BOYS ARE WORTH SAVING. The mayor's court had a sad exhibit this week, when several young white boys were brought in, charged with insulting a lady on the Academy green.

It is a sad sight to see boys, young boys who ought to be at school, anywhere at some employment, brought before a court, and fined.

No citizen wants to see young boys taken up charged with any offense. Arrest means a dishonorable of the moral character, and it tends to the creation of a criminal.

These boys are worth saving for themselves, even if the more selfish desire, the protection of society be the object sought in placing idle boys, where they will be kept from mischief and then crime, and be made useful and good citizens when they grow up.

THE FOAST OF OTHER DAYS. In one of the melodramas of years ago, the action of the play being laid in California, one of the characters in his every speech, ends with, "glorious climate, California!"

It is not far to remember the days when New Bern not merely boasted, but had the best fair in North Carolina. Its annual exhibits were shown in February, because this section could boast a climate at that season when our waters our fields, our forests, and our air, all yielded most graciously and bountifully, and gave to New Bern the opportunity to show to outsiders what a goodly land was this of the Neuse and Trent rivers.

Heart Strength. Heart strength, or heart weakness, means nerve strength, or nerve weakness. Nothing more, nothing less, is it a matter of nerve strength, or nerve weakness. It is almost always a matter of nerve strength, or nerve weakness.

TRANSPORTATION FACILITIES. PAST AND PRESENT. The presentation of the transportation question by Mr. G. N. Ives, showing the difference in the service today and ten years ago calls for serious study upon the part of the Norfolk & Southern railroad management. When it can be shown that the trucking interests of New Bern section cannot enter into the work, because of inadequate transportation facilities, there is just one thing to do, to remedy this, and this must be done, or there will be no trucking done in this section, and the Norfolk and Southern will lose the haul that ten years ago was worth many thousands of dollars to boat and railroad companies.
