

CURES FOR SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. WASHINGTON LETTER

Happenings and Doings at the Nation's Capital City.

Special Correspondence.

Washington, D. C., August 10.—After the spectacular effect of fixing the Standard Oil Trust nearly thirty millions of dollars has subsided, it may be well to investigate what advantage the public will gain even if the trust eventually has to pay the full amount. John D. Rockefeller is reported to have said that "Judge Landis will be dead a long while before this fine is paid. In fact many things will happen before that." But suppose the chief trust magnate is not a good prophet and in the course of a year the circuit and supreme courts decide that the enormous fine is legal and must be paid? Where will the money come from but from the profits on oil, and it is not quite probable that a cent or two a gallon will be charged the public, so that the trusts stockholders can still be paid their 40 per cent dividend.

The object of trust busting is to reproduce competition which the trusts have nearly eliminated. Competition brings down the price of products to a natural level according to supply and demand, while trusts through monopoly create an artificial price. Mining trusts for receiving rebates, as in the Standard Oil cases will not reduce prices, but if our trust busting Republican friends really mean business they can when Congress meets very quickly produce competition in all trust products by abolishing the tariff duty which protects them. The Republican leaders have been constantly pointing out to those not conversant with the tariff law that all petroleum products are on the free list. That is true. But at the same time they know, or should know there is a reciprocity joker in the tariff pack, which they all voted for, which effectually protects the Standard Oil trust from competition from abroad. This proviso which is a part of paragraph 626 which places "petroleum, crude or refined" on the free list, also stipulates that on petroleum, or its products "produced in any foreign country" there shall be collected, when such goods are imported a duty equal to the duty imposed by such country. As Russia and other important oil-producing countries levy duties on kerosene averaging about 100 per cent it follows that the Standard Oil Company is one of our most highly protected trusts. The custom officials hold that the rate of duty to be assessed are not those levied by the country from which the refined products may be imported, but those levied by the country which produces the petroleum from which the imported products were made.

That the trust is enormously protected by this tariff provision is evident from the difference in price as quoted in the New York Journal of Commerce, August 5th, the export price in bulk being 5 cents a gallon, while the local price for tank wagon delivery was 10 cents a gallon. So under this beneficent Republican tariff the foreigner is buying his kerosene at bargain prices, or about half what our trust ridden people are forced to pay through the collusion of the Republican leaders and the trust monopolists.

I will mail you, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by F. B. Duffy.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by all druggists, 50c.
