Special Correspondence.

Raleigh, N. C., Feb. 7.-Governor Glenn returned from Richmond this morning and said that he enjoyed the visit there exceedingly, had a very handsome reception and a notable audience, an event which he said he had never experienced in that city. The Governor was asked if he had anything to do with fixing the date of the State election on prohibition, it having been alleged in some papers that it had been fixed in the interest of himself in a campaign for the U. S. Senate, and in the interest of Locke Craig, an aspirant for the governor. Governor Glenn said he only spoke for himself in this matter and that the State Anti-Saloon League had fixed the date for August and when it asked him what he thought about this he replied he thought the date was too late and that it ought to be April 23rd. The reason he gave was that he thought the campaign ought to be a short one while everything was ready for it. Afterwards the date was changed to May 24th, without his even knowing about it until it had been done.

The Governor was asked whether he was or was not an aspirant for the United States Senatorship, and he replied that he would not now say whether he was or was not, and added that he had not had the time to give consideration to this matter, that he had been so much overworked with work that he had not been able to give it the consideration to which it was entitled. Speaking about what the Republican organ, the Industrial News and representative Grant says about a certain letter to a railroad official, in which the governor is alleged to have said that the rate was confiscatory he stated that no such letter was in existence written by him to any person in the railway, and that he had invited all the people to examine the letter files and that he now authorized the paper in question and Mr. Grant to publish any letter in the hands of any one that he had written relative to the rate controversy, for he wanted the people to see and know that he had never said the rate was confiscatory.

President Dudley, of the Colored Agricultural and Mechanical College, of Greensboro, is here. He says there are 196 students. The heating plant cost him \$12,000 and has been installed and that the new dormitory with 48 rooms has been occupied.

The Republicans here count in some way on getting a good many young men into their ranks. In the address made before their local club last night by President William J. Andrews, who is a son of vice-president Andrews of the Southern Railway, he took occasion to say that he thought the best interests of North Carolina would be served by a Republican administration in the nation, State and county. This club has appointed a committee composed of Blmer Shaffer, Edward Robertson and Fayette Matthews, to prepare a constitution and submit it, and it proposes to effect an organization to cover every precinct in the city. It is to be of course a distinctly white organization.

Mr. Ashley Horne, who is addressed by his many friends here by the pet title of "Governor" spent several hours here yesterday and as he was leaving last night said to your correspondent that he felt very much pleased at the outlook. He is delighted at the reference to him as the old soldier, candidate and the candidate of the business men of the State. The Anti-Saloon League Executive Committee met here today at State headquarters and elected an office manager. Larger rooms were found necessary, those first taken in a building near the capitol square being too small. Receiver E. C. Dupon of the Seaboard Air Line, will have his office here and is looking for suitable quarters. In a few days the new revenue collector will come in and will occupy the rooms so long held by Mr. Dupon while in that position.

Judge James H. Mord, now holding an adjourned term of the United States Court here, is a very interesting personality. He has had quite an eventful history. He was in the Confederate Army for a year before he

KING CARLOS SMALL ESTATE

Cornelius Vanderbilt Reported Engaged to Hungarian Count-Brethren in County in Terror-Mine Explosion Kills Seven Men

Special to Journal.

Washington, D. C., Feb. 7.-President Roosevelt today ordered the reinstatement of 300 workmen, expert and common, in the Brooklyn navy yard. The men had been laid off in October on account of lack of work.

Lisbon, Portugal, Feb. 7.-The official examination of the personal estate of King Carlos reveals a value of only \$30,000-a fact which has caused much surprise. It was thought his property would amount to \$500,000 or \$1,000,000. No explanation has been made for the lack of landed estates.

St. Petersburg, Feb. 7.-In view of the distressing affair in Lisbon, and the constant danger of the czar's life and her own, the additional horror had made an impression on the Carnation mind and great fears are held that she will lose her reason. For several weeks her health has been the cause of much solicitude, but now there is reason for a really more serious condition than was at first apprehended.

New York, Feb. 7.-A report is current here that Mrs. Cornelius Vanderbilt, widow of Cornelius Vanderbilt, is engaged to be married to Count Nadik, a Hungarian nobleman.

Jackson, Ky., Feb. 7.-Business is practically suspended in this city and the country is virtually in a state of anarchy and a great many people who have stores refuse to open them for fear lawless mobs may take possession of the city and injure property. The sheriff is powerless to act on his own resources, but has asked the governor to dispatch troops here on call.

Louisville, Ky., Feb. 7.-After six weeks of contest for the election to the Senatorship the deadlock is still in force. The only change is the loss of one or two votes for Beckham. The latter is still in the lead.

Grand Forks, Feb. 7.-A special from Portal states that seven men were killed in a mine explosion today and many were seriously injured.

Washington, Feb. 7.-The Interstate Commerce Commission has asked Congress to appropriate \$750,000 to investigate railroad transactions.

AN EIGHT CLUB LEAGUE

New Bern Will Be Interested in Playing The Game

Special to Journal. Raleigh, N. C., Feb. 7.-The present plan for the Eastern North Carolina Baseball League is to cover Wilmington, New Bern, Washington, Rocky Mount, Wilson, Tarboro, Raleigh, and one other point, making an eight club league.

was 18 years old, and in 1862 was discharged because he was under that age, he having gone out in Thomas Ruffin's company, the first to leave Alamance county. After his discharge he went to school for a year and then went into the Goldsboro company of the First Cavalry Regiment, serving until the end of the war. He has made a very fine impression here, this being the first time he has sat on the bench at Raleigh. He was speaking today about the sending of Federal prisoners to jail, and said he did not do it as did not believe in jail sentences, but he sent them to the Federal prison at Atlanta, which he declares to be by far the best in the South. He says it is not a penitentiary, but a prison and a model one. Marshal Dochter, who was present while we were chatting said that in some of the county jails the jailors left the prisoners pretty much to themselves, that is gave them all sorts of liberties. He added that in Robeson county, it had been reported to his department that a jailor let a Federal prisoner go to see his family every week and it appears that this sort of thing has been going on for a long time and will have to be broken up. Judge Boyd said it had been broken up in his district. It is quite probable that from what has been learned that the Robeson county authorities will be indicted for giving such unlawful liberties to prisoners.

PAVIC NO DETERRENT OF TRADE

Government Will Try To Collect The Ransom From The Turkish Government-Paid For Release of Miss Ellen Stone-Bound To Beat Hundley-Harris Held Without Bail-Macality In Government Printing Office

Special to Journal.

Jackson, Miss., Feb. 8.-Today the legislature voted to have the State prohibition after January 1, 1907. The law was passed by a fair majority, but the argument has been very spirited and bitter in many respects.

Washington, D. C., Feb. 8.-The report of the Secretary of Commerce and Labor made public today shows that the export business of the country has been increased and that the financial panic had no deterrent effect on the trade.

The government will endeavor to collect from the Turkish government the amount of money paid the latter as a ransom for Miss Ellen Stone, an American missionary who was abducted for the sake of ransom in 1901.

Enemies of Oscar Hundley, who was nominated to the office of U. S. District Judge for Alabama, by the president are determined to hold up the nomination and prevent its confirmation.

The investigation of the Public Printing office develops that the business was not conducted well. Stillings will not be re-instated.

Franklin, Ky., Feb. 8.-Bech Hargis, who yesterday shot his father, Judge Hargis, is still a raving maniac, and unable to comprehend the gravity of his deed. He is held a prisoner without bail. Judge Hargis' funeral was held this afternoon.

HEAD OF VANCE AS TYPE

Taken as a Standard to Represent the Caucasian Race

Black Mountain, Feb. 8.-All of North Carolina and more specially Asheville and Buncombe county are interested in anything concerning their beloved Statesman, Zebulon Vance. The president of the University Publishing Company, in New York City, in getting out a new edition of the Maury Geography, decided to make numerous changes. Among others, was a determination to secure a well proportioned head and face to represent the Caucasian race. After all the other types were satisfactorily placed, the strong Caucasian head had not been found, when the president of the University Publishing Company made a business trip to Raleigh, and there he spied a photograph of Zebulon B. Vance. "This," he said, "is what all the children of the United States who study Maury's Geography are taught that the head of North Carolina's greatest statesman represents the finest type of the Caucasian race."

Ocean Lines to Combine on Rates For Passage

London, Feb. 8.-The conference of representatives of transatlantic steamship companies, known as the Atlantic conference, called for the purpose of adjusting rate matters, came to an end today. A general agreement was reached, but several minor features remain to be adjusted. In the opinion of the delegates, however, there is nothing in the unadjusted details to endanger the adoption of a permanent working agreement, which they say is substantially accomplished.

The basis for the new agreement was found in a return to the old agreement, wherein all lines were included, for the regulation of fares. The new schedule will include the Cunard passenger rates. The conference included not only all American and British lines, but the Continental lines also.

After the departure of Hoyt Ballin, and the other chiefs, committees of expert managers continued to work out the details, which it is believed, included the drafting of an agreement, for which a final meeting will be held tomorrow. It is understood that the basis of fares will be the same as prevailed before the recent rate war.

WOMEN FOIL BANK ROBBERS

Despite Threats of Death They Keep Screaming Until Intruders Decamp

Milton, Ind., Feb. 8.-Mrs. Maria Beeson and Mrs. David Nugent saved the Farmers' Bank from being robbed early this morning. Their calls for help scared the robbers away after they had blown the outer doors from the safe and were almost within reach of \$23,000 in cash.

Mrs. Beeson was awakened by an explosion, and looking out saw three men standing guard outside the bank. A second explosion came in a moment and Mrs. Beeson called to Mrs. Nugent, who had opened her window.

The men near the bank threatened to shoot, but the women continued to scream and aroused others in the neighborhood.

Mrs. Nugent called the night telephone operator and told her to call the president of the bank, Mr. Hart, who was going on. Mr. Hart ran to the bank, but the screams of the women had frightened the robbers and they had gone before Hart got there. The furniture of the bank was wrecked and the safe door was blown off, but the box containing the cash had not been opened.

SAVED FROM BEING A CRIPPLE FOR LIFE

"Almost six or seven weeks ago I became paralyzed all at once with rheumatism," writes Mrs. Louis McKey, 913 Seventh Street, Oakland, Cal. "It struck me in the back and extended from the hip of my right leg down to my foot. The attack was so severe that I could not move in bed and was afraid that I should be a cripple for life.

"About twelve years ago, I received a sample bottle of your Liniment but never had occasion to use it, as I have always been well, but something told me that Sloan's Liniment would help me, so I tried it. After the second application I could get up out of bed, and in three days could walk, and now feel well and entirely free from pain.

"My friends were very much surprised at my rapid recovery and I was only too glad to tell them that Sloan's Liniment was the only medicine I used."

ASHLEY HORNE CONFIDENT

Secretary Bruner To Be Taken to Baltimore Hospital-Supreme Court To Take Up Appeal Cases-Rev. Dr. Sprunt Preaches At Presbyterian Church-Large Meeting Under The Auspices of Associated Charities.

Special Correspondence.

Raleigh, N. C., Feb. 10.-It is quite amusing to veteran Democrats to hear some of their number talking these days about their intention to break away from the party and vote the Republican ticket, mainly on account of the prohibition matter, the claim even being made that some of the veterans where there are saloons intend to go over to the G. O. P. People who hear this talk laugh and think of the witness, who, when on the stand, swore to quite a different face of facts from those he had given to the lawyer who had talked with him and who was asked why he did this he replied: "I was out yanking them; I'm swearing now." The moral of this is that those who talk now will vote the same old way. It is an old, old story.

As soon as his condition will permit Secretary Thomas K. Bruner, of the Board of Agriculture, is to be taken to Johns Hopkins Hospital at Baltimore for examination and treatment.

Ashley Horne, one of the three known aspirants for nominee for governor, was seen here today. He does not seem to think the other aspirants will open headquarters here though he has heard they will do so. He says this county will go solidly for him.

Mrs. R. H. Brooks, the wife of the superintendent of the Soldiers Home, has been very sick for some days, but her condition today is reported as improved.

Tomorrow the Supreme court will take up appeals from the second district, of these there being only 10 as follows: Davis vs. Lumber Co.; Gay vs. Mitchell; Hlx vs. Manufacturing Co.; Young vs. Lumber Co.; Freeman vs. Bell; Brickwell vs. Manufacturing Co.; Gerock vs. Telegraph Co.; Smith vs. Cashie & Chowan Railroad and Lumber Co.; Odum vs. Clark; Heptinstall vs. Newsom.

Rev. Dr. Alexander Sprunt preached twice at the Presbyterian Church yesterday and drew very large audiences both times. He has not yet decided whether he will accept the call to the pastorate of this church or remain at Charleston.

The annual meeting of the Associated Charities, in the Academy of Music yesterday afternoon, was the largest and best ever held, the general public turning out strong. Governor Glenn made a very striking address, endorsing the work done by the organization and expressing the hope that it would spread all over North Carolina. Begging has almost been stopped here, and so has indiscriminate giving. The organized work has proved a success in every way. All sorts of guesses are being made as to the result of the prohibition election the last week in May and some put an estimate of 75,000 majority, while others put it down much lower. A very desperate effort is to be made by some people to put this matter in politics an abuse it affects the results of the general election.

Your correspondent had a talk with Father Price, who is in charge of the Roman Catholic Orphanage here, regarding the hospital which the Apostolate Company is to build in the suburbs of Raleigh. The funds have been contributed by a New York lady of great prominence in the church, and the plans are now being prepared -work to begin this spring. The Raleigh physicians who are to be in charge desire the location to be very near Pullen Park and on a hill overlooking it, but the architects who have been here and examined the country for quite a distance, think the best place is a little east of the orphanage, this location being about half a mile from the one the doctor's prefer. So this matter of site is not yet settled, but probably will be in a very few weeks. The hospital is to cost something like \$50,000, it is said.

Complaint has been filed with the corporation commission as to failure of mail connections at Greensboro, for points west there, on the train which leaves here at 5:00 p. m. and this will bring up the important question of schedules, in which the general public is so deeply interested.

Debate on Aldrich Currency Bill-Representative Leake, of New Jersey Attacks Bryan-Financial Crisis In Denmark-Beech Hargis on Preliminary Hearing

Special to Journal.

Washington, D. C., Feb. 10.-In the Senate today Senator J. B. Foraker, of Ohio, made a characteristic speech maligning Roosevelt and charging him with making Federal office holders work for Secretary Taft's candidacy. Debate was begun today on the currency bill introduced by Senator Aldrich, of Rhode Island. The measure will be strenuously opposed by congressmen of the middle West, and the West, and it is expected that a long and hard fight will be made.

Representative Burnham introduced the Parcels Post bill for rural free delivery routes today.

Representative Leake, of New Jersey, attacked W. J. Bryan in a speech in the House in which he said the Democratic party could not afford to nominate him. His policies would be disastrous and any favor shown him would recoil on the Democratic party. There were many hisses and groans made after the speech.

Copenhagen, Denmark, Feb. 10.-A financial crisis is in progress due probably to the general stringency of the money market. The small banks have been the greatest sufferers but the larger banks have been of assistance to them. The break will not be serious.

Jackson, Ky., Feb. 10.-The preliminary hearing of Bech Hargis, was held this morning. Hargis appeared haggard and had hardly recovered from the spree in which he killed his father. The magistrate held him without bail. It is feared Hargis will kill himself.

Men Past Sixty in Danger

More than half mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and both the kidney cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years although I am now 81 years old." Maryland Concern Turned Down

Canova, S. D., Feb. 10.-The Maryland Casualty will lose its right to do business in South Dakota because it took advantage of a technicality, and refused to pay \$1,270 of burglar insurance to the People's Bank of Canova. When burglars blew the safe of the bank Nov. 7, last, application was made for payment of the burglary insurance policy written on the bank. The policy was for \$15,000, and the thieves obtained \$8,200 in cash from the safe, and did \$900 damage to the building. Thus the bank expected to receive \$7,000 on the policy. Cashier Beveridge told the adjuster of \$1,000 which the bank's books said was in the safe, but which had been concealed in the vault outside the safe, and thereby saved. The adjuster acted in what part of the safe the thief had been put, remarking it made no difference. He was in formed the silver had been put in the upper compartment. The bank was then told it could not recover for the \$1,270 silver because it had not been put in the inner safe in the bottom compartment.

State Insurance Commissioner Bedford advised the bank that suit could not be brought in this State, because the Maryland Casualty had not made a deposit of \$20,000 with the State, as required by law. The company it was stated, a year ago obtained a license to do business here, but which no legislator is required, regardless, the company did business in burglary insurance, writes from the outside. By writing business from outside the State the company also avoided the South Dakota law which prohibits companies from doing premium receipts in the State.
