A Letter From Pamlico.

The editor of the Bayboro Sentinel states in his paper there is no help for os in this Legislature as faras Pamlico county is concerned. The Fish and Oyster laws will stay just as they are. The road law will not be changed and no fence and stock laws will go on just the same unless the people hire some good and influential democrat to go to Raleigh and look after things for them Of course the editor would like to have a job, but lawyers in Pamlico are no good any more. If they want to make or change any laws in the Legislature of North Carolina in regard to Pamlico county they will have to pay their own way, they can't be sent by the people for they have just tried it.
