

THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

SPLENDID EQUIPMENT FOR A. & M. COLLEGE

A Large Sum Appropriated by Legislature Is Let Out for Improvement.

Special Correspondence.

Raleigh, June 21.—Last evening, until a very late hour last night and all today the executive committee of the new board of trustees of the Agricultural & Mechanical college was in session here to receive bids for the new \$50,000 power plant. There were 30 bidders, these coming from all parts of the United States. The act that the bids were to be made had been advertised in the great trade journals and as a result the committee had been overwhelmed with letters and literature. All of the bids were in excess of the sum named, but this is almost always the rule, it seems. In one case a bid which was made was cut 50 per cent. because of the fact that it was an educational institution and it was thought the award of the contract would be a good one for the manufacturers of the particular kind of machine which was sold. In the present case some of the bids were for constructing the building and installing the heating, light, and power plant complete; others merely for the building; some of the plant; some for special divisions of the plant; some merely for turbines, and some for dynamos.

The Railway Telegraphers Case. Raleigh, June 21.—The hearing of the railway telegraphers case by the Corporation Commission continues tomorrow. The examination of railway men, Cooman, of the Southern, and Newell of the Atlantic Coast Line, by E. J. Justice. The railway people say that the head of the order of railway telegraphers in North Carolina notified all the members from Hamlet to have influential men wire messages to the Corporation Commission urging that the law stand as to eight hours.

Suffered Painful Accident. Mrs. Mattie J. Arthur, daughter of County Treasurer Freeman S. Ernal, suffered a very painful accident Thursday afternoon which will confine her to the house for several weeks. She was coming out of Mr. Steven Fulford's house where she was living temporarily on Johnson street and was in the act of stepping on the walk in front of the yard. The soil being light and spongy yielded to her weight and her foot turned breaking two bones of the left limb above the ankle. She was taken to the home of Mrs. Minnie E. Green on Craven street.

Per-na Should Be Kept In Every Household

Where There Are Little Children.

Per-na should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But have Per-na on hand—accept no substitute.

Children are especially liable to acute catarrh. Indeed, most of the affections of childhood are catarrh.

All forms of sore throat, quinsy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh.

Per-na contains no Narcotics. One reason why Per-na has found permanent use in so many homes is that it contains no narcotic of any kind. Per-na, if taken according to printed directions, is perfectly harmless. It can be used any length of time without producing temporary results, but it is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

No Doctor Required.

Mr. Edward Otto, 227 De Soto street, St. Paul, Minn., writes:

"I cannot say enough for Per-na. It has done great work in my family, especially for my oldest boy. We had doctored with three or four different doctors and they did not seem to do him any good.

"We gave up hopes of cure, and so did they, but we pulled him through on Per-na.

"We had several doctors and they said they could do no more for him, so we tried Per-na as a last resort, and that did the work. Since then we keep it in the house all the time, and no doctor is required."—Edward Otto.

There are a multitude of homes where Per-na has been used off and on for twenty years.

Such a thing could not be possible if Per-na contained any narcotics.

The Benefit Which the Children of the United States Have Received From Per-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But at least this much can be said that the coming generation owes a great debt to Per-na, for it is in the tender years of youth that slight ailments are liable to develop into lasting diseases, thus blasting the whole career of the individual.

The mothers who are bringing up their children to-day to believe in Per-na are speaking from their experience.

These children brought up to believe in Per-na from the start, will, when they become heads of families themselves, use Per-na with unquestioning faith.

A Child's Life Saved.

Mr. G. H. Farmer, New Martinsville, W. Va., writes:

"Our little son, Harry, is well and healthy now and we think if we do as you directed us, he will keep his health and grow strong.

"We know that our little son's life was saved by your wonderful medicine, Per-na, and we shall always praise Per-na and use it in our family when needed.

"Should we have any more catarrhal trouble in our family, we will always write to you for treatment."

Mr. W. F. Doring, Mt. Vernon, Mo., writes:

"I have used Per-na to my entire satisfaction and am exceedingly well pleased with the results, having suffered greatly with catarrh of the stomach."

When Sickness Comes to the Little Ones It is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family. The mother looks forward with dread to the torrid heat of summer, thinking of her children and the many liabilities to disease that are before them. Spring and summer are sure to bring ailments, especially among the little folks.

It does not take a mother very long to discover that Per-na is the best friend she has in time of illness among the children.

A Multitude of Mothers Have discovered that Per-na is their stand-by, and that in many of the ailments of spring and summer to which the children are subjected, Per-na is the remedy that will generally quickly relieve.

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause. Per-na quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body. It simply removes the cause of the disagreeable symptoms and restores the health.

Per-na is a household remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Per-na has. Mr. C. Hallowell, Antwerp, Ohio, writes: "My daughter Allie, after taking three bottles of your Per-na is entirely cured of catarrh of the head of two years standing. We have used Per-na as a general tonic as well as for catarrh and are well pleased with it and recommend it to anybody who has catarrh."

The Mothers Hold Per-na in High Esteem.

Not only because it has cured them of their various ailments, but because it promptly relieves the children from the throes and grasp of catarrhal diseases.

We have in our files many testimonials from mothers whose children have been cured by Per-na. However, the large majority of mothers who use Per-na, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Per-na that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

Every Man His Own Doctor. The average man cannot afford to employ a physician for every slight ailment or injury that occurs in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough.

Chamberlain's Pain Balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame, back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but \$1.25. For sale by Davis Pharmacy and F. S. Duffy.

Photographers too often have prints which through some cause or other are partly spoiled. Well," suggests Camera "why not take some of these half-spoiled prints and cut out the good parts and paste them on under side of the same kind of a dish used for the cigar bands? REMARKABLE RESCUE. That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Popper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed for coughs and colds 50c and \$1. at all druggists. Rowlands Will Not Be Tried in July Court. Special Correspondence. Raleigh, June 21.—The attorneys for the Rowlands do not say that they propose to do, but it seems from what can be gathered today the case will not be tried in July but will go over. As to the habeas corpus matter it can be very accurately predicted that nothing will be done until after the July term of court. The lawyers will very naturally want to see what the grand jury can do and whether it will be worth while for them to institute habeas corpus proceedings or not. Of course they will not want to do this until they can get a pretty good idea of what the judge would take of the matter, in other words what testimony they could bring before the judge hearing the case to lead him to grant bail. This seems to be about the status of the case now. It seems to be the opinion of a good many people that the case will thus be postponed. An attorney for the defence said that it would probably have some witnesses from other states and as it would take some time to get these here this made against habeas corpus proceedings now. Everything will depend upon what occurs at the July term. The docket then has two murder cases upon it, one the infanticide case and the other that of a man killing a boy in the country near Raleigh.

Summary of Weather for May. Special Correspondence. Raleigh, June 21.—The North Carolina report of climate for the month of May was issued today by United States Weather Bureau Observer, Thiessen. It says that the weather was lightly cooler than usual, the mean temperature being 2 1-4 degrees below normal, the rainfall being about normal. The monthly mean temperature for the state was 65 degrees, the highest being 69 at Southport and the lowest 53 degrees at Buck Spring, in Buncombe county, highest absolute temperature was 96 degrees at Goldsboro on the 24th and the lowest was 19 degrees at Buck Springs on the 26th, thus making the range for the state 77 degrees. It was the coldest May, with one exception in 20 years, the exception being in 1895. The average rainfall for the state was 4 1-2 degrees. The rainfall in the eastern district is 5 1-2 inches, or over half an inch above normal. The average number of clear days was 13, and cloudy days 2. The monthly amount of possible sunshine was 81 per cent. at Asheville, 59 at Raleigh 62 at Wilmington and 52 at Elizabeth City.
