Special Correspondence. Raleigh, Oct. 30 .- It is said by the ection growers that east of Goldsboro there is only about half a crop, but that west of that place the crop is about 25 per cent off. One farmer said that in his experience the crop was 50 per cent off on poor lands and 25 per cent off on good lands.

Your correspondent had an interview today with Senator Simmons, who was at Democratic headquarters on his way to Lumberton. He makes his final speech at Kinston Monday evening. He says things look just as good to him as he could expect and added that they never looked as good as he wanted them to look even when the majority ran up to 50,000. He says; "We' will have the old-time Democratic majorities all over the state, in counties, in districts and the state ticket too, and we are not going Fiath looks above the starry skies, to lose any congressman either. Postmasters and revenue officers have been and are running all over the state. The Republicans are not getting crowds either. Their fight is more secretive Howard had been in feeble health for this time than ever before, and their manipulation is worse than it was under the Butler-Russell regime. 1 honestly believe they have desended to a lower plane than during that regime. The legislature will be composed substantially as the last one and the Republicans will carry no more much fuller than our peopte generally believe. POLITICAL DEBATE

Their Opinions of the Campaign.

A large number of citizens sympathizers with both the Republican and Democratic ticket gathered at the court house last night to hear the debate between Hon, Charles R. Tho-Democratic and Republican candidates for congress respectively. Mr. Stephen Lane presided.

Mr. Hill was introduced by Mr. Robert Hancock who said that he was nominated because he was the best of many who would have made good candidates.

Hill's remarks

All voting citizens were his friends because he knew he did not have any enemies in the third district, except political enemies.

Has had the nomination twice in second for the congress, by acclamation did not ask for any nomination Soon received challenge from op-

ponent was advised not to accept by friends as he was young in the cause but yet he felt that he was on the right side and thereby accepted and was here tonight to show the people that he was here to champion the rights of his party.

Democrats are going back to 1868 and resurrecting the skeletons of the civil war. He said his people all fought in the war, and did not think it fair to him to bring up those old fossils of those times to comfute him. They say you talk nicely about the confederate soldiers, but what have your party done for the confederate soldiers. The confederate soldiers have always voted against us. Look here at the Charlotte convention; here were two confederate soldiers asking for office, Ashley Horne and a gentleman from Salisbury, and did they get it?

The panic, Mr. Thomas charges it to the Republican party but I deny it. Senator Bailey of Texas said it was due to over loans of the Bank of New York. John Sharpe Williams in his speech at New Bern said the administration had nothing to do with the panic.

A Republican panic is better than an ordinary Democratic administration, if we compare the times with 1892 to the present panic. Republicans hold out the postals savings bank system in lieu of the bank guarantee, as a safer and more sensible financial measure.

Mr. Thomas Speaks-Greeted With Great Applause.

He thanked the audience for this emonstration. I find in my canvass that the people are yet loyal to me and I expect to remain loval to them. Here in New Bern where I have lived nearly all my life I find them especfally loyal.

The Republicans in their National platform condemn all the constitutional amendment; the election law of the south and the Jim Crow car

Who raked up the past days or 1868-69? It was Montgomery, in the presence of Elwood Cox and Tom Settle, recently in Raleigh.

The panacea, the Republicans offer is a currency law and there is not enough money in all the national banks of North Carolina to form such a currency association as is suggested by this law which is condemned by all bankers.

Mr. Roosevelt was the first to en dorse takingthe tariff off from lumber. Now as the forests of the north are exhausted he wants lumber or

the free list. The Postal savings bank law would affect the destruction of the national banks and the small state banks. Mr. Taft never held any office in the gift of the people. Bryan has been nominated three times and will

be elected next Tuesday. Panic and a divided Republican par ty and his strength with the masses will elect him.

In his rejoiner Mr. Thomas quoted from Mr. Alken of South Carolina state liquor bill, saying that it was nothing new he had not denied the introduction as suggested in Mr. Hancock's letter. It was a bill, no pro hibitionist objected to. The publica tion of the letter intended to prejudice ilm with anti-prohibitionists. Mr. Alken introduced a similar bill and ed similar bills.. Said Mr. Aiken in 1,006.

"The proposed law does not intereffect of the law would be simply to permit the state to regulate and con-
