

# POTASH

in the soil puts corn on the stalk and money in the bank

The natural process of plant growth is simply one of chemical conversion. Potash, the raw material, is cheap; but when converted by nature into corn, it is valuable. The use of Potash is not an expense, but an investment.

### SEAGUING RAILROAD.

Line From Miami to Key West to Cost About \$20,000,000.

Inside of three years, when work now under way is completed, it will be possible to travel in a railroad car all the way from New York or Chicago to Havana. This will be brought about by the construction of a seagoing railroad which will run from key to key over the 154 miles separating Miami and Key West. From the latter point it is only 100 miles to the Cuban capital, and across this stretch of water the trains will be ferried on monster rafts capable of holding thirty cars.

This project is an extension of the Florida East Coast railroad, owned by Henry M. Flagler. It was started last year, and up to date the grading of the section of the road on the mainland and the construction of some of the viaducts have been completed.

Some idea of the boldness of the undertaking may be gained from the fact that from Long Key to Conch Key it is 10,400 feet, across Knight's key channel 7,300 feet, across Moser key channel 7,800 feet and across Bahia Honda channel 14,940 feet. However, about the major portion of the route lies a coral bed which will make a firm foundation for the viaducts. One of these viaducts will be the longest marine bridge in the world, double the length of Brooklyn bridge, in New York. The viaducts will consist of reinforced concrete arch spans and piers, and to insure safety and comfort the rails will be laid thirty feet above low water. Eventually it will be a double track road all the way from Miami to Key West.

Aside from its attractiveness to travelers, this line across the Florida keys is already being regarded in the commercial world as a factor in the future development of both Florida and Cuba. About 4,000 men are engaged in the latest Flagler enterprise. The route between Florida and Cuba will begin as soon as the line reaches Bahia Honda, some distance north of Key West and where there is a deep harbor. But the plan is to reach Key West as soon as possible and make that place one of the big southern seaports.

### VOICE OF THE PEOPLE.

**Isn't This Violation of City Laws?**

I would be pleased to know why the city should allow the railroad company to leave cars standing across Griffith Street so long at a time. I have known them to leave cars standing two-thirds the way across the street all night.

**Writes His Home.**

Rev. W. H. Davenport, D. D., minister resident of this city, and a graduate of Livingstone College, D. C., is visiting his home here.

### EFFECT OF THE FOOD LAW

**Driving Many Worthless Catarrh Medicines Out of Existence.**

The Pure Food Law of 1906, which went into effect the first of July, has already shown its effect. It will follow its enforcement.

Many worthless remedies that have been advertised for years as cures for a disease that is universally prevalent, have been driven out of existence by the Pure Food Law.

The effect of this law is to increase the sale of remedies that are valuable and that fulfill the provisions of the law. Hyomel, for example, is meeting with a larger sale than ever before, and F. S. Duffy is selling it under a guarantee that it will cure or refund the money will be refunded. Hyomel is a scientific treatment that is recommended by the best physicians. It cures catarrh without stomach dosing, through inhaling medications that go right to the affected spots.

By breathing Hyomel three or four times daily through the nasal pocket inhaler that comes with every outfit, its medicated, healing air penetrates to the most remote parts of the lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane.

The complete Hyomel outfit costs \$1, extra bottles if needed, 50c, and is sold by F. S. Duffy under the guarantee that it will cure or cost nothing.

### MIX THIS AT HOME.

The following simple home-made mixture is said to readily relieve and overcome any form of Rheumatism by forcing the kidneys to filter from the blood and system all the uric acid and poisonous waste matter, relieving at once such symptoms as backache, weak kidneys and bladder and blood diseases.

Try it, as it doesn't cost much to make, and is said to be absolutely harmless to the stomach.

Get the following harmless ingredients from any good pharmacy: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle, and take a teaspoonful after each meal and again at bedtime.

This simple mixture is said to give prompt relief, and there are very few cases of Rheumatism and Kidney troubles it will fail to cure permanently.

These are all harmless, every-day drugs, and your druggist should keep them in the prescription department; if not, have him order them from the wholesale drug houses for you, rather than fail to use this, if you are afflicted.

### A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting all disordered conditions, as prostrated, anorexia, indigestion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has rendered delicate, weak women strong and vigorous health and vitality, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets do not grip. They effectually cleanse the system of accumulated impurities.

The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper cover, or 21 stamps for the cloth-bound volume. Address as above.

### BAD START FOR YOUTH.

**He Boldly Loots a Safe in Day Time While Proprietor is Out.**

A very sad case of youthful delinquency was brought to the notice of the police Tuesday in the arrest of Claude Rowe, a white boy of 16, but who is scarcely more than 14 years old. He is the son of the late J. B. Rowe, and while his reputation has not been particularly enviable he has not had any particular police record. His crime consists in going to the safe of Mr. W. F. Hill on South Front street while it was open, and while neither Mr. Hill nor any attendants were around and taking sixteen dollars with which he quickly purchased a rifle and a bowie knife. It was not his purpose to go out west, but he thought he might need them some other time. He was traced and arrested and admitted his wrong doing. There was no preliminary hearing at the police court but he was taken direct to the Solicitor by Chief Hargett. He was placed in jail in lieu of bond to await the April term of criminal court.

**Oh For a Snow Ball!**

Kinston Free Press 18. Two men were locked up in the police station Tuesday evening for a jag which they had been nursing several days, and this morning, after the night's slumbers had some what dissipated the effects of old booze, they arose from their "lowly" couch and looked longingly at a pile of snow which still remained under the north shadows of the court house and one remarked, "I would give all I possess in the world for one snow ball."

No one can appreciate the force of the remark but he who has awaited with breathless interest, the "morning after," and with strained ear, for the clink of ice in the pitcher of water for which the bell boy had been dispatched post haste. In the language of the street, there was a "hot box."

Without warning the city electric lights went out for all night, at 11:40 last night. "Something's out of order," was the reason given. Now the Commission is abolished, cannot the city give the electric plant away to some one, on guarantee of regular light service? There may be lights tonight.
