Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal question of the local physician which seems indicative. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong, Sick Women Well.

IMPROVED "PITTSBURGH PERFECT" Poultry and Garden Fence

We have been much gratified with the enormous increase in sales of our Poultry and Garden Fence, but have always been experimenting with a view to improving it if possible, with the result that we now have bettered this Fence by getting in extra wires, making the spacings so close where they are needed that it will not be necessary for any farmer or poultry raiser to use a single foot of the light flimsy poultry netting, or for our agents to carry any hexagon mesh Poultry netting in stock, because the Improved "Pittsburgh Perfect" Poultry and Garden Fence fills every requirement of a Poultry Fence, and is amply strong and close enough to keep out or fence in the smallest Chick, Hens, Dogs, Cattle or Dogs. Heights 40, 50, and 55.
