### DISPENSARY A BIG MONEY MAKER.

Statement of November Sales Shows Them to be \$3,000 Larger Than the Year 1905.

[Special Correspondence.] Raleigh, Dec. 6.—The Raleigh dispensary continues to be a money-maker and is regarded by a great many persons as the best solution of the whiskey question. The sales during November were \$3,000 more than they were in November 1905. It must be remembered that half at least, of the whiskey sold is outside of this county, and the extension of prohibition territory increases the number of buyers here. Of course no liquor is shipped away, it all has to be taken. Cratham, Johnston, Harnett, Nash, and Franklin counties and part of Durham, get their whiskey here. This makes it very easy to understand the increase in sales.

### SENSATIONAL, TRAGIC, FINANCIAL AND SOCIAL

Handed to The Journal Readers in Condensed But Accurate Form.

Almost Every Part of The Globe Represented in News Items.

Herkimer, N. Y., Dec. 4.—The sensational murder trial of Chester Gillett is rapidly drawing to a close and a verdict is expected within a few hours. The district attorney said in the closing address to the jury that the murder of Grace Brown was not the only crime nor was it the worst one of which he was guilty. The first led to the commission of the second and for the double crime he should suffer the extreme penalty of the law.

Valdosta, Ga., Dec. 4.—J. G. Rawlings, white and Alf Moore, colored were hanged here today for the murder of Willie and Carrie Carter, 15 months ago. A strong fight was made in the courts to save Rawlings, but his connection with the tragedy was fully sustained in the evidence at the trial. Moore did the deed while Rawlings gave the instructions. Both died protesting innocence.

Washington, Dec. 4.—In his message to Congress President Roosevelt touched on lynching and his utterances are extremely fair to the Southern people. He scores unmercifully corporations that seek combinations, judges and campaign contributions. He advocates income and inheritance taxes and wants more power for the Interstate Commerce Commission, but is silent on the Panama canal and tariff.

Close attention was paid to the reading of the message and many times there was an audible expression of approval at the suggestions. Champ Clark of Missouri says that the President's ideas on income and inheritance tax were taken from the Democratic platform.

Washington, Dec. 4.—As a counter irritant to Senator Foraker's resolution for investigation into the President's action in dismissing the negro troops, Congressman Staden introduced a bill to discharge all negro troops from the United States army. He states that the purpose of the bill is to purge the army of an admittedly dangerous element. He declared the 25th infantry was imbued with the same race hostility that Indians have.

Richmond, Dec. 4.—The Corporation Commission has taken steps to investigate the cause of the wreck on the Southern railway which killed President Spencer.

San Francisco, Dec. 4.—The report of the relief committee was made yesterday in which it was stated that the total amount received for relief was \$6,250,000.

Palestine, Tex., Dec. 4.—Robbers attacked an express messenger on the Cotton belt train last night and had a fight in which two of the robbers were wounded. They secured \$110,000 from the messenger's safe of which \$80,000 belonged to that railway.

Raleigh, Dec. 4.—Judge Purnell in his charge to the Federal grand jury, today declared that he believed that the legislature overlooked the statute when it passed the Landlord and Tenant act of 1903. He charges that peonage is being committed and considers that the State law vindicates the Federal statute.

Raleigh, Dec. 6.—Governor Glenn has refused to commute the death sentence of Freeman Jones, a Durham negro convicted of burglary. He wrote Judge Moore and Solicitor Brooks for their views. They refused to interfere and consequently the sentence of death stands.

Raleigh, Dec. 5th.—The Corporation Commission today discussed the complaint of Secretary of State Grimes against the Bell Telephone Company in which he asked for a reduction of tolls

and rentals. The board says it would be unjust to fix a flat rate for the whole State; but that it is comparing rates of all companies, so as to charge those which are reasonable and just.

Raleigh, Dec. 5.—Governor Glenn, by special invitation addressed the board of agriculture on immigration today. He complimented highly the exhibit made at Boston and said he hoped the board would consider in the broadest way the whole question of securing the best class of immigrants. Speaking of state finances he said if taxation were made equal in various counties there would be plenty of funds for every purpose, but forty-four counties receive more from the State than they paid in, one of these is Cumberland which received \$4,000 more than it paid in. In some counties property valued at only forty per cent of real value, in others eighty per cent.

Hazelhurst, Dec. 5.—Mrs. Angeine Birdsong, one of the best known women in the State is on trial here for the murder of Dr. T. H. Butler, after which she attempted suicide.

Chicago, Dec. 5.—The police have for months endeavored to catch the burglars that have been rifling flats. They have committed great depredations and have until today escaped detection. Today Mrs. Eric Klein and Mrs. Margaret Noel were arrested. It is believed there is a band of female thieves and that they systematically rob flats. These women stole over \$10,000.

Chicago, Dec. 5.—The police secured a 14 year old Italian girl from a vacant flat this morning where she had been incarcerated since Monday. She was abducted and taken to this place where she was terribly abused. Two men and a woman, wife of one of the men are suspected of the crime. The police had to break in the doors to affect the rescue.

Raleigh, Dec. 5.—Recently United States District Attorney Skinner told your correspondent that he intended to go to Washington in regard to the two men under sentence of death for mutiny on board the schooner Berwin. He has gone and Judge Purnell joins with him in the recommendation that the death sentence be commuted to life imprisonment.

Raleigh, Dec. 6th.—The Corporation Commission sues the Seaboard Air Line for \$600 penalty for violating its recent order by improperly bulletining trains at Lumberton, Laurinburg and Rich Square in November. This is the first time the commission has been given evidence regarding violation of its order in which the witnesses were within the jurisdiction of the State courts. The witnesses are: J. J. McCormick, Lumberton; A. J. Conner, Rich Square; J. J. Hirsch, Atlanta.

Washington, Dec. 6.—A resolution was introduced in Congress today giving the Panama Commission entire control of Panama.

#### Harvard is Mad

Special to Journal. Boston, Dec. 6.—On account of recent acts in athletic circles, Harvard will probably withdraw from all athletic contests.

### THE RIVERS AND HARBORS CONGRESS.

An Organization That Meets in Washington Today to Discuss the Country's Deep Waterways.

(Special Correspondence.)

Raleigh, N. C., December 5th.—On Thursday the National Rivers and Harbors Congress will be held at Washington at the Arlington Hotel. It is declared to be second in importance only to the congress of the United States. Major Edward J. Hale of Fayetteville is a member of the executive committee from North Carolina. The United States, Major Hale says, has 43,799 of navigable waterways while Holland, France and Belgium have only 7,230 miles. The total expended in river and harbor appropriations in this country \$4,470,000,000 while in Holland, France, and Belgium the total expenditures aggregate \$2,775,000,000. Few people have an idea how cheap water transportation is. The cost on railroads per ton mile is in Texas 8 and one half mills and the average on all the railroads in the country is 8 and four fifths mills, while on the Ohio River the cost is less than a third of a mill, on the great Lakes nine tenths of a mill, on the lower Mississippi one mill and on the Erie Canal a little over half a mill.

These figures, as Major Hale says, are simply astonishing. The river and harbor bill, he declares can no longer be called a "Pork barrel" as it is about the only great appropriation which is not of that type. He says that subject has been acute with North Carolina people in the recent past, the scientific treatment of the upper Cape Fear River and of other great enterprises throughout the country based on the development of traffic by waterway improvements which are commercially sound giving great impetus to a movement which he says the unsatisfactory railway system rendered public opinion ripe for.

#### Too Energetic.

"Last Saturday" said the flat dweller, "I went out into the hall and saw a woman on her knees scrubbing the marble very well, making it a beautiful dead white. I thought to myself, 'This is a good scrubwoman; I'll ask her to scrub my kitchen and clean my windows.' I did. She scrubbed all the paint off the floor of my kitchen and washed the panes of two windows entirely out. 'I was glad I didn't ask her to wash my face,' she finished.—New York Press.

Judge Boyd also announced that at that term the case of Simmons Hardware Company against R. H. Hardin and L. E. Davis would be tried. This is a proceeding in bankruptcy, in which he involved the defendants visible possessions, and Judge Boyd said it would not be fair to them to sentence them before that trial was had. There is also a bill of indictment to be tried in which all the officers heretofore convicted, and a great many of the distillers are involved, under an omnibus charge of general conspiracy to defraud the government. ### DO NOT DOSE THE STOMACH

Cure Catarrh by Breathing Hyomei. Sold Under Guarantee.

The only scientific and common sense way to treat catarrh of the nose and throat is by a local application that will kill the catarrhal germs. Ordinary stomach dosing is worse than useless. Taking medicine into the stomach to cure catarrh of the head can have no good effect, and often leads to serious derangement of the digestive organs.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the nose, throat, and lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane. F. S. Duffy's faith in the wonderful merit of Hyomei as a cure for catarrh is shown by the guarantee he gives with every Hyomei outfit that the money will be refunded unless the treatment gives satisfaction.

A complete Hyomei outfit, consisting of a pocket inhaler, a bottle of Hyomei and a medicine dropper, costs but \$1, extra bottles of Hyomei, if needed, 50 cents. F. S. Duffy gives his personal guarantee to refund the money if Hyomei does not relieve, so that you run no risk at all in buying this reliable remedy.

Death of Henry S. Gorder. Mr. Henry S. Gorder, died at nine o'clock yesterday morning at the home of his son, Mr. George D. Gorder, aged 82 years. He was born in Amberg, Berks county, Pennsylvania, Sept. 22, 1824 and lived in the north the greater portion of his life but has been a resident of New Bern for some years. Mr. Gorder was a man of considerable inventive genius. He has had some successful and useful inventions in the line of saw mills apparatus and other mechanical appliances. Of late years he had been studying on a new kind of water power which promised much and would have meant much in the production of power cheaply. This last discovery was almost the height of his ambition although the device was never completed so that practical operation could be positively assured.

The funeral will be held at the sons residence, 4 Crescent St., at 4 o'clock this afternoon, Rev. J. G. Garth will officiate. Elizabeth City Economist please copy.
