Raleigh, N. C., July 28 .- Professor Walker, of the State University, who oks after the inspection of the new ural High Schools was seen today at the office of the State Superintendent of Public Instruction. All the High chools are now closed except one which is at Heiton, Ashe county .--This did not begin until late and it will and July 31st. There are no funds to provide for more of these High Schools this year, but if any of them fall to comply with the State's requirements, they cannot get State money, but this will be applied to other such schools. Scores of applic. tions for the latter are coming

Prof. Walker says the Summe Schoel for teachers at the State University has just ended and that it is different from any held in the South. It is exclusively for work, with no recreation features. There were only 53 students, all these being teachers. Thus was no effort to get a large seccive it as a prize. number. There were regular lexaminst.ons and certificates were given those who were successful.

Mr. Joyner, the State Superintendent of Public Instruction is in Jackson, at work and also getting some recreation

Smaw, of North Carolina, has not only given attention to the local interests of his constitutents and to general legislation, but his greatest public service has consisted in directing public attention to the improvement of the waterways of the country. Beginning in 1899, when he first entered Congress, he began to concentrate much of his time upon this subject. He made occaional talks in the House of Represenatives; he appeared before committicket will be placed on the baby and ees; he visited the seaboard cities the person who holds a number corresponding with the baby's ticket will contributed to the magazines.
