GOOD ROADS. GOOD SCHOOLS. WITHOUT EXTRA COST.

Such surprising conditions as stated in the Journal's Greensboro correspondence, in last Sunday's paper, can hardly be matched, much less excelled, in any county in North Carolina, or in the entire South, as may be found in Guilford. These conditions are good roads, good schools without the cost of an extra dollar to tax payers! Let this be considered in any county and every county in the State, by the people. Think of the comfort of good roads. Consider the matter of good schools. These are for the present generation of Guilford county people, and for their posterity. And the present generation is not living cheaply to pay for these benefits. They are having the best of everything. And the next generation and succeeding ones are coming into an inheritance, without any debt to pay, an inheritance that will make them deeply honor the men and women of the Guilford of today, their wisdom in leaving them such a rich legacy, as good roads and good schools.

The good road proposition in most counties, assumes the shape of a burden to the average citizen. A bond issue presents the aspect of a threatened storm in harvest time. One, two, three hundred thousand dollars spent on roads per a bond issue, has the appearance of an incubus which will overwhelm and destroy. So a bond issue meets defeat at the polls. Such good counties as Mecklenburg and Wake have experienced it. The Guilford county people, wise in their generation, have voluntarily called for bond issues amounting to \$800,000 for good roads. This to be used \$85,000 a year. The result of this practical venture, is such an increase in the selling values of taxable real estate property, because of good roads, and good schools are in the same category, in benefits, that these increases more than create the amount for needed interest on road and school bonds, providing also a sinking fund that will retire the bond issues as they mature. And no increase in the tax rate.

The application is not to be confined to any one county. The merchants, the citizens, the farmers of every county should study this action of Guilford county, and its wonderful results. Considerations, as to material things, are not different in Guilford. It is only the people. No doubt not less than fifty counties in North Carolina are more in need of good roads for what produce they raise than in the county of Guilford for its actual home crops. Good roads is not a theory, it presents its beneficial results. Guilford county has plainly demonstrated that it is a good business proposition.

AN AID TO SOCIALISM.

Yellow journalism to many people means any newspaper which refuses to remain indifferent to existing conditions, particularly where such conditions bear upon, and burden the average citizen whose gain is by the day of toil and effort, and whose entire capital may hence go beyond owning his own house and lot. In this twentieth century, millions of dollars are talked about as gifts, and held in less actual consideration, as to amount, than one hundred thousand dollars was a quarter of a century ago.

As an age and century where only big things count, the existence and survival of the average citizen is lost sight of in the rush of the millionaire, and the crush of the millionaire. Colossal means all the word implies in this day, when applied to individual and corporate aggregations of money, and financial power. It is the surprise of many that so-called yellow journalism prevails. It starts others, that a man like W. R. Hearst should threaten the stability and existence of two great powers, a sign, and threaten corporations

and Wall street, more than a foreign war. What is there in free America to propagate and promote socialism, is often asked. If any citizen, any business man, will look over the commercial news of the past few days, there will be found one financial, so-called, transaction, that will go to promote and aid the cause of the socialist. Edward Henry Harriman may be known to a few thousands of citizens in this country. Last week, so the reports say, this gentleman achieved the mastery of a chain of railroads extending from the Pacific to the Atlantic, and down to the Gulf of Mexico. The fact that this transaction involved a good deal of disreputable dealing, in no way shocks the financial morals of Wall Street. The report that this railroad deal gives Mr. Harriman the control of \$2,500,000,000 of property makes uneasy only those millionaires who would gladly grasp any kind of property that could be financially manipulated, no matter if like Harriman, it was in billion dollar lots.

If it is this kind of financial colossus, which is the aid to socialism. It is a force against everything which opposes, to crush and drive out of existence. It is the means to annihilate individualism. It is the force to gain public administrations, and make them act as the financial colossus shall decree. It is the force that overrides law, and laughs at the suggestion that it is responsible to God or man.

FORECAST OF PRESIDENT'S MESSAGE.

A system of progressive taxation upon large inheritances. Government supervision by license or otherwise, of all corporations (beside railroads) engaged in inter-State business. Federal legislation to correct and reduce evils of divorce. Publicity of campaign expenditures and inhibition against corporation contributions. Greater protection of railroad passengers and employes by adoption of block system, and eight-hour day for employes. Exclusion of undesirable European immigration. A more elastic currency system to prevent monetary stringencies.

The Washington Post is the authority that says the above are the principal recommendations that will be presented to Congress next month by President Roosevelt in his message to that body. It will be noticed that anything suggestive of tariff legislation is omitted. On the tariff subject, a Chicago paper says that Senator Cullom of Illinois suggests the wisdom of an extra session of Congress next Spring which will take up the matter of tariff reduction. This delay is for the republicans to try other legislation, first, and then be prepared to come in as tariff reformers, if there be a public sentiment that way, and so pose in the presidential year, as the party that stands for tariff reduction.

In the fifth section of the above recommendations, there seems to be special need just now. The railroad disasters are occurring with terrifying regularity and the death horrors are making new records. The last one, the demand for a more elastic currency will please the entire country. Specially it shall consider the needs of the producers rather than those of Wall street. If speculation is to be carried on, it should be made to stand on its own bottom, and not have the aid of government funds every time the big speculators feel hard up. Reforms are generally most unpopular where most needed.—Martin.

CASTORIA.

A specially prepared copy of Leoncavallo's new march, "Viva l'America," has been presented to President Roosevelt by Rudolph Aronson.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

IN MEMORIAM.

The silent hand of death has again entered the portals of our Lodge and taken from our midst our beloved friend and brother, Edward Gerock.

His life's work is finished, and he has been summoned to his reward. Generous, affectionate, and genial, his friendship true and steadfast, kind and pleasant to all, upright in all his dealings, yet firm and unyielding in his devotion to what he considered right and honest.

His life in Odd Fellowship was one of constant labor, and the impress of his able efforts will long be felt by our Order. Green will be his memory, a memory that will burn brightly and constantly in the hearts of those who knew him best, and in the affections of those who survive him.

Such men die not, but on the arms of love, We who have felt their power and know their case, Lift them to brighter skies and fairer scenes, Beyond the reach of earthly hope and fear.

Resolved:—That as a tribute of our love and esteem for our departed brother, this memorial be spread upon the minutes of the Lodge, a copy, under the seal of the Lodge, sent his beloved relatives and a copy sent the New Bern Journal and Orphans Home with request to publish same.

GEO. GREEN, J. OS COHEN, W. F. CROCKETT, Committee.

Lowest Temperature

Yesterday morning was the coldest that has yet been on the scene. The local mercury went as low as 28° and of course there was a thin coating of ice on standing water. This temperature was taken by the local government observer, Mr. James Hill.

By comparison with the weather bulletin received at this office every night that with the exception of places in the extreme north, the temperature was as low as any place on the map. The minimum temperature of New York, Boston and other northern cities was from 2 to 6 degrees warmer.
