SUNDAY.

The Wave, Steven Turner, captain, sailed yesterday loaded with general cargo, for Beaufort.

Such a day as yesterday will be a long way toward sustaining New Bern's claims as a winter resort. Thermometer 72 degrees.

Mr. J. H. Duke, of Elizabeth City, is opening up a music house on Broad street. They will carry, among other things, the Starr, Concert and Chase pianos.

H. T. Kennedy, colored, has opened a drug store on the corner of New and Bern streets. Kennedy is a graduate of Shaw University. We are glad to note progressiveness on the part of better citizen.

It is probable that more than 100 people will go to Washington tomorrow to attend the opening of the Raleigh and Pamlico Sound. The crowd from points between Washington and Raleigh will be immense.

Attention is called to the change in the notice of sale of the Griffin property on Middle street, Monday, the 18th instant. The court has so amended the order as to allow the sale to be made for one-third cash and balance on time.

The death of Mrs. J. A. Stephens is reported as having occurred at Richlands on last Wednesday night. The death was sudden, no cause being known as yet. She was the mother of Mr. D. A. Hargett and Mrs. E. H. Barnum, of this city.

A good many friends of the officers of the cutter will be glad to know where they are located in their homes: Captain and Mrs. Crisp will be found at the Hotel Gaston; Lieutenant and Mrs. H. S. Fisher at the Windley House on Broad street, and Mrs. Newman at No. 8 New street.

James Credle, a colored employee of the Norfolk and Southern, jumped from a moving train at the coal chute last evening and struck an iron switch. He was taken to the Stewart Sanatorium, where, upon examination, it was found that he had sustained a fracture of the thigh.

The Cuban car will leave today for Kinston, where it will remain four days and will then go to Wilmington, proceeding from there to the western part of the State. It is a regrettable fact that New Bern people did not take greater interest in this car. It was a very instructive and remarkable exhibit.

We are informed that the band of thieves, supposedly, the same who did the work at Mayville, attempted to rob the store of Slocum & Starling, of Hubert, but owing to the presence of two young men who were sleeping in the store an dwjo opened on them with a shot-gun, their purpose was thwarted.

The three negro gamblers who were caught in a negro dive on South Front street Friday night by Officers Stricklin and Montague and Albert Ipeck, were given a hearing before Magistrate Patterson yesterday and were bound over for trial in Superior Court under \$25.00 bonds. They were Ed. Smith, Julius Blount and Tom Stanley.

The first wild duck and geese of the season were at the Oaks market.
 A negro suspect who entered the shop of Mr. Andrews, of Pollockville, secured therefrom a brace and bits and then entered the office of Mr. Mull Herriott, was captured near Heedy Branch by J. T. Hawkins, constable. His account of how he became in possession of the tools and matches, of which he had many, were so conflicting, he was committed to jail to await trial. It is thought he may be connected with the Mayville robbery of last week.

TUESDAY.

The complaints of shooting within the city limits are growing.
 The fact that the electric lights went out several times last night has no significance.

The people of Atlantic Carteret county will have a local election November 13th.
 The Krullin, from Horry Marsh, W. A. Lenoir, captain, arrived yesterday evening loaded with oysters.
 Mr. C. O. Moore addressed a number

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases. It was generally recognized that in the preparation of this medicine, he used with pride, as the almost marvellous cure afforded by his "Medical Discovery," which has cured more than 100,000 of the most violent cases of dyspepsia, indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvellous, in the unparalleled cure it is constantly making of woman's many peculiar affections, weaknesses and disturbing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of grateful testimonials contributed by afflicted patients who have been cured by it of catarrhal, neuralgic, pelvic, ovarian, menstrual, leucorrhoeal, prolapsal, and other diseases, which have defied the most skillful medical treatment. This medicine is entirely free from alcohol and all other harmful, habit-forming drugs. A full list of its ingredients is printed on each bottle wrapper.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native medicinal roots. The processes employed in their manufacture were original, and were carried on by Dr. Pierce, and a few of the most skillful chemists and pharmacists with the aid of apparatus and appliances especially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of its ingredients is printed on each bottle wrapper.

The sharpie Worth Bagley, Captain Hugh Sutton, from Adams's Creek, is docked at the foot of Craven street loaded with cotton, live stock and potatoes.

Sunday, the rain put an end to the ideal fall weather, but it was not unpleasant long. Cool weather prevailed yesterday and the forecast for today is for frost.

A local item of prosperity is the lettuce crop, which is wanted North at \$1.50 to \$2.00 per basket. Several thousand baskets are being shipped from here.

Work has stopped temporarily on the construction of the clock tower on the government building. Arrangements are being made to build the tower higher.

It is a point showing the good local cotton market, that Raleigh, which is usually boasting as being a high market for cotton, is now 1-8 to 1-2 cent, below the New Bern market.

Ed. Smith, Julius Blount and Tom Stanley, colored gamblers, who were caught on last Friday, on South Front street and put in the city jail, dug out on Sunday night and escaped.

Business men should bear in mind the meeting at the court-house, at which President C. C. Moore, of the North Carolina Cotton Association, will speak. The address will interest every one.

Work has been stopped on the Snow Hill branch of the Norfolk and Southern Railroad, presumably for the same reason that work has been stopped in all places where construction is in progress.

Fire alarms turned in from box 35 yesterday proved to be in a hut on Jenkins alley, occupied by an old colored woman. Some of the contents of the house were damaged, but the house was saved.

Three dusky amazons were in the police court yesterday for disorderly conduct, or, to be more specific—scrapping. They were Josephine Credle, Anna Taylor and Lizzie Martin and were each assessed one dollar fine and costs, or \$4.15. R. S. Taylor was fined \$5.00 and costs for drunkenness.

Special to News and Observer from Elizabeth City: The steamer Albatross came near sinking Thursday night. She was loaded with lumber and was stationed at the dock of the Foreman-Blades Lumber Company, where she was loaded, preparatory to being towed by the tug Curtis to Philadelphia, when she sprang a leak. The chief of the fire department was summoned to pump the boat up, but could not reach her with his hose, so the hand pumps were resorted to and prevented the boat from sinking during the night. Next morning she was unloaded and put upon the railways for repairs.

Farmers Organize Bonded Warehouse. Maysville, N. C., Nov. 8.—The citizens of Maysville and surrounding community met at the Maysville Academy today, in mass-meeting, to hear Mr. C. C. Moore, of the Cotton Association, explain the plan for organizing a local bonded warehouse company. Mr. Moore is known as one of North Carolina's best talent, more especially when it comes to the farmers' interest, with eloquence he pictured the plans of a bonded warehouse. His plans were accepted, as will be demonstrated in what follows. After the ladies had served a bountiful repast, we had an after meeting which resulted: That books of subscription were opened for stock to the local warehouse and one-fourth of the necessary amount was immediately placed and the committee of influential citizens was selected to solicit stock from farmers and business men. This committee is to report at a meeting to be held at Maysville, at one p. m. on Tuesday, November 19th, it is confidently believed that the town of Maysville will have an up-to-date regulation cotton warehouse erected in a very short time.

The committee of stock are the following well known men: E. B. Collins, J. E. McCutchen, H. R. Sabiston, K. R. Hay, S. B. Waters, I. N. Sanders and Chas. Barker. This committee is comprised of men of Jones, Onslow and Carteret counties.

J. Norrett Underwood is charged with the murder of the man whose widow he married.

PETTY BURGLARIES REPORTED IN CITY**Discharged Negroes From Saw Mills Said to be Cause.**

There are numerous petty burglaries lately; more that have been known before for some time. It is said that since the mills have shut down more idle negroes have been thrown on the city and some have turned their attention to ways that are vain and tricks that are sly.

The house of Mr. Fred. Smaw on Metcalf street was entered in broad daylight Friday and a purse containing eight dollars was lost to view. A few days ago some one swiped a pair of trousers out of a house on New South Front street in a novel way. The garment was in a chair near the window and the thief put a long stick through the window and hooked them. The thief got the pants but was poorly rewarded for his pains, for there was but little cash in the man's pockets. The thief was thought to leave the trousers on a near-by fence after investigating the pockets.

Body of Deceased Boy Recovered.

The body of David Loven Dizer, who was drowned in the Neuse Wednesday morning, was found yesterday evening by the cutter crew after several hours' search by them. The body was found shortly after 3 o'clock, about a mile from Wilkinston's Point, and only a few rods from the scene of the accident. This was the first work of the new cutter crew. The boat returned at 6 o'clock and the young man's remains were taken to J. K. Willis' undertaking rooms to be prepared for burial.

David Loven Dizer was 18 years of age and was an industrious, ambitious young man, and the support of a widowed mother. Several months ago he had the misfortune to lose an arm by an accident in the Elm City Lumber Company's mill, where he was employed.

The funeral will be held at the mother's home at 40 Pasture street at 11 o'clock this morning. Rev. G. H. Williams will conduct the services.

Bryan and Roosevelt.

Stretching the Constitution is a Republican plan to evade conditions, and Democrats should have none of it. Mr. Bryan's plan to license corporations is on a par with Mr. Roosevelt's plan to control corporations within the States under the postroads clause of the Constitution. Such experiments would stretch the Constitution to the breaking point and the tenth amendment thereto would be rendered null and void.

November Bury Melintosh Monthly.

It is the aim of the publishers of the Burr Melintosh Monthly, "the most beautiful magazine in the world," to make each issue more beautiful and attractive than its predecessor and they have certainly accomplished their object in the November number. The cover printed in exquisite colors is a reproduction of a famous painting and cannot fail to please lovers of the beautiful. The issue contains two very attractive inserts printed in red entitled "Hallowe'en" and "On Duty," besides a number of color panels.

The portrait form contains such people as Blanche Bates, Mary Manning, Clara Bloodgood, Mrs. Russell Sage, and several actresses famous on the French stage. Among the People of Note is a very fine photograph of the late Richard Mansfield, and this issue also contains a very interesting and instructive article on China. Two pages are given to the reproduction of 135 of the pictures submitted in our Children's Contest.

Right Eye Removed.

For many years, Mr. M. E. Whitehurst has suffered with falling vision, the right eye being blind and the other eyes has been steadily but gradually falling and total blindness has for some months threatened him. It became apparent he must have the eye, which was called dead, that the eye must be removed, and yesterday Dr. Frank Duffy, assisted by Dr. Charles Duffy, took the offending member out. While the vision of the remaining eye will probably not be improved, the progress of the disease will be checked.

Mr. Whitehurst stood the ordeal finely, and is improving rapidly.

WRECK CAUSED BY SPREADING RAILS.**Passengers on Train From Kinston to Greenville Have a Scare.**

Greenville Reflector, Nov. 6th.

Atlantic Coast Line passenger train No. 58, with Captain G. D. Hawks conductor, running between Kinston and Weldon, was wrecked this morning. The train was running about 25 miles an hour and had just passed Canada's siding, about five miles from Grifton, when spreading rails in a slight curve caused the baggage coach to jump the track, the two passenger coaches following. The engine broke loose and did not leave the track.

Fortunately the wreck occurred in a cut, and the embankment prevented to cars from turning entirely over when they left the track. As it was the three coaches turned about half over and fell against the embankment. But for this there would no doubt be several fatalities to reporting. The baggage coach was badly torn to pieces, but the passenger coaches were not damaged much. The track was torn up for about 100 yards.

There were about 25 passengers on the train at the time, and while all were badly frightened and shaken up, only three were injured. These were G. W. Barker, a traveling salesman from Philadelphia; C. H. Hoffa, address unknown, and the colored mail clerk, Parrott. Their injuries were only slight.

The passengers were taken on the engine and tender and moved to Grifton, from which place they were brought in a box car to Greenville. The Washington train was sent here from Parrotte to take the through passengers and mail en up the road, and a wrecking train was sent down to clear and repair the track.

Some fifteen years ago a wreck occurred at the exact point on the road of the one this morning.

Miss Clyde Cox, stenographer in the law office of Moore & Dunn, was a passenger on this train, but fortunately escaped without accident.

Died.

Died, yesterday morning about 8 o'clock, at the home of her parents, Mr. and Mrs. W. F. Gilbert, corner of Broad and Bern streets, Anneke, about 13 months old.

Her illness was of only short duration before she was healed by Him who "gave and taketh away."

The funeral will be at 11 o'clock today, and immediately after funeral interment will be in the family lot in Cedar Grove cemetery.
 The bereaved ones have our sympathies.

Basket Party at Clark's.

There will be a basket party at Clark's church Friday night, November 15th, for the benefit of the church. The public is cordially invited. Girls, please bring baskets. Boys, please bring money.

A Slight Remembrance of the Past. Sixty years ago I shaved at a small one-story barber shop, buildings situated near the corner of Middle and Bern streets. Robert Green was proprietor of the shop.
