must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Rayce, L.L.D., D.D., of Oxford University, England, has recently said of it: "It is indeed a marvelous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it - not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for."

A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.

### SHORT PASSING EVENTS.

The subjects of the discourses by Rev. J. G. Garth at the Presbyterian church tomorrow will be "Reality of the Power of the Holy Ghost," at the morning service, and "The Calamity of Pride" at night.

Kinston Free Press: "The cylinder head to the engine on Norfolk & Southern train No. 3, blew out Thursday afternoon, between Kinston and Falling Creek, and the shifter engine for the Kinston yard pushed the train in a little late. The train limped out for New Bern on one engine."

Simplified spelling has been rejected and we will continue to spell words like knife, r.gue, though and thousands of every day words that are mostly made up of useless letters.

The coming of Christmas is announced in no more appropriate way than at McSorley's Middle street store which is very prettily decorated and ornamented with a big Santa Claus, and an array of presents that will make the average boy's or girl's eyes stick out.

The Journal is advised by Congressman C. R. Thomas that the Life Saving Station at Beaufort which was destroyed last week will be rebuilt further up the beach.

The Library Committee appointed by the city council will meet in the rooms of the library this morning at 11:30 o'clock instead of at 10 as was announced in the Journal yesterday.

The whistle nuisance is on again and we believe as we always believed that it can be very greatly reduced. There is no cause for any whistle to blow before six o'clock in the morning, yet several times lately have they been known to commence business at 5:30 a. m. It is too bad that people are disturbed by these noises but they have a few rights that the whistle blower must respect.

The services at the Christian church tomorrow the pastor, Elder A. J. Edmondson, will deliver the first sermon of his pastorate. All are cordially invited to come and hear him.

## VOICE OF THE PEOPLE.

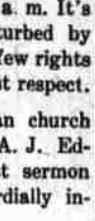

### Who Suffers?

Editor Journal:

A few months ago there appeared in your columns, rather a lengthy article, asking for better Electric light service and stating that it had been decided in the courts, "That Electric Light Company were responsible for damages either to person or property", can you inform the public if that statement was the mere opinion of some individual, or was it a decree or decision of one of the courts, and if so, of which court. The company claims that they can not help accidents or the lights going out, because the machinery is worn out. Whose business is it, to see to it, that if the machinery is worn out to the extent of endangering both life and property, that the old be replaced by new machinery. For what purpose is the taxation and rents for electric lights used? Not for the improvement of the plant and yet no reduction is made either in taxation or rent. The citizens here are not only paying good sterling silver for counter-fitted goods, but they are paying utility and an extra taxation to pay for suits brought against the Electric Light Company. Can any one inform us of any accidental insurance company that will issue a policy for accidents caused by the worn out machinery and bad service of the New Bern Electric Light Company? A CITIZEN

The Kind You Have Always Bought

He threatens who is afraid. - From the French.

A Home Made Happy by Chamberlain's Cough Remedy.

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today. - Geo W. Spence, Holly Springs, N. C. For sale by Davis Pharmacy and F S Duffy.

### Our Federal Clock.

We are pleased to publish the following letter which explains the progress being made on the clock to be erected on the Federal building:

Washington December 11, 1906.  
Hon. C. R. Thomas, M. C.,  
House of Representatives,  
Sir:

Referring to your inquiry regarding the matter of the clock to be placed on the Federal Building at Newbern, North Carolina, you are advised that the contract for the work was awarded on the 10th instant, and includes the illuminated dial desired by you. The necessary provisions had also been made for a bell, but this feature was inadvertently omitted from the specification, and it is the intention to have this mistake rectified by obtaining a proposal for arranging the clock to strike.

It is believed that this change completes the entire arrangement as desired by you.

Respectfully,  
J. K. TAYLOR  
Supervising Architect.

### Melver Day at School.

Yesterday was observed as far as possible by the scholars at the Graded School, this being largely done by the different rooms, separately. The two sixth grades held their exercises together, the fifth grade being invited to attend the exercises. Besides yesterday's contributions, the scholars will bring Monday, their money for the Melver fund.

The scholars were greatly interested in the day's observance.

### Medical Society Elects Officers.

The regular annual meeting of the Craven County Medical Society was held Thursday afternoon and the following officers were elected for the ensuing year:

Dr. Francis Duffy, President.  
Dr. Robt. S. Primrose, Vice President.  
Dr. James E. Patrick, secretary and treasurer.

A committee on vital statistics was appointed for the purpose of furnishing this important data to the National Government Department of Vital Statistics. Other business of importance was transacted of interest to the profession.

### A Man Missing.

It is reported that a white man who slept in H. A. Jarman's stables which were burned at Jacksonville Wednesday morning was burned to death. He has not been seen since the fire and was known to have been asleep in the barn. The work of clearing up the ruins is progressing slowly and as yet there has been found no evidence of any person having been burned.

The loss entailed by the whole fire is estimated at \$50,000 and the insurance will amount to \$15,000 or \$2,000.

### Valuable Report of the North Carolina Geological and Economic Survey.

There has just come from the press of the public printer Economic Paper No. 13 of the North Carolina Geological and Economic Survey, which is a report of the committee appointed by Governor R. B. Glenn to investigate the fishing industries in North Carolina. This committee met in Morehead City the 3d of September and spent the following five days carefully and thoroughly investigating the problems relating to the fin fish and shell fish industries. In this report it is earnestly urged that the legislature make provision for a fish commission and shell fish commission in North Carolina. Suggestions are also recommended for such legislation as will more thoroughly protect and increase the value of our fishing industries.

It has been conclusively demonstrated that the amount of apparatus that is fished in North Carolina is considerably greater than the fisheries of the State can support. This is most noticeable in the decrease in the catch from year to year, and it is absolutely necessary that there be some restriction. Of course the waters of North Carolina cover a great area and will support a large fishery, but they cannot support a fishery that is subject to indefinite extension.

A subject that was given most serious consideration and discussed in the minutest detail was the cultivation of the oyster and clam in the waters of North Carolina and suggestions are made regarding legislation which will throw open for cultivation certain definite areas or beds bottoms in North Carolina and provide an incontestable title to the lessees of the bottoms, which on the other hand will not in any way whatever, interfere with the natural oyster bottom.

All of the present fish and oyster laws were gone over very carefully by the committee and suggestions made regarding many of them which in the sense of the committee will make them more effective and of more real value in their protection of the oyster and fish industries.

When it is taken into consideration that the personnel of the Committee consisted of practical fishermen and oystermen representing all sections of the eastern part of the State where the fisheries are of economic importance and men representing the various branches of these industries as well as of men versed in the scientific side who were able to give unbiased opinions on all matters under discussion; that the members of this committee in most cases held meetings of the fishermen in the localities which they represented in order to obtain the sense and the feeling in their section; that the fishermen themselves are nearly a unit in their desire for more stringent protective laws and are willing that nets should be taxed; it makes the work of this committee of more real and vital value and should cause it to be received with serious consideration. The report of this committee has been strongly endorsed by the United States Bureau of Fisheries and their endorsement is included in the Economic paper.
