheads calls for absolute cleanliness. Pimples show that the body is absorbing poisonous substances and needs Hollister's Rocky Mountain Tea. Teas or Tablets 25 cents. F. S. Duffy.

## POLICE SEARCH ELOPING COUPLE

Young Girl Victim of Over Persuasion Say The Parents.

## BABY COVERED WITH SORES

Would Scratch and Tear the Flesh Unless Hands Were Tied—Wasted to a Skeleton—Awful Suffering for Over a Year—Grew Worse Under Doctors—Skin Now Clear.

### WOULD HAVE DIED BUT FOR CUTICURA.

"My little son, when about a year and a half old, began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then they began to come on his arms, then on other parts of his body, and then came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad I had to tie his hands in cloths at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk. My Aunt advised me to try Cuticura Soap and Ointment. So I tried it and found it that she gave me a small piece of Soap to try and a little of the Ointment. I took it home without any faith, but to please her I tried it, and it seemed to dry up the sores a little. I sent to the drug store and got a cake of the Soap and a box of the Ointment and followed the directions, and at the end of about two months the sores were all well. He has never had any sores of any kind since. He is now strong and healthy, and I can sincerely say that only your most wonderful remedies my precious child would have died from those terrible sores. I used only one cake of Soap and about three boxes of Ointment. (signed) Mrs. E. E. Sheldon, R. F. D. No. 1, Woodville, Conn. April 22, 1905.

Complete Statement and Medical Treatment for Every Case of Cutaneous Sores, Eczema, Itch, Scalding of Children's Sores, Etc. (Illustrated). Price, 25c. Sold by all Druggists. Write for Free Booklet. Send 10c. for Sample of Cuticura Soap and Ointment. Write to J. C. Kenyon, Dept. of Cuticura, P. O. Box 1000, Lowell, Mass.

JOHN PAT'S STAR RISING. Young New Bern Athlete Gaining Honors Daily in The Baseball World.

John Patterson is demonstrating wonderful ability as a base ball player. He has outplayed several times the excellent record he made on the U. of N. C. team, since his engagement with the Stroudsburg club his playing has been really phenomenal and not only has he made good in the box but at the bat as well. In one game not long ago he made a home run and a three bagger and he is continually making surprises at an all around good player. The Stroudsburg paper says of him in one of his best games: "Patterson, pitcher for Stroudsburg and in the first six innings but three men faced him each time. He had excellent control and formed nine men."

"Not only did Patterson pitch well but he fielded well and batted 1000. In three times at bat he had two singles and a double."

In an account of another game a paper says of him: "In the very first inning Patterson made a glorious run over the foul line from left field position and gathered in Stroudsburg's foul fly. He was cheered to the echo. Patterson took care of Snooks fly next and the plucky little North Carolinian was kept busy."

The Printer's "Devil." Why is the printer's errand boy called the "printer's devil"? A writer at the end of the seventeenth century explained it thus: "These boys in a printing house, commonly black and daub themselves; whence the workmen do jocosely call them devils; and sometimes spirits and sometimes flies." It is related, however, that Aldo Manuzio, the great Venetian printer of the fifteenth century, had a black slave boy, who was popularly supposed to have come from below. Accordingly he published a notice: "I, Aldo Manuzio, printer of the Doge, have this day made public exposure of the printer's devil. All who think he is not flesh and blood may come and pinch him."—New York Tribune.
