ATTACKED BY DOG.

A Small Dog Bites Mr. T. E. Land on the Hand. Animal Was Acting Strangely.

Mr. T. Eugene Land, a salesman for Mr. B. B. Davenport was attacked by a small dog yesterday and received a bad bite on the hand. The dog just before had attacked a large dog and had bitten it severely. Mr. Land was in front of the store and almost unconsciously waved his hand when the dog grabbed it and kept its hold for several seconds, and when it did loosen Mr. Land jumped on the animal and stamped on it until it was killed. There were no evidences of rabies about the dog and Mr. Land's injuries do not appear to be dangerous.

There seems to be considerable trouble about dogs developing rabies at this time. It is only a few days since Mr. and Mrs. Sullivan were attacked by their pet dog, and although the wound it made was not painful they learned at Baltimore that the dog was really mad and that a thorough Pasteur treatment was necessary. The fact that a dog has bitten any one whether in a playful way or not is enough to cause concern and such a wound should receive medical attention at once. Furthermore, if there is any suspicion of another dog or animal having been bitten by a dog supposed to be mad all should be dispatched without regard to any protest of their owners.

GRAHAM BILL AND OTHER RAILWAY LEGISLATION.

Occupied the Attention of the General Assembly Illicit Distilleries Etc.

Special to Journal.

Raleigh, Feb. 14.—In the legislature bills were introduced to honor the memory of Zebulon B. Vance and Chas. D. McIver by placing their statues in the national capital.

To prevent discrimination in telephone rental.

To make general election day a public holiday.

To make it unlawful for any tenant to leave the employment of his landlord before paying debts, and to make it unlawful for any one to employ such tenant.

In the course of discussion on bills to offer a reward for the capture of illicit distilleries it was stated that the object was to enforce the Watts liquor law, and that sheriffs and other county officers had been extremely derelict in their duty to this law.

There was prolonged discussion of Graham's railway bill fixing passenger rates at 2 1/2 cents per mile, first class and 2 cents second class, and for interchangeable mileage of not over 2 1/2 cents for thousand mile books. Those reduced rates applying to roads which have net earnings from passenger travel of \$1,500 per mile, and under that figure, first class may be three cents and second class 2 1/2 cents.

Vice President King, of the Norfolk & Southern railway telegraphed Mr. Graham that there were twenty-five short roads in the State representing a quarter of the whole mileage, yet these received only 12 per cent of the gross revenues, and to reduce the rate under 3 cents would ruin them. The bill is made special order for tomorrow.

A substitute reducing rates one-half instead of one-third was lost and the bill passed, 76 to 20.

The section forbidding railways from contracting with newspapers was stricken out after a threat had been made that if the House did not so act the Senate would kill this section.

HOUSE.

The following bills were introduced in the House:

To reduce tobacco warehouse charges Laughinghouse in his attack upon the railway rate bill said railways took eight million dollars annually out of North Carolina. He wanted flat rates of two cents on all.

The House received from the committee a bill repealing the libel law. It was charged that its title did not indicate its importance, and that no editor had been notified about it or given a hearing.

The special order in the House was the Justice bill fixing passenger rates on railways at two cents on roads whose passenger earnings exceed \$1,500 per mile, 2 1/2 cents for those exceeding \$1,000, 3 cents for those under \$1,000. A substitute was offered providing for first and second class fares and allowing the Corporation Commission to reduce first class fares to 2 3/4 cents on certain roads. It was stated that the Southern railway and Atlantic Coast Line would come under the two cent rate, as the president of one of the great systems had admitted these roads could make money at that rate. The Seaboard Air Line is out of the cent class, but its attorney stated if the Atlantic Coast Line was reduced to two cents it would force the Seaboard Air Line to come to that rate by competition.

Another reason being persistent rumors that certain influences were at work to wreck the Seaboard Air Line, and if the legislature reduced its rate to two cents it would be used as a pretext that the legislature had caused the trouble. Discussion of this very important bill was resumed tonight.

The debate of the day in the House was on a bill to allow voters of Rockingham to vote on the question of removing the county seat from Wentworth to Reidsville, it was overwhelmingly defeated.

Bills passed giving the Corporation Commission power to require railways to operate additional trains and make connections with other trains, also to prevent running of Sunday freight trains, and requiring railways to show where delays in delivery of freight occurred.

Hundreds of persons from within the territory of the proposed county of Lee came here today on a special train to hear the debate before the House committee. The bill passed the Senate with only one vote in opposition. The House committee reported adversely 12 to 7.

CALLS HIS CURE A PERFECT MIRACLE

Suffered Tortures With Terrible, Dry Eruptions Since Reaching Manhood—Doctors All Failed—Became Too Disfigured to Leave House—Now Well and Says:

CUTICURA REMEDIES WORTH WEIGHT IN GOLD

"I cannot help expressing to you my most sincere thanks for the benefit which I have derived from the use of Cuticura Remedies. They represent a perfect miracle and each set is worth its weight in gold to suffering humanity. Ever since the time I grew into manhood I have been suffering from a dry eruption which at times appeared very extensively, and at other times, but to a limited degree, on my body. I consulted a number of medical men without result, and last January I was afflicted with a terrible eruption on my hands, scalp, and face, which was so bad that I could not even leave the house, so I finally resorted to Cuticura.

"In the morning after breakfast I took a tablespoonful of Cuticura. Resolvent, the same after dinner and supper. Three times a day I washed myself with Cuticura Soap, and three times a week I took a hot bath with Cuticura Soap and applied Cuticura Ointment to the parts that were painful. So far my Cuticura Remedies represent an outlay of only a few dollars and I am completely restored to health, while formerly I had spent dollars upon dollars on doctors, remedies, and ointments without getting cured. Needless to say, I am quite ready to spend my last cent for Cuticura Remedies. Henry E. Kamping, 633 Eagle Ave., New York, N. Y., Feb. 16 and Mar. 15, 1906."

A FRIGHT WITH PIMPLES

Cuticura Soon Makes Skin Clear.

"My face, a few months ago, was certainly a fright with pimples. I heard about Cuticura Remedies, and got Cuticura Soap and Cuticura Ointment. In a short while my face was well and skin was clear. I advise any one whose skin is full of pimples and blackheads to use Cuticura Remedies. Ruth H. Hedges, 108 W. 3rd St., Pitts., Pa., Ill., Sept. 2, 1906."
