## CHAIRMAN.

White the political campsion in North Carolina which is to elect members to the next General State Assembly, as well as Congressman from the several districts, has not commenced with any degree of combativeness, the optning signs of conflict are already visible. The solicitude on the part of those op posed to the demografic party in this State, is beginning to be shown by inquiries why should Mr. 7. 11. Simmons he again elected State Clairman, to conduct the voltical catopsign, when he is aiready Senator? This solicitude is reflected in some democratic quarters which are not personally friendly to Mr Simmona. There is good reason for the political opponents of democrecy to be concerned over the re-slection of Mr. Simmons as State Chairman, for it meens at executive basi in charge of the campaign that is familiar with State polities, and one that does not lat political opponents enjoy any rest, or feel certain of their positions. The very apparent unimportance of politics in North Carolina this year, ought not to deceive any decoverat, certainly not those who may be seeking election, on those in charge of county and cistrict politics! forces. That Mr. Simmons is made the target is indicative that there are unssen forces at work which suck to distract attention from real conditions that may exist in counties and dis tricts, and by attacking the Democratic Chairman to attempt to discredit him years ago, with as many democrats as possible.

The return to North Carolina of

Of course it takes only the most inreparienced to realize that a one dollar nner is no "great food," but lacking urishment it is made up in "oratory" which may not be "filling," but has its effect in deluding and persuading that the dinner was a great triumph. The one dollar campaign contribution is equally deceptive. Thousands of course contribute per nead, each one dollar, but that these contributions actually are for if the campaign managers of either of the great political parties depended on the dollar fund, the contribution

would prove too slow to secure the needed results, and the political pot would not be k.p. warm let alone in a bulling condition, so desirable to gain political ende.

But this need not prevent the faithful from giving up each his dollar, and so siving one hundred cents worth of personal self-in portance. Nor is it going to prevent in political time of campaign necessity the "fat frying" of those F. M. SHAMONS, SEMATOR AND of whom much is expected, because they have received much-of their par-

## GETTING THE RESTLESS HABIT.

That the majority of human being have indigestion and kindred troubles is no surprise in this day when the annidistion of time supears to be the aim of everyope. Statistics say that the majority of divorces are due to the quick lunch habit, which develops indigestion and the consequent irritation that makes any companionship unendarable.

What may be termed the "restles habit" is no confined to these United States, although the habit finds its greatest following in this country, and hese followers have spread the disease abrond. Very interesting from at least one point of view. are the stories of now the automobile habit has made the promistorahip of one of these machines all important. Clerks earning salaries of twelve bundred dollars a year, buy sutos costing nearly as much as their entire year's salary, while others with mortgages on their homes let the mortgage stand, and buy an automobile. Speed and more speed is the demand on all sides. Autos on the great highways pass the express trains; the row boat and the sail boat are drawn up high and dry on land, or elas engines are placed in them, to give them speed in the water, which they never were made for. The flying machine today is less of a curiosity than the bicycle was twenty

To all Democratic Voters: If there ever was a time in the history of the Democratic party for the manifestation of loyalty and patriotism on the part of its members, it is now. If we are to win a victory and elect a Pres ident two years hance, we must first elect a House of Representatives this fall. A Democratic House can and will fall. A Democratic roots and the investigate every department of the Government. With all of them honeycembed by "graft", the edges of which only, have been touched by resent ex-posure and prosecutions, there will be a revelation of rottenness that will as-

tound the country and create a demand the Government workshop. To win the House we need money to defray legitimate expenses and get out our vote. We have no protected monopolies from which to draw to fill our coffers, as they do those of the Republican party. We must, therefore, appeal to loyal Democrats for contributions. Will you send us \$1.00 at once, and in return for this we will send you copies of our cam paign literature issued by the Commit-tee. You will have the thanks of the entire Democratic party for your favor able response to our request. Address all remittances to,

We are glad to say that FT Walker return home soon.
