ESSEX BEST CAUGHT.

Colored People of Bayboro Give His Captor \$10 Reward Which They Raised

by Pepular Subscriptions'

Easez Best, the negro who shot an killed John Johnson at Bayboro last Wednesday night after the latter had been playing the role of Santa Claus. The murderer was taken at or near Edwards Mill in Beaufort county Sunday morning by Solomon Caton, an officer, and was landed in the jail at Bayboro during the day.

The colored people of Bayboro did t creditable thing in rewarding the captor by getting up a purse of ten dollars and presenting it to Mr. Caton is a reward. This indicates that Best's deed is not condoned by the people of his race as such things sometimes are and it is a good sign of growing respect for the law among the negroes.

Indigestion, constipation come and go like rent and tax day and other sorrows, if you take Hollister's Rocky Mountain Tea, the greatest remedy known to man kind, 35 cents, Tea or Tablets. F. S. Duffy.

THEY COME AND GO.

Mr. A. D. Brooks went to Beaufort last night

ANTI-DISPENSARY CRUSADE

Inaugurated at The Court House by A Largely Attended Mass Meeting.

The court house was filled last night by those who are opposed to the dis-pensary movement and had been called thither at a call to organize a campaign against it. Mr. J. C. Whitty called the meeting to order and immediately there after Mr. D. E. Henderson made a motion that Mr. Whitty be made temporary chairman. W. S. Colton was made secretary of the meeting.

Upon the motion of Rev. W. A. Ayers Rev. R. C. Heaman was introduced as the first speaker. All who have heard the gentleman speak know now energetic and convincing he is and that he is one of the most magnetic speakers ever before a New Bern audence. In prefacing his remarks Mr. Beaman said he did not know when he came to New Bern that he should so soon be in a fight, he was a man of peace more than war but many others who are pushed to the corner he will fight when the good of the community demands it.

It is unfortunate that question of temperance is divided by sentiment that the idea of a respectable saloon had been placed before the public, that prominent men, even church workers had been blinded by the specious arguments of those who favored the dispensary, and that the liquor question once decisively settled by the votes of a community should be agitated. There is only one solution of the problem and that is the settling forever of the vexing question when you have secured prohibition.

The speaker said that he had no quar rel with those who favored the dispensary nor had he a desire to quarrel There were many good men who were honest in their opinion that the dispensary was better than such flagrant violations of the law as are seen in the blind tigers, speak easies and many other illicit modes of liquor selling and for that reason they favored it; but when the dispensary has fastened its clutches on the people and before they have had them a year they will see what a mistake they have made. It is merely

bringing back the saloons in any form. There is a mistaken idea that blind tigers do not exist where a dispensary. They do exist, in dispensary towns as much as where prohibition rules.

No matter how respectable may be the cause which they expect to gain by the coming election it is still the same old liquor question that we have fought so long. The saloon under a new name and new regulations, and we propose to bury the traffic so deep that not even a bubble will rise to the surface. There is no revenue arising from dispensary and if there were how can we enjoy the things that are said to be helped by the revenue thus made when we know it is made out of the misery and degradation of humanity. A temperance crusade must be fought on the high lines of spending the holidays at home, returned civic righteousness and not on a commercial basis with such a question as 'what are we going to get out of this?" The product of the dispensary or the saloon is the same-the drunkard lying in the gutter. If the devil ever perpetrated a joke on the human family it was when he established the dispensary and he probably gave utterance to his wildest hilarity when this idea crystalized into tangible form.

The war is on and the conflict will be fierce, and there may be times when the hosts of the evening may seem to have gained the advantage. But when the smoke of battle on election day shall have cleared away we shall find the deadest issue that ever lay with its

feet turned to the sun. Rev. W. A. Ayers was the next speaker and he made a few brief reprohibition. He cited the case of four young men who met their deathin Wilmington within the short space of time between Christmas and New Year on account of liquor either directly or indirectly. He also made a strong appeal for the sake of the young man. Mr. Ayers was followed by Revs. Edmondson, Douglass and Garth, all of whom expressed their hearty co-operation against the dispensary.

After the meeting the men in the assembly signed their names as members

Upon motion of Rev. Ayers, Rev. leaman was appointed a committee of one to endeavor to secure the services of Rev. George R. Stuart for one lecture on temperance before the elec-

An Old Landmark Torn Down,

(Special Correspondence.) Gseensboro, Jan 5. About the last of the old landmark in Greensboro is to go. The Old Planters hotel, opposite the city hall will be torn down immediately and replaced by Mr. C. A. Bray with four new stores, one of which will be occu pied by J. C. Olive as an uptodate marcet. Thee stores will have pressed brick and brown stone fronts and in keeping with the one now being finished by Mr.

Bray just south of the Planters Hote'. While the old hotel building is somewhat unsightly, some of the older citizens will see it demolished with feelings not unmingled with regret as it is an old landmark. It used to stand on East Market street where the Southern Life and Trust building now stands, and was at one time the leading hotel of the city

A nnual Meeting of the tockholders of the Bank of Oriental.

The annual meeting of the stockhold ers of the Bank of Oriental for the election of its directors and the transaction of such business as may come before them, will be held at the Banking House on the 3rd Tuesday of January, being the 15th of January, 1967.

The polls will open at 12 o'clock. J. W. MILLER.

Dec. 21, 1906.

"My Wife's Family." Hal Stephens, who wrote "My Wife" Family," which will appear here short ly, is also the author of "The Broken Idol," a musical eomedy in two acts, which will be given a New York produc tion by Manager B. C. Whitney of Detroit. The company will number nearly be several well known stars.

Resolved:

When the fact that Buster Brown will be seen at the New Masonic Opera House next Wednesday night becomes known throughout our community there is scarcely a doubt that in many a family there will be resolutions made as strong as any made by the pen of promarks to make his stand on the side of liffic Buster, but the local "Resolves" that will be-ways and means to be show the place in better light than cold present at the fun dispensing visit of type can make it appear. the inimitable Buster as noted above This season Master Rosen plays Buster, and to his credit be it said that he is saturated and imbued through and through with the spirit that actuated R. F. Outcault when he first limned Buster on paper. Mr. Outcault created an ideal Buster. Master Rosen has made him a flesh and blood affair exhaling hilarity existing for the fun of the thing and the current tour of Buster will see him with all new stage settings and environment while the stage full of comely maidens ever attendant will be heard in new and popular songs occenuated by most elaborate costume everyone new and up to the hour Never has so good an organization been seen in this popular musical comedy as we are promised and to the reader we offer the happy suggestion "Resolve" that you will be one of the many to pay omage to "Buster Brown."-A. P. N.

A PROMISING SUBURB

An Attractive Village Adjacent to Nortolk That Offers Unusual Advanta-

The Tidewater railroad is an enterise which has excited more interest than has been undertaken in the South for many years. The mystery connected with it has increased the interest inasmuch as the apparent purpose of the road was not known nor were the prospective terminal points known. But the fact that it would be a railroad of vast importance, that the plans for its construction were made on a gigantic scale and that there were many millions back of the enterprise was enough to start more than ordinary curiosity. The purpsse and route of the road became known in a little while and this doubled the interest. That it would tap the comparatively new and very fertile coal fields of Tennessee and their product brought to the seaboard by the most direct route possible and that H. H. Rogers, of the Standard Oil Co. was the sole owner of the railroad, settled a few questions but did not diminish the interest taken in the road. The Tidewater furnishes the best il-

lustration of scientific and rapid railroad building that has yet been made. Beginning less than a vear ago, fifty miles of the more than two hundred miles of it is graded and built. This practically insures the completion of the road by 1908 as the work will be carried on more expeditiously. While the road is not to be a great thoroughfare for the traveling public it will be very important road and is one of the first to enter the coal fields mentioned. And as has been stated its object is the transportation of coal to the seaboard. It has the advantage over every other road that money is not lacking to make it the most perfectly constructed raiload in the world.

While all these details are interestng, they do not, however, impress the people of this section, as do the preparations for the terminus of the road at

The immense yards containing depots shops, offices, and all buildings including miles of switches and sidetracks will be located adjoining the grounds of the Jumestown Exposition. The yards bordering on Hampton Roads for a short space, it is made convenient for the corporation to build eight enormous coal piers, each costing \$1,000,000 which will be the wonder of mecnanical genius. It is said of them that they are to be built with as much care as in their way is a watch.

These yards will give employment to at least 3000 men. The railroad itself will give employment to still more and for the sake of convenience they will have to live in this vicinity. With rare foresight a plat of ground known as as Terminal Heights, immediately adjoining the Tidewater yards and less vice as a cover for the reservoir on than a half mile from the Exposition Pollock street being a menace to wheel are being sold at rapid rate. The plat note the improvement. occupies a site peculiarly situated and there is no other available land in that vicinity where such property can be had. One must buy in this place if he wishes to get the best investment posone hundred people, among whom will sible and therefore the advantages of buying property in that plat are many A. P. N. and great. The lots are being taken. The streets are all wide and in perfect condition, the sidewalks are of the substantial and durable granolithic material. Handsome trees adorn the streets, several beautiful residences are under construction, and money placed in these lots is a guilt edged investment yielding anywhere from 50 to 100 per cent on the amount expended. Terminal minutes after the first. A penitentiary Heights is bound to be one of the best | cell awaits the man or men who comof Norfolk's suburbs and an investi-

Betore The Female Benevolent Society by Rev. Dr.

Beaman

The annual meeting of the Female Benevolent Society, was held in the Methodist church Sunday night, and the pastor, Rev. Dr. R. C. Bear preached the sermon on the occasion. Owing to a misunderstanding, Dr. Beaman was not informed of the unusual However, his sermon was very ap-

propriate for the occasion and was a strong and forceful discourse on the text found in Phillipians 1; 21, "For me to live is Christ." The speaker contrasted the Chrut life with the world life, and showed by the comparison what a life of good works would accomplish, and made practical applier-tion of the Christ life in the pullanthropic work of the organization which he was addressing. Self denial, he said, for the cause of suffering hu was the Christ life which the apostle lived and to which he exported those to whom he wrote. The welfare of the other man should be the desire of every one and it is this principle that the one and it is this principle that the Female Benevolent Society observes.

A Valuable Agent.

The giverine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than aleshol would. It also possesses medicinal properties of its own, being a valuable damulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of floah, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that giveerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the less and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very sovere, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the flugering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn why this medicine has such a wide range of application in the cure of diseases. It is sent free. Address Dr. R. V. Pierce, Buffalo, N. Y. The "Discovery" contains no alcohol or harmful, habit-forming drug. Ingredients all printed on each bottle wrapper in plain English.

Sick people, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce's Medical Adv.
