COTTON SPINNERS VS. COTTON SPECULATORS.

The casting out of the bucket shop from the South, eliminated a speculative force that was harmful in its every effort, upon those who attempted to win at a game that was for one side, and injurious upon the commercial and industrial trade of the South.

That the cotton manufacturer feels that every speculative influence upon his business is harmful, is quite evident. By speculative influence is meant the trade in futures, upon simply an exchange of loss or profit basis, determined by the fluctuations in prices, uncontrolled as to actual spot cotton delivered.

The meeting in Atlanta, of the cotton manufacturers convention, October 6th, 7th and 8th, is one of the greatest significance and importance. The fact that over one hundred spinners will attend, who come from other countries, proves the movement to be one that is likely to be far reaching in what it may do.

AD RATES AND SUBSIDY RATES FOR NEWSPAPERS.

The recent development in the Southern Railway rate contest, that a Raleigh newspaper had received thousands instead of hundreds of dollars for advertising the Southern Railway Company, has provoked various comments from the North Carolina State press.

lack, or of such a character as to be unprintable, because of its subject matter. Few publishers who have been in the business any length of time, but have the chance to know that matter can be sent for publication that does not come under the ad schedule rule, but may be sent as a help to the publisher.

This is not in explanation or extension of the Raleigh affair. Regular business charges prevail in every trade and profession. The bank rate of interest is nominally six per cent. The borrower pays the six per cent, accepts the discount off, and pays the amount charged for the "trouble" of making the paper.

From the Raleigh affair, the starting point is not that a corporation employs a newspaper for its own seemingly needed protection, but the going about it, to place its newspaper in a position that might put other newspapers in an equally embarrassing situation, though not guilty.

OVER CROWDED GRADED SCHOOL ROOMS.

The fact that the white graded school begins its first week of the new school year in an over crowded condition, may be a surprise to some. That such a situation would be quite probable, has been foretold in these columns, many times last spring.

The Journal's record on the educational advancement in New Bern is known. It was the promoter of the graded school in the first place. It has watched the school every week, month and year. It has advocated measures at times, not meeting the approval of the trustees, because there seemed to be too much money expenditure involved in the Journal's suggestions.

But what of the situation today? The rush of would be pupils, is going on. Sometime have 50 to 100 per cent more pupils than they ought to have. It is unjust to the teachers. It is harmful to the pupils. Educational interests suffer through such a state.

Out of Sight. "Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that has been treated with Hackley's Arnica Salve.

Havelock News.

Special Correspondence. Havelock, N. C., October 2.—We are having some pretty autumn weather at present.

Mr. H. P. Croom and H. G. Rowe, went to Jacksonville, Monday to work in timber woods. Mr. Ford Bryan is home from New Bern, spending a week with his mother, Mrs. E. W. Bryan.

Miss Reater Bell of Riverdale, is spending a few days with Miss Georgia Godwin.

Mr. G. L. Turnage was a visitor at Croatan Sunday.

Mr. A. D. Rooks and sons, LeRoy and Earl, returned from the Exposition Friday night.

Misses Eliza Oglesby and Emma Hibbs, are spending a few days with Mr. R. Aman, of this place.

Mr. J. F. Godwin spent Saturday night with his family and returned to his work at Newport Sunday afternoon.

Mr. J. J. Trader who has been working at Pollockville, spent Saturday night and Sunday with his family, returned to his work Monday.

Mr. John Deporte, who went to Michigan in July to visit his children returned Thursday, reports a very nice time.

Mrs. Cora Bragg who has been spending a few days with her aunt, Mrs. Deporte, returned to her home at Thurman Saturday.

Strikers Tie Up Cotton Vessels. New Orleans, Sept. 29.—About 500 longshoremen and teamsters went on strike here on the river front today when the crews of the Leyland and Austro-American Line steamers started stowing cotton in vessels.

The strike was expected, the steamship agents having failed to make an agreement with the men.

It is probable that 8,000 men representing various classes of labor will become involved.

New Bank a Success. Tuesday morning the Peoples Bank opened its doors for the first time for the transaction of business. Its officers report the opening most satisfactory, and the outlook for success most auspicious.

ADVANTAGES OF WATER TRANSPORTATION

Advantages of Inland Waterway—What Germany Has Done by Such Transportation.

In a recent editorial discussing the construction of the canal between Hamburg and Bremen, by the German government, involving a tremendous outlay of money but saving transportation charges vastly in excess of the outlay, the Philadelphia Press said:

"It is a singular thing that America has, up to this time, been so blind to the value and advantages of inland waterways. We hear now and then of the need of the deepening of a river to make a harbor for a city whose site was chosen before, the day of large ships; of a canal to join two lakes, of a safe interior route for war vessels paralleling the Atlantic coast from Boston to North Carolina, but surprisingly little is said or thought of in regard to any general system in inland waterway. No amount of computation can make it advantageous to neglect the waterway, and we shall add vastly to our resources, industrial and commercial if we open our eyes to obvious facts."

The obvious facts to which the Press refers, are in the admitted inability of the railroads to meet the demands of trade and commerce. The volume of business in the United States has grown to the point of outstripping the railway in its capacity for transportation and the previous neglect of the waterways, has given place to an earnest demand for their adequate improvement under a fixed policy of the general government in which the merit of the stream, its capability for improvement and the tonnage it would bear, if improved, will be the test supplied to the question of improvement.

In shaping that policy, in bringing it to the attention of the general government and—more than all—in the results following, the National Rivers and Harbors Congress has done a great work. Not the least part of the work has been in displacing neglect of the inland waterways and substituting an intelligent appreciation of their value to the trade and commerce and complete development of the limitless resources of the country.

The improved inland waterway would not be antagonistic to the railway. There is a volume of trade and commerce, more than enough for all with freight congestions impossible with the inland waterways adequately improved and with freight charges reduced, thereby lessening the cost of the raw material or the finished product to the consumer.

THRONG OF BUYERS CONTINUE

The people of New Bern and vicinity appreciate the great advantage F. S. Duffy obtained for them, in getting the Dr. Howard Company to allow regular 50 cent size of Dr. Howard's specific for the cure of constipation and dyspepsia, to be sold at half price, 25 cents, and have bought hundreds of bottles.

Every bottle of the specific sold by F. S. Duffy has had his personal guarantee to refund the money if it was not satisfactory, but none has come back, showing the wonderful curative power of this remedy.

It is only recently, on the persistent advice of F. S. Duffy, that Dr. Howard's specific has been sold for less than 50 cents, but he urged that it would be better to secure a quick introduction in New Bern in this way and the result has proven his good judgment.

If you have not already taken advantage of this chance to get a month's medical treatment for 25 cents, be sure to call at F. S. Duffy's today, for he has only a small amount of the specific on hand.

Crime Wave in Chicago.

Chicago, Sept. 29.—Chicago appeared yesterday to have been seized by a veritable wave of crime, the authorities being confronted with two baffling murder mysteries, one murder and suicide, and one killing after which the murderer fled and left his victim to die later in the A. & S. Brothers Hospital. In addition, there was an attack upon a white girl, 6 years old, by a negro.

As a result the police of the city were given instructions to arrest all suspicious characters under the new vagrancy law.

Following is a summary of yesterday's crimes:

- Body of unidentified man taken from river; hands tied and clothing weighted with stones.
Body of Joseph Geninetti, taken from the Lake at foot of Twelfth street.
Rosa C. Price murders wife and then commits suicide because baby cries all night.
John Goss, struck on the head with iron bar in quarrel, dies; murderer escapes.
Hilda Anderson, attacked by a negro.
Notable Witnesses to Appear in Raleigh Case.
Special to Journal.

Raleigh, Oct. 1.—Representatives of the State in the Southern Railway pay raise case now being heard here before special master Montgomery, say they expect the President and his cabinet to be in the witness stand tomorrow, when the case is argued.

There are about 1,130 theatres in Europe. Italy possesses more than any other country.

STANDING ROOM IN SUPERIOR COURT

(Continued from Page One)

It was at first proposed to locate the State Agricultural and Mechanical College.

A number of photographs of North Carolina troops at the Jamestown Exposition during the notable North Carolina week when this State carried off so many of the honors have been framed and placed in the historical collection here. One of these shows the whole brigade passing in review with Beachy's air ship above, with its daring skipper in complete charge of his machine. This is particularly notable photograph. Others show the whole brigade passing in review before General Armfield, the North Carolina Building with a guard of honor, etc.

Rev. Sylvester Betts, who is the head and front of the prohibition movement here said this afternoon he had had a conference with Mayor Johnson who told him that the next meeting of the aldermen an order would be made for the calling of an election on the 20th of December on the question of prohibition or dispensary, that date falling on a Monday, so that the Sunday before can be given over to work for prohibition in the various churches, etc.

Tobacco buyers who came in here today from the east say that the Independent and the American Tobacco Companies are buying great quantities of leaf, the Independent buying more than at any time in ten years past. As a result prices are 25 per cent higher than they were last year. These buyers who were interviewed say they feel sure that half the crop east of Raleigh has been marketed and that the farmers are greatly pleased with prices.

Among the visitors to Raleigh today was H. J. Hume, for so long State Horticulturist here. With him came the present horticulturist, Mr. Pitt, and a brother of the latter who is from Canada. Mr. Hume is a Canadian and spent the summer there. All three of these gentlemen came here from the Jamestown Exposition where they attended the National Convention of Horticulturists, nut-growers, etc. Mr. Hume said he was delighted at the character, extent and general excellence of the North Carolina exhibits at the exposition and said the Agricultural and Horticultural show made by this state deserved no end of praise. He had many compliments for Mr. Herbert Brimley, who was in charge there.

It must not be thought because of the overwhelming defeat of the proposition for a new auditorium and new market building here that this whole matter is ended, for it is not. It was remarked today by some prominent men that what had so far occurred might tend to bring about what is desired by the people. Their funds amounting to some \$10,000 in hand for an auditorium, and with this as a nucleus it would seem that something could be done, land purchased, mortgaged, etc. The matter was very quietly talked over today by influential persons and there may be developments soon. Of course there can be another election on the bond issue and as a matter of absolute fact the city itself ought to build an auditorium.

Governor Glenn orders a special advice of F. S. Duffy, that Dr. Howard's specific has been sold for less than 50 cents, but he urged that it would be better to secure a quick introduction in New Bern in this way and the result has proven his good judgment.

If you have not already taken advantage of this chance to get a month's medical treatment for 25 cents, be sure to call at F. S. Duffy's today, for he has only a small amount of the specific on hand.
