NEW ORLEANS AND PANAMA CA-NAL-COMPLETION.

At first thought, the efforts of the citizens committee of 25 members, of New Orleans, taking preliminary steps towards plans for a bi-oceanic, or Panama Canal Exposition, looks like a very forward movement, one long in advance as the exposition proposes to celebrate the completion of the great canal of Panama. But there is great work ahead, if the exposition is to be come a reality, even if it is to be held as proposed in 1915 or 1916. Together with the citizens committee, the other local associations of New Orleans, the Progressive Union and the Merchants and Manufacturers' are giving them support, and a call has been issued to the people of the Southern Valley and western states, whose interests will all be materially affected by the Pan-Ama canal completion to meet in conference in New Orleans on June 27th. The object of the conference will be to get the personal views o fthe several delegations attending, see if the several states will act together to make the proposed exposition a success, and if agreed, then to formulate definite plans towards the creation of the exposition. The city of New Orleans proposes to raise \$5,000,000, and the state of Louisiana, probably these amounts can be increased \$15,000,000 from other states, if the sentiment favors in the conference,

This exposition would celebrate tremendous industrial and commercial achievement while other expositions held in this country have had for a basis, the commemoration of some local historical event. The difference is noteworthy. New Orleans with its site at Lake Ponchartrain, would be the ideal national place for such an exposition.

that the exposition be held.

WILL NEW BERN CEASE TO BE A SEA PORTI

Naturally, the question above will be held as a joke, or if seriously considered, will be answered, "of course not!" If left to New Bernians, to determine, could it be answered so positively? The Journal asks, will New Bern cease to be a seaport, anticipating the action of the Norfolk and Southern Railroad Company, which makes no secret, that when its railroad line between this city and Washington, can carry the passenger traffie, it now handles part of the freight, the steamers. Neuse and Albemarle. now running between this city and Belhaven, will be taken off.

A few years ago, the Journal agreetween New Bern and Baltimore. of commerce stirred in th matter. But there was no result, and the merchants who said they would take stock, are as formerly, paying for goods by the old lines of transon, and probably complaining of high freight rates. At present, the chamber of commerce, to dignify its Don't make the common error of might be used as a "bogie man" to always. And the Heart, and Kidr epresent something not here, but which can be appealed to.

But beyond this, the question is. earnably service is dropped, to he other take its place, a service that till run blosmers to Bultimore while on that have may be

rond local ability to establish portunity is open, would prove deplorable from every point of view. The time for action is now

THE STIMULANT OF HEALTHY EXAMPLE.

The force of example being so far ahead of just precept, is illustrated every day. The telling how things should be done, without the knowledge and capacity to perform, or know that the work undertaken, is correct. amounts to nothing. And yet to the ignorant or lazy, the example of good work, provokes enmity and hatred. Even to persons who hold themselves as intelligent and industrious, the example of others who gain great sucess, excites jealousy and envy.

But there is the broad view to be taken of both example and precept. Example is the healthy, active force present, visible, exhilarating. To the strong and ambitious, it is a most healthy force. It provokes to greater effort, and excites to greatest endeavor . To the individual, the example of an honorable and upright life, cannot but prove helpful. It is something that nearly every man and woman overlooks, the thought of their force upon others, in the way they live their daily lives. Every day offers the opportunity of proving oneself an example, that may be of help to some one else. And very little things go to make up a force, a character, to have its weight and influence on others. The unselfishness and courtesy, easy to learn and acquire, have wrought wonders in the advancement of society heart failure near the house in which progress and Christianity.

And in municipal development and growth, it is the individual force of the citizenship which is behind. create the strong municipality. As in the person, so in the municipality character and force must predominate The stimulant of some ex has often developed and brought out the greatest individuals cities and nations. Those who looked at the example, saw its character, the results that developed, and taking up the same line, secured greater results than those whose example prompted the first line of action. The good that is in any individual may be developed into a force that will become an example for others, and through them perpetrate an ever increasing force for right, that will lead to and bring sooner the millennium.

ASEBALL PROGRESS

laungers Ellis Announces Pull Team Signed. Young Ladies' Work for Association.

At the meeting of the Athletic As lation last night, there were re ts from the various committees all showing that the work is going forward at a good rate. The grounds are getting in fine condition, with a solid infield, the foundation being clay. Mr. W. W. Clark, who has been actively supervising this work, knows what todo, and a fine field is the result. Manager Ellis reported a full team signed, of 14 players. Their names will be published läter.

The young ladies who have under taken to raise money to pay for the club uniforms, have already raised' \$110 through various sources, and this assures the handsome ball clothes that are offered. The young ladies were voted thanks for their splendid efforts. The baseball schedule of games will be published in a few days. The league promises to be a fast one, and those who enjoy good basenall playing are pretty certain of getting their full money's worth and over when the season opens, June 10th.

Had to Turn People Away.

The Lachlan Vass Mission band, an organization of the Presbyterian church to promote missionary activities among young people, held a lawn social on the beautiful church green last evening where they sold ice cream and cake and devoted the proceeds to the fund to relieve the famine sufferers of China. The receipts were large and would have been larger had the refreshments held out but several people were turned away un satisfied on that account. A citizen suggests to the Journal that this enterprise having been so successful and the cause se needy that the young peo ple repeat these social events frequently during the summer and thus they will be able to contribute handsomely to the deserving cause for which they worked last night and at the same time furnish a pleasant so cial affair.

Relief from Rheumatic Palus.

"I suffered with rhoumatism for over two years," says Mr. Rolland Curry, a patrolman, of Key West, Fla "Sometimes it settled in my kneed and lamed mo so I could hardly walk at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the rheumatism away. I have Mr. and Mrs. H. W. Bell and two for over three months." For sale by

THE GREAT DAY FOR FANS.

A Crowd of 800 Witness Exciting

(By Telephole.) Aurora, May 24.-Never before has there been such a crowd in our little city as was seen at the baseball game oday between Aurora and Belhaven It is estimated that fully 800 poeple were in different positions of discom fort rooting for their favorite team. The players in either team were not strictly locally interested but were nostly made up of players in the counties but their outside help was 'all to the mustard" and they showed great spirit in the game.

The game was called at 5 o'clock and lasted about one hour and 20 minutes. Fast and furious was the game and the special feature was in Temple's (Aurora) batting. The latter is a pitcher for the Washington

eague team and a very clever player. The score was 3 to 2 in favor of Belhaven. The Belhaven players were reenforced by the battery Webster and Smith from New Bern and with them did splendid work for the sluggers from Pungo river. The battery for Aurora was Temple and Clark from Washington and their work was also very clever. It was clearly a pitchers battle and excellent support afforded by both teams.

A FAMILY JAR,

Gets One Negro in Jail While His Wife is Suffering From Wounds Made by Him.

Arthur Hill, colored, is a prisoner n the county jail on the charge of assault with a deadly weapon. For some time strained relations have existed between Hill and his wife and she went back to her parents to make her home, cruelty and non-support being her reasons for leaving him. Yester day Hill went to the old man's house, at No. 7 North street and raised a row trying to get the woman to return to his home. The entire family started in the fracas and it looked like a case of bloodshed if nothing more serious. At the time when the up a big stick of wood and struck his wife a hard blow on the body just wheel and rode rapidly away. Policeman A. L. Bryan had and was approaching when the man escaped and he gave hot chase and followed the man to near the old race track. He dismounted there and Mr. Bryan shouted to Mr. Charlie Styron who drew his knife but was prevented from using it. When Mr. Bryan put him under arrest Hill was disposed to be "sassy" but he offered no special resistance. He has given the police a good deal of trouble and is regard- given to City Livery, ed as a bad man. It was reported at first that the woman was killed but that was not true and while her injury is painful it is not thought seri-
