## EARLY DECLARED TO BE A LEPER

Mixed Committee of Lawyers and Physicians Says Bacilli of Leprosy Was Found in the Man's Skin.

Washington, D. C., Jan. 12.—By a special committee of five, appointed in December by the Society of Medical Jurisprudence at the suggestion of Dr. L. Duncan Burklely to investigate the case of John R. Barley, the United States soldier, who was long held a quarantined prisoner by the authorities at Washington as a leper, Early has been adjudged a leper.  
The committee made public its findings at the Society's monthly meeting at the New York Academy of Medicine last night. The committee was composed of the following:  
Theodore Sutro, lawyer; Dr. Reynold Webb Wilcox, Dr. Edward F. Fisher, Dr. Eberhard, Dittsch; A. Delos Kneeland, lawyer and former magistrate; Alfred E. Ommen, Ex officio as president of the Society.  
The voluminous report of the committee caused a lively discussion. Dr. Henry Russell, a skin expert, declaring the actions of the committee, all of whom save one, drew their conclusions from an examination of a section of Early's skin that had been removed to be a case of Christian Science—a sort of absent treatment. This brought a sharp rebuke from President Ommen.

## A COSTLY TRADE WAR

Between Germany and United States Involved Under New Tariff

Washington, Jan. 12.—Nearly half a billion dollars worth of trade is at stake in the game of diplomacy now in progress between America and Germany. The result will be known within a month. On February 7, in accordance with the notice given to Germany last April by the State Department, the reciprocity arrangement made under the terms of the Dingley act with Germany will expire. Simultaneously the general tariff rates of that country will apply to all imports from America unless in the short period of time intervening Secretary Knox and the German ambassador shall be able to reach a satisfactory understanding.  
At this moment the indications are that this understanding is beyond attainment and that it will be only under the stress of a bitter and costly struggle that the two nations can compose their differences and restore their trade to normal condition.  
America will not be the only sufferer from this rupture, for on April 7 next the full rigors of the maximum tariff rates carried by the Payne-Aldrich tariff act will be automatically applied to the vast German import trade, which in 1908 aggregated more than \$160,000,000 and every article of Germany production coming to America must pay 25 per cent increased duty.

## THE N & S CASE POSTPONED.

Decision Will Probably be Rendered Next Week.

Federal Judge Edmund Waddill, Jr., will not give a decision until probably early next week in the matter of the petition of the Van Dyke-Zell Syndicate, of Philadelphia, which seeks to intervene in the Norfolk and Southern Railway receivership litigation and stop delivery of the Norfolk and Southern properties and franchises under the \$2,000,000 foreclosure sale here December 7th.  
The court had intended giving a decision at this time, but Thomas L. Chadbourne, of Norfolk, appearing with Edward R. Baird, Jr., of Norfolk, for the Norfolk and Southern re-organization committee, requested time in which to file a brief in resistance of the petition and to give Mr. Chadbourne this opportunity Judge Waddill deferred decision in the case.

It is not unlikely that with the filing of the additional brief by Mr. Chadbourne that counsel for the Van Dyke-Zell Syndicate will also amplify their arguments in this matter with a written brief.  
The fact that Thomas L. Chadbourne, who is said to have treated very lightly the Van Dyke-Zell petition, now seeks to file a brief is taken by some to mean that the Norfolk and Southern re-organization is realizing the earnestness of the claims of the Philadelphians and that the latter have a case which it may be very difficult for the court to decline to investigate, especially when the petitioners are without remedy in any other tribunal.—Norfolk Dispatch.

**Marmless Hop.**  
He is not old, he is not young. The Chinese laundryman, Hop Lung. The yellowed cheek, the slanting eye. The hunched nose, the chest bone high. The cheerful face, the willing hand. That serves the proudest in the land. His back yard you may scan with care—No dirty linen airing there.  
—Chicago Tribune.

**Deluded Souls.**  
"I wonder why so many business men marry their stenographers."  
"Probably under the mistaken assumption that they can dictate to them as easily after marriage as they did before."  
—Birmingham Age-Herald.

**Resolutions of Respect.**  
At a meeting of the Board of Directors of the National Bank of New Bern held the 11th day of January 1910, the following resolutions were adopted:

Resolved by the Board of Directors of the National Bank of New Bern.  
1. That we hereby tender to his widow and children our sincere sympathy in this hour of their sorrow.  
2. That the deceased was a learned, industrious, conservative and safe lawyer of integrity and unserving fidelity. He was invariably courteous and agreeable in his contact with the members of the Board and other persons, and was a true, loyal and valuable friend and advisor.  
3. That his death is a distinct loss to this bank and the community and a keen personal loss to each member of the Board.  
4. That a copy of these resolutions be spread upon the minutes, a copy be delivered to his widow and copies be published in the city papers.  
By order of the Board of Directors.

## SENTIMENT BACKS PRESIDENT TAFT

No Other Cause Left Him Than to Dismiss Forester Pinchot.

Washington, D. C., Jan. 10.—General political sentiment seems to approve President Taft's action in dismissing Chief Forester Pinchot Friday. Local papers and prominent politicians declare no other course was left the President because of Pinchot's letter to Senator Dooliver read in the Senate. Reports from various parts of the country differ, but it is thought the majority approved the dismissal of Associate Forester Price and Law Officer Shaw at the same time. It means the investigation into the forest service will be rather perfunctory. Albert Potter, now in Utah representing the forest service has been recalled to Washington to take temporary charge. Thoroughly indignant over the action of Mr. Pinchot in inducing Senator Dooliver to read a letter from him in the Senate, President Taft would listen to no advice that the forester's violation of executive orders be overlooked pending the inquiry soon to be undertaken by Congress. He declared the dignity of the office he had been chosen by the people to fill was being attacked and he would be unfaithful to his trust if he submitted.

**Making it Plain.**  
The following simple and explicit directions are posted up in a hotel on the Nordjord:  
"The Fire Escape!—Directions for use: The one end of the rope is to be fixed at the hook in the window frame; the other is to turn out of the window. The plaited snouter, which is fixed at the log of wood, is to be put under your arms, whereupon you may safely let yourself slide down. You may regulate the hurry by keeping the rope under the log. If more persons are to be saved you have to pull up the contrary end of the rope, fix this at the hook and go on till nobody is left."  
—Punch.

**Nyal's Cherry Cough Syrup.**  
Nothing else will so readily relieve a tight, dry, hacking cough. Try a bottle for that cough before it leads to serious illness. Price 25 and 50c. On sale at Davis' Pharmacy.

**The Great Bustard.**  
The heaviest bird that flies is the great bustard. It exceeds the Norwegian blackcock. The old unsex weighs about thirty-five pounds, but when food is plentiful the young unsex may weigh forty pounds. Great bustards were formerly as plentiful in western Europe as partridges. Now they are rarely found.

**A Crimson Secret.**  
The inhabitants of Fair Island, north of Scotland, for centuries have closely guarded a secret process for dyeing textiles a vivid crimson.  
**Comete.**  
Some comets have shown puzzling eccentricities. One broke up into five small comets, which pursued parallel paths. The tail of a second showed links, as if it had been hit in the side by an invisible body. It is not unusual for comets to have two or more tails, and at least one has been observed which threw out lateral branches.  
**Roman Pottery.**  
The ancient Romans excelled in making pottery. They possessed regular muffle ovens and even a sort of producer gas oven.

## HOUSE NAMES THE COMMITTEE

The Senate on Ballinger-Pinchot Controversy From A Progressive Point.

Washington, D. C., Jan. 11.—The adoption by the Senate without a dissenting voice of the joint resolution introduced by Senator Jones, providing for an investigation of the Ballinger-Pinchot controversy, was the chief feature of interest of the proceedings today. The Senate measure was passed as a substitute for the House measure dealing with the same subject and passed last Friday. An amendment was adopted providing that the House members of the investigating committee shall be elected by the House which is in accordance with the House vote on that question last Friday.

**Arapahoe Notes.**  
January 12.—A snow had been had from Arapahoe since some time before Christmas we will let you hear from us again.  
Christmas passed off very quietly and every body seemed to enjoy it.  
We had three Sunday school entertainments during the holidays. The Sunday school of the Christian church gave theirs on Christmas Eve, the Methodist gave theirs on Friday night after Christmas, and the Baptist gave theirs on Old Christmas night. All three of these entertainments were enjoyed by all who attended them. All three had Christmas trees, many presents were given and received, and of course were appreciated.

Misses Annie and Clara Sutton, of Vanceboro, spent Christmas with relatives and friends in Arapahoe, returning home last week.  
Mr. O. R. Brinson, of this place, is attending a Masonic meeting in Raleigh this week. He will visit relatives in Goldsboro and Dunn before his return.  
A quiet little marriage took place near Arapahoe last Sunday evening; the contracting parties were, Mr. Bonnie Willis, of Bards Creek, and Miss Eva Keel, of this place; Rev. J. A. Saunders officiating. Miss Keel is one of Arapahoe's most popular girls and loved by all. Mr. Willis is one of Bards Creek's most promising young men. Directly after the ceremony the bridal party left for Bards Creek to partake of a bountiful wedding supper, which was prepared in the new home of Mr. Willis. The waiters in attendance were Mr. Seth Willis, brother of the groom, and Miss Effie Martin, of Arapahoe; Mr. Osmon Keel, brother of the bride, and Miss Helle Miller, of Mariel, N. C. The ceremony took place on the home of the bride, in the presence of quite a crowd. We hope them a very pleasant sail on the voyage of life together.

Mr. Noah Crain and Miss Leah Daw, both of Arapahoe, were quietly married several weeks ago, but we believe no account of it has been given heretofore. They are well thought of young people of Arapahoe, and we hope God's richest blessings may rest upon them all through life.  
Mr. R. H. Lee, formerly of this place, has moved to his place on the river.  
Mr. Luther Joyner, one of the young men employed to dig artesian well is very sick with pneumonia, at the home of Mr. James Daw.  
Mr. Willie Banks sprained his hip in some way to-day.  
Mr. Eddie Belangia, of this place, had a runaway last Sunday afternoon. The horse he was driving became frightened at something and dashed off among some trees causing the body of the buggy to be separated from the shafts. He and his companion, Mr. Edward Reel, escaped without injury.  
Mr. A. D. Rawls had an attack of heart trouble Saturday night which was very severe, but he is better now.  
The Methodist congregation did not have any service Sunday on account of the inclement weather.
