Letter to M E Whiteburst.

New Bern, N. C. Dear Sir: It is a great thing for a merchant to have the exclusive sale (in his region, of course) of anything wanted by everybody.

There are two ways to treat such goods. 'One is: put the price up and make profit. The other way is; be fair and make more.

Devce is the paint that takes least gallons and costs least money a house, a job, a year, a lifetime-no matter how you reckon your costs, except by

the gallon-Devoe is the best care-taker and costs least money. Don't forget that the principal part of the cost of paint is putting it on. Less gallons, less cost. Don't forget that another principal part of the economy is long wear; less gallons, less cost and long wear.

It is a great thing to have the exclusive sale of popular goods, of goods that make friends, of goods that enrich both buyer and seller. Devoe is perhaps only ten per cent better than one or two others; but ten is a plenty-it's 200 or 300 better than many.

There's many a merchant who hasn't found out his goods. It doesn't take a man long to find out that Devoe is the least-money paint and why, no matter which side he is on.

Yours truly, F W DEVOE & CO. New York. P. S.-E. W. Smallwood sells our
