

CONTAGIOUS BLOOD POISON

THE WORST DISEASE IN THE WORLD

Contagious Blood Poison is the worst disease in the world; not only those who contract it suffer, but the awful taint is often transmitted to innocent offspring whose lives are blighted and bodies diseased because the virus of Contagious Blood Poison has been allowed to remain in the family blood. The first sign of this disease is usually a little pimple or blister, then a red rash breaks out the mouth and throat ulcerate, the hair comes out, copper colored spots appear on the limbs, back and breast; and as the disease more thoroughly pollutes the blood, sores and ulcers form and if the trouble is not checked the finger nails drop off, and the soft bones of the nose and head are destroyed. S. S. S. goes down into the blood and forces out every particle of the poison and makes a complete and lasting cure. As soon as the system gets under the influence of the remedy the symptoms begin to pass away, and when the cure is complete the patient is left in perfect health. So thoroughly does S. S. S. rid the system of the virus that no signs of the disease are ever seen in after years, and posterity is born with a rich, pure blood supply. Book with complete instructions for home treatment and any medical advice desired will be given without charge.

must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, L.L.D., D.D., of Oxford University, England, has recently said of it: "It is indeed a marvellous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for."
A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.

SHORT PASSING EVENTS.

The Journal mentioned yesterday the case of a young white man being brought from Vanceboro and lodged in the county jail on the charge of criminal assault. The technical charge is abduction but there are features in the case strongly in favor of the defendant. The prisoner was the foreman of a gang of workmen on the construction of the Raleigh & Pamlico Sound railway and is said to be well connected in Wilmington. Mr. R. B. Nixon has been engaged as his attorney and for special reasons expressed by the defendant has requested that his name be suppressed at present.

The plans for the North Carolina building at the Jamestown Exposition have been accepted and the structure will be erected to the State. It is to be in the substantial colonial style which is so popular in this state, and will be of sufficiently large dimensions to make it imposing.

Made Happy for Life.
Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. "Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by all druggists. Price 50c."
