

THE KING OF BLOOD PURIFIERS

For more than forty years S. S. S. has worn the crown of public approval and has been recognized as the King of Blood Purifiers. It has demonstrated its ability to CURE in thousands upon thousands of cases of blood and skin diseases until it is regarded today as the most reliable and safest of all blood medicines.

Pure blood means strong, vigorous bodies, well nourished systems, steady nerves, and all the machinery of life working in harmony with nature—thus insuring perfect health. Impure or diseased blood means the opposite of all this; any impurity, humor or poison in this vital fluid acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the various skin affections show that the blood is in a feverish and diseased condition, as the result of too much acid or the presence of some irritating humor. Chronic Sores and Ulcers are the result of morbid, unhealthy matter in the blood, while Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that continue to grow worse as long as the poisons which produce them remain in the blood.

All blood troubles are not acquired.

Through the blood disease germs are transmitted from one generation to another. Parents hand down a tainted circulation to their children, and we see its effects manifested in various ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and, as the taint has been in the blood since birth, the entire health is usually affected, and the system weakened from want of nourishing, health-giving blood.

In all blood troubles S. S. S. has proven itself "The King of Blood Purifiers." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this life-stream pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic S. S. S. has no equal, and it will be found especially bracing to weak, anaemic persons.

S.S.S.

PURELY VEGETABLE

Diseases, Scrofula, Contagious Blood Poison, and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years, or to be transmitted to offspring. If your blood is out of order begin the use of S. S. S., The King of Blood Purifiers, and restore this vital fluid to its normal healthy condition, and enjoy the blessing of good health. Book on the blood and any special medical advice desired will be furnished free of charge to all who write.

YESTERDAY MORNING'S FIRE

Review of the Great Conflagration. Losses Will Not Exceed \$25,000.

The conditions surrounding the fire make it a matter of increasing wonder in short, nothing less than a miracle that the fire having such a headway did not sweep the entire section from Pollock street to the Trent river. That it did not is due to the magnificent work of the firemen and too much praise can not be given them. Almost risking their lives in the awful heat they stood their ground directing their efforts against every attempt of the fire fiend to destroy more property and these attempts happened every few minutes. There is not a house along the line opposite the fire that was not set on fire by embers or the excessive heat. In Mr. W. W. Clark's home the fire caught under the tin roof and it was necessary to cut a hole in the ceiling in order to put a stream on the roof. And the control of the flames that the firemen attained so well alone, solved the problem of the salvation from the flames. Had a fire gained a three minute start with the northwest wind blowing a gale, the doom of the entire block would have been sealed. To be sure the rain had been of some assistance, but without the constant playing of water on the places in danger. The Baptist church was set on fire two or three times but it was put out by the use of buckets of water.

One of the excellent helps to the boys was the Sibley engine, which stood the test splendidly and rendered valiant service. The other engine made unusual record and ran itself out of commission in a little while.

There can be but little comprehension of the fierceness of the fire except by eye witnesses. It is the united testimony that the flames made the most rapid progress of anything that was ever seen here. It was like a terrific cyclone of fire sweeping everything before it. The inmates of the houses devoured had scarcely time to save themselves, and it was impossible to save even the least article of household property.

Following is the list of losses: J. M. Arnold \$12,000 or \$15,000; insured. J. W. Stewart \$5,000, insured; Mrs. Kate Richardson \$5,000, insured; D. M. Hollowell \$1,000; William Sultan, \$1,000; L. H. Cutler \$250.

The number of horses burned in the livery stable was ten. Most of them belonging to citizens and placed there to board.

Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best of all tonic medicines. Guaranteed by All druggists.

BLOOD CURDLING EXPERIENCE

Miraculous Escape of a Passenger Train From an Awful Wreck By Collision.

Special Correspondence.

Greensboro, April 2.—Passengers arriving last night from the Charlotte train via Mocksville and Winston told of a hair raising experience and an almost miraculous escape from a terrible wreck at a trestle a few miles this side of Mocksville yesterday afternoon. The passenger train was nearly full, and as it approached a trestle near Mocksville, had to stop, waiting for it to be repaired sufficiently strong to cross on, the trestle having been partially destroyed by fire. The train backed about two hundred yards and stopped, awaiting the signal to cross over. While the 59 or more passengers on the rear coach, were willing away the time in conversation, reading or napping, they were startled to hear a railroad employee yelling by the coach as he ran, "Every one get out or you'll be killed." Instantly windows were raised and the aisles filled in the rush for the doors. Half succeeded getting out windows, into the red mud and rain, running for their lives from the scene, as they saw bearing down on the coach a double header freight with a string of 36 cars. The only occupants left in the passenger coach were State Superintendent of Public Instruction, J. Y. Joyner, a lady and infant. They had been absorbed in reading, and had not heard the shout of warning, only aroused by the exit of others through the door or windows. Hurrying to the door with the lady and infant Mr. Joyner saw the passenger train was running and did not attempt to leap from the moving train. Fortunately, the train had pulled back 200 yards, giving it some leverage to go forward before reaching the high trestle. The on coming freight passed over where the train had been standing and came to a stop just 20 feet from the rear coach of the passenger. There was fortunately an even grade, the engineer of the freight had jumped after putting on the emergency brakes and the thing stopped just in the nick of time. The trouble was caused by the passenger's flagman falling to go back to warn on coming trains. As it was he had been routed from his seat by the conductor, and as he went to go back, he saw the approaching engines of the freight and gave the alarm to the passengers as he hurried with his belated flag. The wise precaution of backing the passenger a good distance from the unsafe trestle, thereby giving it a chance to move up from the approaching freight, alone saved a horrible wreck. But it did not save many of the passengers from the scare of their lives and from the smeared from head to feet with red mud, with soaked clothes, and some bruises to those who jumped out of the windows.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn lumpy growths back to flesh again. This is impossible. But I can now surely kill the pains and yeags of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—found the last ingredients with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I can finally cure all curable cases of this horrid and much dreaded disease. These anti-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no artificial means to suffer longer without help. We sell, and in confidence recommend.

MAY MUSICAL FESTIVAL.

New York Symphony Orchestra Led by Walter Damrosch to be in Greensboro Next Month.

Special Correspondence.

Greensboro, April 2.—The Greensboro Musical Association, in preparing for its May musical festival is undertaking larger things this year than ever before. The engagement of the New York Symphony orchestra under the leadership of Walter Damrosch will give music lovers an opportunity of hearing one of the most famous musical organizations in the country. In addition to the Damrosch orchestra, there will be the two other concert series. The whole series comprises two evening and one afternoon. The first concert "The Rose Maiden" by the Greensboro Musical Association and the Greensboro home talent orchestra will be added to it by the appearance of Dr. Kranklin Lawson, tenor, of New York city. The next concert of Wednesday afternoon will consist of excerpts from Heidegger by the Greensboro Musical Association chorus and its soloists and orchestra; excerpts from Julian Edwards cantata, "The Redeemer," and other numbers which will be announced later. Mrs. Wade Brown, contralto, of Raleigh, will sing at this concert. This is Mrs. Brown's first appearance here and her coming will be a source of gratification to lovers of beautiful contralto voices. The Wednesday evening concert will be given by the New York Symphony orchestra with its soloists and Madame de Moss, soprano, of New York city. The association also announces the engagement of Herr Roy, whose appearance at the festival this season will be his first appearance since the last May festival. This announcement will be hailed with delight by the host of admirers of Herr Roy. Miss Rose Few, of High Point, has also been engaged, and will add much to the success of the Tuesday evening concert.
