NEW BERN ACTUALLY VS. GOVERNMENT CENSUS.

No greater injury can be worked against any person, city, county, state or nation, than misrepresentation. The higher the source the stamp or mark of misrepresentation comes from, the greater the injury committed upon the thing misrepresented.

The government's mark of approval is all important, because of its weight, and its presumed high authority. Gold, silver, paper currency, bonds, become valuable far above their intrinsic worth, when the government stamp is upon them. The government's signature provokes no argument. It is accepted without question. Hence the vast importance that no error shall ever creep into anything marked United States government.

Appreciating and valuing so highly the government's mark, is the only reason that the Journal for its city and county would present the actual local situation as proving that the government has erred in its census report, as to this community. This is a matter of industrial and commercial, if not social defense, that must be presented to offset as it may the government census, and is given to the public to prove no actual population, but to give every intelligent reader to pass upon, and judge upon actualities, as proof that New Bern has made besides great material gains during the past decade, it has also made a substantial population increase.

In 1900, the government gave New Bern population 9090, and Craven county including New Bern 24,160. In 1910, the count is 9,961 and 25,594, respectively, a city increase of 87 1/2, a county increase of 563.

As to New Bern, the post office has in 1910 twenty-two on its roll, against twelve in 1900. The receipts show an increase of 147 per cent with its own census report a year ago of 17,000. The real and personal property shows an increase of 120 per cent. The graded schools have 90 per cent enrollment increase in 1910 over 1900. During the decade 700 residences have been built, and during 1910 it was almost impossible to rent a home, every house that was started being engaged long before completion. The city limits have been extended, and where there were growing crops in fields in 1900, in 1910 were residences and stores.

This is New Bern's status in 1910, its presentation of local actualities, that are offered against the government's returns of 9 1/2 per cent increase of population in the decade ending 1910.

WATERWAY OPENING MORE THAN CELEBRATION.

The official observance and public declaration that the Inland Waterway between Neuse river and Beaufort was opened, as per program on the banks of the waterway, January sixth, had a good deal more in it than a mere celebration.

The celebration part, in the way of attendance and ceremonies attendant upon the occasion, was most impressive. It was a day long to be remembered by all who were fortunate enough to go. It was a scene that can never be forgotten by those who went into this hitherto wilderness, who walked about where a few months previously was a swamp and impassable. It may be that never again

Children Cry for Fletcher's
CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Dr. J. C. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhea and Wind Colic. It relieves Teething Troubles, Cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

will such a scene be enacted on this waterway, never a day when more than half a hundred boats filled with people shall gather in this waterway.

But the greatness of this waterway opening celebration was the gathering of people, the representative character of the assemblage, the coming together at this inland and lonely spot, of men representing such great and distant states as Florida, Minnesota, Louisiana, Massachusetts, Pennsylvania, and Maryland, besides other notable men, high in official positions, in state and nation. That such men should take the long trip, at once points out the great importance of the inland waterway project of the Atlantic Coast states and that this section just completed called for the attendance of the official representatives that were present, as a study object of part of the great scheme of the entire line of inland waterway that is to be built. The success of this section is of greatest encouragement, as proving the positive feasibility of the great system that shall follow the Atlantic coast, a system of inland waterways of incalculable value to this entire nation.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure.

Send for circulars and testimonials. **F. J. CHENEY & CO., Toledo, O.** Sold by Druggists.

Take Hall's Family Pills for constipation.

Fifteen persons were killed and more than 40 injured in a train wreck near Cathart, Cape Colony, South Africa.

WOMEN

Women of the highest type, women of superior education and refinement, whose discernment and judgment give weight and force to their opinions, highly praise the wonderful corrective and curative properties of Chamberlain's Stomach and Liver Tablets. Throughout the many stages of woman's life, from girlhood, through the ordeals of motherhood to the declining years, there is no safer or more reliable medicine. Chamberlain's Tablets are sold everywhere at 25c a box.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by all dealers.

TAFT FAVORS PRISONS

Fines Not Sufficient For the Criminal Rich. Harlan Sentenced to 18 Months in Prison.

Washington, Jan. 7.—"Fines are not effective against men of wealth. Imprisonment is necessary," wrote President Taft in a decision refusing to commute a prison sentence against W. S. Harlan, manager of one of the greatest lumber and turpentine interests in Florida and Alabama. Harlan was sentenced in the United States Circuit court to 18 months in prison and to pay a fine of \$5,000. The decision was affirmed by the Supreme Court of the United States. President Taft commuted the term to six months.

The conviction of Harlan grew out of efforts of his company to secure 150 immigrant laborers from New York.

LOOK FOR THE BEE HIVE

On the package when you buy Foley's Honey and Tar for coughs and colds. None genuine without the Bee Hive. Remember the name, Foley's Honey and Tar and reject any substitute—F. S. Duffy.

No Bids For Cutters.

Washington, Jan. 5.—In consequence of the fact that private ship builders have declined to bid for the construction of two revenue cutters for the treasury department because they are unable to come within the limit of cost specified by Congress, Assistant Secretary of the Navy Beekman Winthrop today requested five of the principal navy yards to submit estimates by which the work could be undertaken by the government. The New York, Boston, Norfolk, Puget Sound and Mare Island navy yards were asked to submit bids.

Ganjah Smoking.

In Jamaica ganjah, a variety of Indian hemp, is smoked by the natives with terrible results. It is stated that it was this weed that was used by the leaders of the Indian mutiny to drive the sepoys into the passions of raging mania which they exhibited during that campaign. Ganjah smoking affects the beginner in a peculiar way. While under its influence his senses of time, sound and distance are obliterated. A single minute may seem a month, a child's voice sounds like the rattle of a machine gun, and a little finger may seem a mile long. Continued use, it is said, causes cataleptic fits and eventually idiocy or raving homicidal madness.

Flogged For Bathing.

On an island in the Cam, at Grantchester, is a mill pond known as "Byron's pool" because it was here that the poet as an undergraduate enjoyed his favorite recreation. Even in his day Edward Courtenay tells us in "Highways and Byways in Cambridge" bathing was a practice somewhat frowned on by the academic authorities. A century or so earlier any student found guilty of it was publicly flogged in the hall of his college and was again flogged on the morrow in the university schools by the proctors. A second offense meant expulsion from the university.

Earnings of Writers.

There are at least fifty writers in England who are making £1,000 a year each by their books. In this number it is possible that there are a dozen who make incomes of £2,000 to £5,000 a year. Marion Crawford is said to have received £20,000 down for each of his novels, and he often turned out three a year. Sir Walter Scott made £200,000 during his writing career. Alphonse Daudet received £40,000 for a single novel. Lew Wallace got in royalties on "Ben-Hur" and "The Prince of India" almost £80,000. For any of his stories Rudyard Kipling is reputed to charge 2 shillings a word. "Les Miserables" brought Victor Hugo close on £10,000.—T. P.'s London Magazine.

Coroners in England.

In early times the coroner in England was a revenue officer of the crown, and his business was to find out the criminals, extort their confessions and confiscate their goods to the crown. From records it appeared that King Alfred had a predilection for hanging his coroners because they did what was unjust.

At the present time practically the only office of coroners is to hold inquests on dead bodies and on treasure trove and to pronounce judgment in outlawsry.—London Telegraph.

A RELIABLE COUGH MEDICINE.

Is a valuable family friend. Foley's Honey and Tar fulfills this condition exactly. Mrs. Charles Kline, N. 8th Eastern, Pa., states: "Several members of my family have been cured of bad coughs and colds by the use of Foley's Honey and Tar and I am never without a bottle in the house. It soothes and relieves the irritation in the throat and loosens up the cold. I have always found it a reliable cough cure."—F. S. Duffy.

Military Skaters.

In the Norwegian army there is a corps of infantry every man of which is an expert skater. On skates this corps can perform a day's march of eighty miles, which equals the performances of the best trained cavalry in Europe. The evolution of the corps are confined to the great fjords which indent the coast of Norway, these fjords being frozen over during the long winter season.

Could Not Smell Her Hair.

Mrs. A. L. Wetzel, 1023 Ohio St., Terre Haute, Ind., writes:

"When I began to take your medicine I could not smell, nor hear a church bell ring. Now I can both smell and hear."

"When I began your treatment my head was terrible. I had buzzing and chirping noises in my head."

"I followed your advice faithfully and took Peruna as you told me. Now I might say I am well."

"I want to go and visit my mother and see the doctor who said I was not long for this world. I will tell him it was Peruna that cured me."

People who object to liquid medicines can now secure Peruna tablets.

A River in Brazil.

The state of Sao Paulo, in the republic of Brazil, has a river that carries one of the longest names of any stream in the world. The name is of Indian origin and is "Tamananduethe" and is also called without saving anything in length "river of the Great Tamanoir."

You economize greatly when using Dr. Shoop's new coffee substitute known to first class grocers everywhere as Dr. Shoop's Health Coffee. A 25c, 1 1/2 lb. package gives 100 cups of a wonderful satisfying table drink. Pure roasted grains, malt, etc. give to Health Coffee a wholesome and satisfying taste and flavor. And there is not a grain of real coffee in it. Besides, Health Coffee is "made in a minute." No 20 to 30 minutes tedious boiling. Sold by H. C. Armstrong.

An Artist's Criticism.

Probably no two artists ever criticized each other more severely than did Fuseli and Northcote, yet they remained fast friends. At one time Fuseli was looking at Northcote's painting of the angel meeting Balaam and his ass. "How do you like it?" asked Northcote after a long silence. "Northcote" replied Fuseli promptly, "you're an angel at an ass, but an ass at an angel."

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by all Druggists.

American Influence in Canada.

Wherever the American goes in force and in proportion to his sympathetic reception he leaves as a side issue the indelible impression of his vivid personality. In such wise he is changing the sodate old maritime provinces now very rapidly that you can hardly find any difference between them and Maine or Massachusetts. This is in obedience to a natural law which must bring about such results. His manners, his speech, his courage, his means of communication, whether by land or sea, are entirely reciprocal with Canada, but as he is mighty and Canada is feeble numerically the greater, as usual, includes the less.—F. T. Bullen in London Mail.

PARSON'S POEM A GEM.

From Rev. H. A. Stoppenov, Allison, in a praise of Dr. King's New Life Pills.

"They're such a health necessity. In every home these pills should be. If other kinds you've tried in vain, USE DR. KING'S. And be well again. Only 25c at all druggists."

Bearded Woman.

The bearded woman is not a fiction. A bearded woman was taken by the Russians at the battle of Poltava and presented to the czar. Her beard measured over a yard. The great Margaret, queen of the Netherlands, had a very long, stiff beard. Mile Boes de Ghene, born at Geneva in 1594, was exhibited in London in 1853 in her eighteenth year. She had a profuse head of hair, a large mustache and a strong black beard. There are other instances of bearded women about the authenticity of whom there is no room for doubt.—New York American.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. TOBACCO TRUST WAR IS ON

\$4000,000,000 At Stake—Argument Before Supreme Court

Washington, Jan. 7.—Before the Court of Last resort yesterday began the final supreme legal battle on which hangs the fate of the American Tobacco Company and its subsidiary corporations.

Some of the highest-priced lawyers in the country yesterday began their arguments before the Supreme Court of the United States for and against the Sherman Anti-trust law and that many tentacled octopus, the Tobacco Trust. On the cogency of their presentation of the evidence depends either the life or death of a vast combine of corporations constituting a business with over \$4000,000,000 of invested capital—and on the one hand, a strengthening of the Sherman Anti-trust law, or, on the other hand, an emasculating of that statute which will nullify the Government's strongest weapon against corporate aggression.

The setting for this legal Waterloo was the small, prim chamber of the Court, and the audience of nine justices of the highest court, and a closely packed crowd of lawyers, business men and visitors. The generals in command of the opposing forces were Attorney General Wickersham and Special Attorney J. C. McReynolds, for the Government, and Attorneys John-G. Johnson and William B. Harnblower, for the Tobacco Trust. To Johnson, as chief counsel for the appellant, fell the duty of making the opening argument, and his legal defense of the accused corporations consumed by far the greater part of the day.

FOLEY KIDNEY PILLS.

Are tonic in action, quick in results. A special medicine for all kidney and bladder disorders. Mary C. Abbott, Wolfboro, N. H., says: "I was afflicted with a bad case of Catarrh, due to uric acid that the kidneys failed to clear out of my blood. I was so lame in my feet, joints, and back that it was agony for me to step. I used Foley Kidney Pills for three days when I was able to get up and move about, and the pains were all gone. This great change in condition I owe to Foley Kidney Pills and recommend them to anyone suffering as I have."—F. S. Duffy.

Threatening feverishness with children is quickly and safely calmed by Preventives. These little Candy Cure Tablets should always be at hand for promptness is all-important. Preventives contain no quinine, nothing harsh or sickening. They are indeed, "the stitch in time." Carried in pocket or purse. Preventives are a genuine safeguard against Colds. 25c. Sold by Erdsham Drug Co.

Agincourt.

Agincourt, from which Henry V. made his triumphant entry into London, is our English way of spelling Azincourt, just as Bismarck is a similar corruption of Bismheim. In about two and a half hours Henry's little army slew 10,000 Frenchmen, nearly twice as many as England lost outright in battle during the Boer war, lasting over two and a half years, and yet we talk complacently of our "modern arms of precision!" A monument at Agincourt marks the cemetery of the slain. Few battlefields have changed their appearance so little. The field may be reached within a railway hour from Boulogne, but few tourists go to the scene of England's most wonderful feat of arms.—London Chronicle.
