UNJUST LEGISLATION ACAINST **KIGHT OF CONTRACT.**

Both at Washington, D. C. and Ral eigh. N. C. there are bills pending which are most unjust, and of a charaster that falls within the term of class legislation. These legislative measures sesume that railroad companies cannot make contracts which involves the exchange of transportation over their roads, and newspapers cannot make contracts for their advertising space. In the specific bills now being urged, these rights of contract are attacked simply as they may apply between railroads and newspapers.

So far as newspapers are concerned if they cannot make contracts for a specific amount of advertising space for a specific amount of railroad transportation, they may be debarred from at. That he can injure the people of excepting wood, eggs, vegetables, groery and dry goods occounts, and various other commodities for their advertising space, or subscriptions to their papers.

Originally, neither railroad or newspaper had money, One had transportation to offer in exchange for some thing it needed to keep up its business. FITTINC PUNISHMENTS The other had space to exchange for some commodity, in order it might meet its expenses. That a railroad company and a newspaper each has says, "the fining of trusts is a sham. been fortunate enough to secure such contracts, each for its own special com- them." And it is not the Rockefellers modity by which it lives, the original and Rogerses and their kind, alone, fact that each started with nothing except its own commodity, of transpor-

mended by the minority leader in that body. On both these occasions he has gone out of his way to show his enmi-ty to the North Carolina delegation and t is mining that is of Mining and ty to the North Carolina delegation and to everything that is of North Carolina. It is something unheard of for the Speaker of the Honse to refuse to fill a vacancy on the minority side of a com-mittee by the appointment of the mem-ber recommended by the minority lead-er, but Speaker Cannon has twice been guilty of this hreach of courtesy during the present session and in both instan-ces the man he has so alighted has been a member of the North Carolina delegation." All this proves the half breed spirit,

for history says Mr. Cannon was born in North Carolina, yet it may be the spirit he exhibits towards everything North Carolinian, he is not responsible for, having inherited it, and leaving this State at an early age, before he

could be weaned of the meanness born in him, and take on the loyalty that would be natural to one born in the "Old North State."

The Charlotte Chronicle says, editorially:-

It is a misfortune for a man to be born in North Carolina if he would have the favor of Speaker Cannon. The more strongly the man suggested for the favor is backed, the more vigorously does the Speaker resist it, as witness the case of Congressman Webb, who was presented by Leader Williams for a place on the judiciary committee. The old chap is probably mad at the criticisms of the North Carolina papers

and takes this means of revenging himself, but how can any self-respecting Southern paper speak well of him? We may never get a North Carolina ap-pointment, nor the South get the Ap-palachian Park until we call him "Uncle Joe." but that cannot be helped.

As if any self-respecting North Carolinian would seek to secure a favor, if to cure in 6 to 14 days. 50c. it demanded humiliation to get it ! The Speaker may use his position as he has done, to strike at everything from this State, that cannot be helped. His discourtesy and coarseness are so much

ingrained, that like the old saying, "what can be expected of a hog, but a grunt", so of Speaker Cannon, com-

mon decency is not in his make up, and courteous treatment would be laughed a State, no doubt gives him satisfaction. It is the nature of the half breed to rejoice to see injuries inflicted. To tell levs. Mr Cannon plainly what he is, will

likely get favors when coddling and tickling him under the chin, would beget an oath and a kick.

TO CHECK CRIME.

This Statement Was the Cause of a Mighty Scrap Between Negro Women Yesterday.

HAVE BIG FEET.

Gee, but it was great ! There has not seen so much free fun afforded the popalace of New Bern for many a day as was seen yesterday on the thoroughlare of one of New Bern's streets. Two dusky damsels and one boy were the dramatia personel and it all came about by the boy's report to one of the romen that the entire Jones family, colored), were all right, but they had big feet. The charge, the denial and the jassing of the lie were quickly followed by a biff and a punch that gave the 'point of the chun' blow cards ard spades and then beat the game. Then when the women were right energeti

cally at work pummeling each other, the boy butted in and began throwing brick bats, and 'tis said by bystanders, that the snowstorm at the opera house last Saturday night was not a circumstance compared to the shower of bricks that happened for about a minute. Some of the bricks were quite badly hurt. After the women got through hammering each other peace reigned and offended dighity was satisfied.

League held its campaign meeting and a large number listened to three rousing speeches and much was accomplished by the temperance element in the support of their cause. The meeting was opened with prayer by Rev. A. J. Edmondson, Rev. W A. Avera introduced the first speaker, Mr. D. F. Hen-derson, who made his first appearance before an audience of this nature and he gave a sp'endid address, thoroughly covering the ground of the conflict waging. He introduced many statements from citizens in cities where prchibition, dispensary and the open bar are in force.

He showed that in probibition cities that contrary to statements made by enemies of the movement that prohi bition is a success. That better order is observed; that there is more money in circulation; that business prospects are not diminished but are enhanced He showed that in cities where dispen-saries exist that they are a delusion and a snare, and that the bar-rooms are as they always have been the diabolical instrument that has cursed society from time immemorial. He quoted from well known authorities as to the condition of temperance sentiment proving that it is increasing and that dispensaries are unpopular. He said The little girls made an especially fine that the proceeds of the Kinston dispensary did not pay for the street improvement but that it was bonded. He cited the prosperous condition of our banks and the general business inter-The old, original GROVE'S Tasteless Chill Tonic. You know what you are

each meal and at bedtime.

punishment, besides those now meted mains, and the right to continue to exercise these commodities, cannot be abrogated by subsequent successes.

tation and newspaper space, still re-

Each North Carolina Legislature seems to develop some petty spirit of hostility towards the State Press. The bills before the present legislature are samples of this hostility. No newspaper enjoys a "free pass." No newspaper asks for a "free pass." The newspaper "free pass" is the conception of persons who are totally ignorant of what they say. The very men who seek to disgrace the Press by alleging they receive perquaites in the shape of free railroad transportation, are men who will demand free laudation of their public actions in the Press, and unless they receive it, will likely refuse to take the newspaper that fails to give them public notice. The present North Carolina legislation against the newspapers, is an attack that hurts most the country weekly newspaper, and to this same country weekly, North Caroline owes obligations that can never be repaid, for the services these country weeklies have rendered in the promoting and helping to definite and safe ends, the moral and industrial welfare of the "Old North State." It is easy to hick over the ladder that has been the means of gaining success. Today is is easy to sneer at and insinuate way commensurate with the work of those who have lifted North Carolina into national prominence.

A CANNON TURNED AGAINST

aker Cannon has an enmity against everything North Carolinians, equal

the hostility felt by the halftowards the race of which he fe part blood, yat ropals everything which rings to mind that he is of the race. that he has left. This forest reserve mition is not the first act of discourmy of Mr. Cannon's towards Nor fee, Of this comity the Wilming ger says, editorially;

out to them. What does the vagrant care for imprisonment, which means his care and feed, to be paid for by city or county. Make the penalty, work, and the vagrant class will disappear. The petty class of law breakers, care little for the magistrate's fine, if they they can escape confinement. The ains. death penalty is a check on capital crime, if pardoning power be remov-

As the News-Observer says, a fine imposed upon a Standard Oil official amounts to nothing. The price of oil is advanced and the public pays the penalty, while the trust magnate laughs at the law. Just how drastic the legislation must be to make the millionaire conform to the low, as well as smaller offenders, is the question. Money fines amount to nothing no doubt but something in the way of corporeal punishment, which would put in "durance vile," instead of being fined, would make the millionaire a respecter of the law, as well as fearful of its punishment.

It is not the wish of any framer of laws, seeking the punishment of criminals or those who violate the rights of others, to enact such laws as a personal gratification. Those who must mete out the punishment, take no personal against the newspaper, and today the pleasure in the execution of the pun-newspaper profession is the one profes-sion that has not gained wealth in any ted, and in this are when more than the protected, and in this age when money secures protection for offenders against the law, or the law is so easily satisfied by the culprit giving a portion of
