SHORT PASSING EVENTS.

An excursion from Wilmington to New Bern under the direction of Thos. H. Knight will take place Monday Sep. 3d, Labor Day.

Admissions to witness the execution ot the murderer Bailey will be by card. The law allows but 36 cards to be is-

The Atlantic Coast Line road has made numerous promises that the corporation would build a sewer on Queen street. Up to vesterday there had not been even a survey made and no sign of any work done on it. In the mean time the trap at the upper end of the street is closed up and when there is a heavy rain the adjacent premises are flooded.

There has been an appreciable improvement in the weather the past few days. The heat has been noticeable to be sure, but a characteristic New Bern breeze has dispelled much of the intensity of the heat and made the days very pleasant. There has been no rain since early Sunday morning.

Mr. C. M. Dockham has purchased through the agent, John Palmer, a gasolene runabout manufactured by the Northern Motor Co., of Detroit, Michigan. It is understood that there will be several automobiles added to the large number already in the city

L. Waters, a business man of Dover, has sued the town and names as other defendants prominent men of that place, for illegally searching his store for liquor. He proposes to test the validity of the search warrant.

M. Harris, fireman at the ice factory was painfully burned yesterday by the tailpipe of the engine blowing off and scalding his foot. The accident will cripple him for several weeks.

The excursion under the direction of Thomas H. Knight to Wilmington Thursday will be the last of the season and will doubtless be the largest of the The fare will be only \$1.25 and will afford every one a fine opportunity to visit Wilmington for the day go to Wrightsville Beach and have an enjoyable time. The train leaves New Bern at 7.30 a. m. The best of order will be maintained on the train and none need fear any unpleasantness.

Jodie Hill was taxed the costs for being drunk and disorderly in the police court yesterday morning. He told the mayor that he got the liquor which was said to be cider at the Habicht store, Riverside. Mrs. Habicht Pwas in court and pleaded her own case but was bound over to Superior court under \$200 bonds. Nathaniel Crisp was fined five dollars for disorderly conduct.

The Journal is in receipt of a letter from Dr. Z. V. Parker, formerly of Jones county, now of Blakely, Georgia, wherein he announces his intention of locating in New Bern about September the 15th for the practice of dentistry.

There will be no preaching service in the Presbyterian church today but Sunday school at 9:40 a. m. and Chrisrian endeavor meeting at 7 p. m. will be held as usual. The subject of the Christian Endeavor meeting will be the "Sun of

Miss Annie Dougan, of Roanoke, Va. who is visiting in the city will sing at the Centenary church today. She has a rich contralts voice and is a soloist with a fine reputation.

The scaffold on which the murderer Bailey will be hanged was brought to this city from Trenton yesterday by the steamer Howard.

The new arrangement made by Mr. A. B. Wallace at his pavilion in Bridgeton has met with popular favor and people are going over there to pass their time during the warm summer evenings. Tomorrow night, according to his plan, he will have a square dance Good music has been engaged for this season. Good order will be maintained.

Alvah Hamilton, who has had such a protracted spell of fever, is recovering very fast. He will be visiting around in a few days.

The fishermen have not caught as many fish this week as heretofore, notwithstanding there are more mullets in freshets in the streams flowing into the sounds. Fish can find the water they like without going out of the sounds up the rivers.

The principal of the graded school has just got out his belated catalogue. How ever it is a handsome booklet printed by the Richardson Printing Co., of New Bern. It announces August 31, as 'parents day''. The object of this is to awaken every one at the beginning of the term. The term will open on Monday following.

The quietness of our town was broken Wednesday evening by the peal of the church bell announcing the marriage of Mr Albin Hamilton and Miss Nadine Robinson. The aisle was beautifully arched with vines and flowers, the beautiful pond lilly being prominent. The crowd gathered at an early hour. Promptly at 8:30, while the organ pealed forth Mendelssohn's wedding march responsive to the gentle touch of Miss Myrtle Morris, the bridal party entered the church. Mr Travis Willis and Miss Charlotte Harris leading, followed by which 1,000 chemical analyses have A B Morris and Miss Blanche Hamilton been made. WASHINGTON LETTER

In pursuance of an item in the legislative, executive and judicial appropriation net passed by congress at the last session the patent office has published a notice in the latest issue of the Gazette to the effect that many of the models which have been in the possession of the office ever since its stublishment and have been accumulating from year to year will be disposed of either by sale, gift or otherwise. Some of the models in the collection are very valuable, as, for instance, models of old patents which are the basis of many modern inventions over which litigation is constantly arising. Many of these the office will keep.

Many of the devices that have been patented are, of course, of so little importance to the public that it will not be considered advisable to preserve their models. Some idea of the number of this sort of models may be had from the accurate statement that there have been 1.801 mouse traps patented since the office was established.

This is due to the great on Kalorama heights, near Twentythird street and opposite the site recent ly purchased by the French embassy or a home.

Rumor among real estate circles has t that the German government will erect a home to cost \$250,000 on the site thus selected. It is said that plans for the embassy are practically completed, but that it is not probable work will be begun before next spring.

Trying to Save Fuel. For some time the geological survey has been conducting an interesting series of experiments on the exposition grounds at St. Louis with coals, liguites and other fuel substances, which have proved satisfactory to the engineers and others in charge. It has been stated that the people of this country spent about \$1,500,000.000 for fuel during the last year, and the off cials of the geological survey say that if the results of their investigations can save the country even 1 per cent | boro. of this expenditure the investment

will certainly be a good one. In the past two years the geological survey has tested more than eightyfive different kinds of coals from seventeen states in the country, from Morris, Charles Willis and Miss Ellen of the coal remains in the ground. It

Novel Wall Decoration. In the bachelor quarters of an attache of the British embassy in Washington is a "den" decidedly odd in ornamentation. The walk are papered with playing cards. That in itself is no new idea, but these playing cards are of every land that has such things. They have been put topsy turvy on the wall and varnished. The effect is strik-ing. The Britisher has dwelt in many lands. Almost all nations, he says, have playing cards or a substitute Turkish cards are thick and exquisite ly tluted, and some of the far eastern countries have cards that deserve to be framed in gold lenf. The dado in the attache "den" is made entirely of face cards, arranged symmetrically with a deep red mobling separating it from the harly burly below. Swords, sticks and guns are hung on the walls. Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or Collinsonia Can, Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I, not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were chilged to carry him up-stairs.
