A POWERFUL ADDRESS

Mrs. Curtis, a W. C. T. U. Worker Handles The Liquor Traffic Without Gloves.

If the assembly which greeted Mrs. Nannie Curtis at First Baptist church Sunday night was an indication of the real sentiment on prohibition, this city will go overwhelmingly-dry. There was standing room only all over the her loss, but we hope that our loss is was standing room only all over the her eternal gain. She was burled in church and it was estimated that the attendance was between 700 and 1,000. The speaker held the audience for two eached by Rev. Craig. A large crowd hours and there was no sign of naensiness in all the vast crowd. They were fascinated with her logic and her powerful and original manner of discourse. Mrs. Curtis is a woman of large experience in her work of the Women's Christian Temperance Union and she speaks the hard, cold facts of the war against the liquor traffic, She is not eloquent in the common acceptation of the word but she has a directness and a vigor which in inestimable for the person who aims to em-

She announced the text and then before she read the passage she said that a great many men had found omfort in the statement that probi tion was not in the Bible either wapressed or implied, did not the Cre-ator when he placed our first parents in the Garden of Eden may of the tree of the knowledge of good and evil, thou shalt not eat of it, for the day that thou entest thou shalt surely die She then went on to the text for the svening found in Inalah 5, 11. "War to them that rise up early in the morning that they may follow strong drink; that continue until right that wine in-fame them. Her address was not one that appealed to sympathies but the drift of her argument was to show that prohibition is a practical liss issue. In England a rum cursed consnacted, and to add to their assume elifton from training in in preparative eighing 1,300 pounds making a p
