Among the improvements around town lately, especial mention might be made of those around Taylor's circle, otherwise Frog Pond. The attendance at the white graded school yesterday broke all records in the enrollment of 706 pupils, 681 were present. As a rule the least basis of absentees is ten per cent but yesterday the basis was reduced to three per cent, a record of which Superintendent Craven may well feel proud. He credits this remarkable attendance to the good health of the scholars. There has been no malaria or other, physical trouble to keep them at home. There is another reason which must not be overlooked and that is the interest in the school work is intense. The attendance at the colored school was 474 scholars.

The fire was discovered by some of the neighbors nearly about midnight, who went to the scene and seeing nothing on the occupants, they broke open the door and found them all asleep or

**No Man is Stronger Than His Stomach**

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use **Dr. Pierce's Golden Medical Discovery**. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so gives health and strength to the whole body.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

unconscious. After some little trouble they were removed from the burning building but only just in time to save their lives.

There was some little excitement around the Atlantic Coast Line warehouse yesterday, soon after the freight train came in and a bad accident was narrowly averted, just by a chance. A line of cars were standing on the track by the warehouse, being loaded with cotton when a shifting engine happened to bump against some cars standing higher up the track. The grade is downward and the impetus given the cars sent them hurtling down upon those being loaded in leaps and bounds and the whole train went rushing along to the river. The foremost car jumped the tracks and passed over the end of the track striking the barge *Emma and Bessie* which was lying along the wharf, a most tremendous blow causing it to tremble from stern to stern, terrifying a lot of negro stevedores aboard, who saw the runaway train apparently rushing down upon them. The barge was slightly stove and the car was badly wrecked but luckily it did not go overboard and the cotton escaped without damage.
