OTHER DAYS

Historical and Reminiscence Notes

Brought to Mind by the Exposition.
The notes printed below are from a valued subscriber, of many years, of the Journal, the venerable Col. Thos. L. Hall, of Morehead City, and they are the reflections of one who, spending the evening of life in peace and quietude finds pleasure in making reminiscences that are past. These notes will be interesting to the Journal readers who wish to recall historical data. Col. Hall is considered an authority on matters of important historical nature and consequently his notes will be read with a great deal of interest.

The noted "Jamestown Exposition" surely has not been equalled by any people or country before the twentieth century.

It surely has awakened a memory of the early days of "our great America."

Hence a brief synopsis of historical facts may interest some readers. In its early days, then were thousands of Englishmen and comparatively few natives from other points of Europe. History sustains the fact that the men of highest merit, especially in North Carolina, and Virginia, were Scotchmen or descendants. Next in rank with them, notably was the "Swiss."

"Count DeGraffenried" sent over from the ancient city of Berne, Switzerland, in the year 1708. The over number of Englishmen gave them the chief ruling power over the colonies of America.

"It is notable that even in this day the innate characteristics of England still exists. The injurious work against 'South Africa' plainly shows it, and it is known that recently the present King of England, not long since, was made 'Emperor of India.'"

It may be here apropos in regard to the characteristic of the Scotch, that the noted Andrew Carnegie is well known as a Scotchman who came to America a penniless boy, and he is now known as the second richest man in America.

He has often shown his commendable character, by furnishing free great amounts of money in aid of individuals and "educational organizations," much needed.

Another noted Scotchman was Robt. Burns; in the shadow of his residence James Wilson, "Secretary of Agriculture," was born, of Scotch parents. He now is the only man of "McKintley's cabinet" of office, who holds his seat at the now President's council table.

Another noted man who was born in Scotland is Alexander Graham Bell, the inventor of the "telephone." The late Speaker Henderson, of the National House of Representatives, came from Scotland a boy in his "teens."

It may not be generally known that nine Presidents of "our beloved America" had Scotch blood in their veins.

Just here, 'tis a pleasure to add that the now noted city of New Bern in its early day was noted for its distinguished men of culture and refinement, so much so it was for years called after "the Ancient City of Greece," "The Athens" of North Carolina, and as an evidence of its men of eminence, it was unequalled by any other city for its men of distinguished merit in every line.

As before written, the Scotch and Swiss were noted for all qualities that tend to exalt and dignify mankind.

Pages might be written, and columns filled by giving the names of New Bern men of noted merit.

Gaston, Donnell, and Gov. Speight, may be named at this late date. The Bryans, Atmore, and Judge Manly.

Ranked with the Bryans and Stanley. To tell of New Bern's men of merit. Seemingly is a well-given news. To gratify a seeming muse.

How to Cure a Cold

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease. Chamberlain's Cough Remedy contains an opium or other narcotic and may be given as confidently to a baby as to an adult. For sale by Davis Pharmacy and F. S. Duffy.
