No. 85

NEW BERN CRAVEN COUNTY, N. C., FRIDAY JANUARY 20, 1911 -- SECOND SECTION

33rd. YEAR

## HIS FOOT CRUSHED OFF

### Mr. Zeb M. Williams Suffers Painful Injury Yesterday Afternoon.

While engaged in operating a donkey engine yesterday afternoon at the Virginia Carolina Chemical Company's new plant which is located at James City, Mr. Zeb M. Williams who resides at No. 99 McTeaf had the misfortune to get his foot caught in one of the cog wheels and before the power could be cut off that member was so horribly mangled that it was found necessary to amputate it just below the knee.

No definite account of the accident could be obtained but it seems, from the few facts that were learned, that Mr. Williams attempted to throw over the control lever with his foot. Instead of placing his foot on the lever he miscalculated and it struck the edge of one of the large cog wheels which are located just to the left of this lever. Before he could regain his equilibrium his foot was caught between the cogged edges and before it could be extricated the entire front portion of it had been mashed to a pulp. A physician was at once summoned and the injured man was carried to Stewart's sanatorium where the operation was performed.

## PILES! PILES! PILES!

Williams' Indian Pile Ointment will cure Blind, Bleeding and Itching Piles. It absorbs the tumors, allays itching at once, acts as a poultice, gives instant relief. Williams' Indian Pile Ointment is prepared for Piles and itching of the private parts. Sole by druggists, mail 60c and \$1.00. Williams' Mfg. Co., Props., Cleveland, O.

## Big Strike Ended.

Chicago, Jan. 16.—The strike of the garment workers of Chicago, which has been drawn out for many weeks, and which was participated in by nearly 35,000 workers, was practically settled on Saturday when an agreement was signed with Hart, Schaffner & Marx, the largest of the clothing manufacturers, which will result in 10,000 employees returning to work within the next ten days. It is predicted that the restoration of peace between the union and Hart, Schaffner & Marx will mean the speedy settlement of the strike between the smaller shops and end the long contest. The main points to the agreement follow:

All striking employees shall return to work within ten days.

There shall be no discrimination on the part of the employers between union and non-union workers.

All grievances shall be adjudicated by an arbitration committee.

## Hugs A Friend and Breaks a Rib.

Charlotte, Jan. 17.—Mr. Ellis, a young man who works for Sanders and Orr, "happened to" a peculiar and painful accident some days ago. He was standing by the stove in Hand's drug store when a friend came up behind him and throwing his arms around him gave him a quick squeeze. Mr. Ellis threw his hand to his side and complained of pain.

The friend who had given him such a vigorous embrace was greatly distressed. As a result of the hug Mr. Ellis was confined to his home for a week. One of his ribs was cracked or broken.

## Sailing—Shoe Sailing and the greatest Sale ever happened ends this week, many Bargains even to the last. J. J. Baxter.

## Postoffice Bill Shows Increase.

Washington, Jan. 17.—The postoffice appropriation bill, aggregating \$253,000,000, an increase of more than \$9,000,000 over the current appropriation, was reported to the house yesterday by the postoffice committee. The plan is to consider the bill in the house immediately after disposing of the pending army appropriation bill.

## BILL NYE DAY IN PUBLIC SCHOOLS

### Superintendent Designates Feb. 22d to be Observed.

Raleigh, Jan. 17.—Wednesday Feb. 22, has been appointed by Hon. J. J. Joyner, State Superintendent of Public Instruction, as "Bill Nye" day in the public schools of North Carolina. A special hour will be set aside on that day for the teachers to read to the pupils a biography of Bill Nye, and a brief program of his writings will be carried out.

Superintendent Joyner has been in correspondence with the Bill Nye memorial committee of the North Carolina Press Association for some time, and the final arrangements were completed today after a conference with Mr. J. P. Cook, treasurer of the committee. The program for use in the schools, embracing the instructions from the State Superintendent to the county superintendent and the teachers will be sent out by the committee in ample time. Incidentally, the movement contemplates voluntary contributions from the school children to the Bill Nye memorial fund, which is to be applied to the erection of a handsome building at the Stonewall Jackson Manual Training School at Concord. Every child in the State attending a public school, will be asked to bring one penny or more on this day following Bill Nye Day, which will be applied to this purpose.

Sup't. Joyner is taking most kindly interest in this great movement, and has responded nobly to the petitions of the committee, a co-operation which is heartily appreciated by the committee, as well as all the editors of the State, who are deeply interested in the memorial.

## Adds Words of Praise.

Having experienced wonderfully quick relief by the use of SAVONINE in colds, coughs and bronchial affections. I am pleased to add a word of praise of that excellent remedy.

Yours very truly,  
MISS MARY L. BRYAN,  
New Bern, N. C.

## Had Wife and Children But Married Girl of 15.

Wilmington, Jan. 17.—Mathew Love Connor, a young white man, has been arrested and lodged in jail here in default of \$1,000 bond on a warrant charging bigamy. It is charged that Connor married Miss Emma Ward of Columbus county, when he has a wife and three children living at Abbottsburg, near Wilmington. Alleged wife No. 2 is only about 15 years of age. Connor was arrested as Delgado, a suburb. The trial is set for Thursday and it is expected that Mrs. Connor No. 1 and her children will be here.

After Connor was lodged in jail upon a warrant received from Columbus county and an effort was made to have the man carried to Columbus, but the local magistrate refused to recognize the second warrant. A deputy sheriff served the second warrant, however, upon Connor.

## No Funds Checks Issued.

Several days ago a young man claiming to be from Mayville, arrived in this city to, as he said, spend a few days with some of his relatives. After his arrival here he evidently ran out of funds and in order to reimburse his pocketbook began to give out checks signed by the manager of the Mayville Supply Company. Perhaps \$100, worth of these checks were cashed by local people before they were returned. When the checks arrived at Mayville the gentleman whose name adorned them promptly pronounced them forgeries. In the meantime the man who received the money for them has disappeared and no trace of him can be found.

Speaking of desirable neighborhoods of course we all desire to live on Easy street.

## BITTERLY ASSAIL RATE INCREASE

### Shippers Say Increase on Commodities Would Be Robbing the Public.

Washington, D. C. Jan. 17.—The proposed freight rate increase on sixty commodities, such as iron, coal and coarse wool, by railroads operating between Chicago and the Missouri river were bitterly attacked by shippers, in a final hearing before the Interstate Commerce Commission yesterday. A saving of more than \$12,000,000 annually for the shippers, or an equal amount of profit for the railroads, hinges on the decision of the commission, said the shippers.

The roads declared the rate advances necessary, in order to carry forward their progressive policy. The increased cost of material used by them, and the advance in the wages of their employees they say, had placed them in danger of operating their lines at an actual loss, or with a profit so small as to be negligible, unless they are allowed to increase their rates. The commodities on which they would raise the freight tariffs were chosen by the railroads, it was claimed, because they yield a larger profit to their shippers than any of the others carried on trunk line territory.

The shippers denied that the cost of railroad materials had advanced. They declared that traffic profits had increased by leaps and bounds during the past five years, and that if the net returns seemed smaller, the fact was due to unwarranted increases in capitalization. To grant the increases, the shippers declared in conclusion, would be practical robbery of the public.

## Notice.

The Belgrade school will give a play "The Deacon," Friday night Jan. 27th. Admission 15 and 25 cents.

## A Real King is Refused Admission to America.

New York, Jan. 18th.—For the first time perhaps in the history of the United States, a king of a nation with which this country is at peace was deported yesterday as an undesirable alien. The board of special inquiry on Ellis Island wouldn't let in Petru Lucas, one of the many "kings" of the rypsiens, and he went back today with his wife, his step-son and his adopted daughter-in-law by the same ship he came over in.

King Petru, who speaks English fluently, confessed that he had formerly lived in this country, but quarreled with his wife, left her, went back to Boensia, and there bought a new wife for \$110 and a fat pig. Because of these liberal views concerning matrimony he was deported.

## Rheumatism Relieved in Six Hours

Dr. Detchon's relief for Rheumatism usually relieves severest cases in a few hours. Its action upon the system is remarkable and effective. It removes at once the cause and the disease quickly disappears. First dose greatly benefits 75c and \$1.00. Sold by Bradham Drug Co.

Vernet in a Storm at Sea.

Vernet, the celebrated painter of sea pieces, eager in the study of nature, made several long voyages in his younger days in order to observe the various scenes which the changeable elements exhibit. In one of these excursions undertaken merely for the love of the art a most violent gale of wind arose, when Vernet, without attending to the perils with which he was surrounded, desired one of the sailors to lash him fast to some of the rigging. Soon after this request was granted the storm increased, attended with thunder and lightning and with every circumstance that could add to the horror of the scene, and consternation and terror set on every countenance, but in the young painter every emotion was lost in that of admiration, which so wholly engrossed his attention that he every now and then exclaimed in the most enthusiastic terms, "Good heavens, what a noble scene!"

## The Athens Will Equal It.

Winston-Salem, Jan. 18.—The finest vaudeville house in the State, as its projectors assert, will be the new Liberty theater, work upon which has begun, the contract having been awarded to the Central Construction Company. It will occupy a plot on North Liberty street between the postoffice and the square and will represent, exclusive of land, an investment of \$18,000. Mr. Robert Hancock manager of the Amuzu moving picture place, will be the manager of the Liberty. The theater will have its own lighting, heating and refrigerating plants. The house will be brilliantly lighted inside and out. A retiring room for ladies and a smoking room for men will be furnished. A balcony will be installed for colored people.

## DIVIDEND BY NORFOLK-SOUTHERN

### Stockholders Called to Meet Jan. 30th to Consider Increase of Stock.

Norfolk, Jan. 17.—The Norfolk-Southern Railroad has declared a final dividend of one-half of one percent for the quarter ended Dec. 31, 1910, payable Feb. 1st to stock of record Dec. 14th, 1910. This places the Norfolk-Southern stock upon a two per cent basis.

The meeting of the stockholders of the Norfolk-Southern called for the authorization of an increase in the stock of the re-organized company from \$12,000,000 to \$25,000,000 has been fixed for Jan. 30th and will be held in the general offices of the company at Norfolk.

Of the proposed new bond issue \$5,780,000 will be sold to retire the \$4,300,000 one year notes sold in October, thus releasing the \$7,800,000 of the first mortgage bonds which are now deposited as collateral for the notes; \$3,220,000 will be substituted for a like amount of the old bonds with the trustees for retiring underlying bonds, and \$26,000,000 will be left in the treasury. This will be used for betterments and a portion, it is anticipated will be used in the erection of a modern hotel at Virginia Beach.

## NOTICE

There will be a basket party at Forest School House on Friday night, February 24th for the benefit of the school. Everybody cordially invited. Girls come and bring a basket, boys come prepared to buy them.

MAMIE HARTLEY.

## DIED.

Sunday morning at 10:20 o'clock the soul of Nina, the ten-year old daughter of Mr. and Mrs. J. Tingle, of Alliance, passed into the great beyond. The little girl was stricken with paralysis when she was but a few years old, and has since that time been a constant sufferer. Despite this fact, however, she was always affable and kind, and was loved by all who knew her.

The funeral was held at Alliance yesterday afternoon at 2 o'clock.

## Shoes, Shoes, Shoes, greatest bargains ever offered in Shoes, this week at J. J. Baxter's.

## Temperature For January.

The following are the maximum and minimum temperatures for this month as per date. With few exceptions the daily ranges have been much wider than the average person would imagine, the day time temperatures being generally pleasant.

1	61	33
2	68	56
3	74	60
4	69	33
5	66	25
6	46	22
7	52	25
8	62	27
9	62	43
10	57	26
11	55	24
12	67	42
13	76	44
14	75	43
15	78	48
16	74	34
17	64	27

## COSTS BUT A TRIFLE TO CURE CATARRH

How many readers of the Journal know that in inland Australia there is a night of eucalyptus trees grow in abundance, that there is no consumption, catarrh or diseases of the respiratory tract.

The refreshing balsam thrown out by these trees fills the air and is breathed into the lungs by the inhabitants and all germ life is destroyed.

If you have catarrh you cannot go to inland Australia except at great expense, but you can breathe right in your own home the same pleasant, soothing, healing, germ killing air as you would breathe if you were living in the eucalyptus district of Australia.

Just breathe HYOMEI! It is made from Australian eucalyptus and scientifically combined with thymol and other antiseptics employed in the Listerian system.

Pour a few drops of HYOMEI in the inhaler and breathe it, and as it passes over the catarrh infected membrane it kills the germs and heals the raw, inflamed surface.

HYOMEI is guaranteed to cure catarrh, coughs, colds, croup and sore throat or money back. Complete outfit including inhaler \$1.00. Extra bottles of HYOMEI costs but 50 cents. Sold by druggists everywhere and by Bradham Drug Co.

## MAY REQUIRE EXTRA SESSION

### Prospects For Completing Needed Legislation Not Good Queer Political Line Up.

Washington, Jan. 18.—With another kink tied in the House rules, and two more days a month taken away from general legislative business, the House leaders admitted that they will have hard work disposing of the routine work before the end of the session on March 4th. The possibility of an extra session, immediately after the new Democratic Congress comes in, looms up very large.

Representative Tawney, chairman of the House Appropriations, after summing up the work yet to be done on the regular appropriations bill, declared that these measures would demand at least twenty-eight or thirty more general legislative days. In the last two weeks the House spent two days in fighting over the rules, and there are now only eighteen days left on which the appropriation bills can be considered. Either a series of night sessions or an extra session seems imperative.

In addition to the pressure of time the House is involved in the queerest line-up of parties that has marked this checkered Congress. Insurgents joined the Democrats in overruling Speaker Cannon. But a week ago the Democrats refused to join the insurgents on a similar proposition. The Democrats seem to be in a position to control the House, almost absolutely as they will after March 4th.

One result of the tangled situation predicted by some leaders is that President Taft will secure no tariff commission legislation of consequence, and that the administration legislative program will be lost in the wild scramble to clean up routine business.

## Notice to G. L. Hardison's Friends.

The statement made by others asking for endorsements for Collector Customs at New Bern, that I am no longer a candidate for this position is untrue, I am still in the race and expect to remain to the finish. I ask the continued support and loyalty of my friends.

G. L. HARDISON.

## South Carolina Mill To Urge Curtailment.

Spartanburg, S. C. Jan. 18.—Members of the Cotton Manufacturers' Association of South Carolina will, it is said, be advised by the executive committee radically to curtail the output of their mills when the association meet here today in response to a call of the committee. The last previous meeting of the association was held in June of last year, at which time it was recommended that the mills shut down for a certain number of weeks in the autumn.

This recommendation was generally complied with, but it is said the situation has become worse and it is felt that still more drastic action is required to decrease the production.

About 75 members are expected to attend the meeting, which will be held in the rooms of the chamber of commerce. A luncheon at the Spartan City club will follow the business session.

## A Friendly Suggestion.

Baron (to creditors)—I see no hopes of being able to pay what I owe you. Why not organize a suicide club?—Meggendorfer Blatter.

## The Early Drum.

Drums are probably an eastern idea introduced by the crusaders into Europe. They are frequently mentioned in accounts of the first crusade. When Edward III of England and his queen made triumphal entry into Calais in 1347 "tamboors" were among the instruments which were played in their honor. Another of these was called a "nacaire" or kettledrum, taken, together with its name, from the Arabs. The poet Chaucer also mentioned this instrument in his description of the tournament in "The Knight's Tale." The king generally kept a troop of these bandum or minstrels in his employ, and we read that Edward II. on one occasion gave a sum of 60 shillings to Roger, the trumpeter; Janbo, the baker, and others for their performances. Another minstrel was called the "cheveretter," or player on the bagpipe.

## The Plague and the Tan Pits.

Bornmordney's association with the tanning industry was originally due partly to its fine oak woods and partly to the fact that the London slaughter-houses were to a large extent situated in Southwark, on the unfashionable side of the river. For a brief period, however, it enjoyed a certain fame as a health resort. That was, as Sir Henry Trieman Wood tells us in "Industrial England" in the Eighteenth Century, when "terror stricken creatures fled from the ravages of the great plague in the city of London to the Bornmordney tan pits to find strong medicinal virtues in the nauseous smell."

## MILLION DOLLAR BOND ISSUE

### For Erection State Administration Building. Sentiment Favorable.

Raleigh, N. C., January 18.—Duplicate bills were introduced in the Senate and the House of the North Carolina General Assembly, providing a \$1,000,000 administration building for the State, the building to occupy the square north of Capitol Square, bounded by Edenton, Halifax, Jones and Salisbury Streets, a part of which is now the site of the Agricultural and the Supreme Court building, which are to be torn away to give place to the new structure. It will take about \$50,000 to buy up the privately owned property on the square.

The bills were introduced in the Senate by Senator Boyden, of Rowan, and in the House by Hon. Ashley Horne, of Johnston county. Both made stirring speeches in advocacy of the measure, which provides a \$1,000,000 bond issue. It is believed here that this movement has every indication of enactment into law. It was just this plan that Ex-Governor Jarvis, of Greenville, so strongly advocated last week in his address before the North Carolina Literary and Historical Association and the members of the General Assembly. The building is to provide for all the administrative departments of the government, including the offices of the Governor, so that the present State House will be left entirely for the legislative branch of the government. The State Library and the Agricultural Department will also be domiciled in the new administration building, as will be the Hall of History, the State Museum and the archives of the State Historical Commission.

## Fred Hahn's Pepsi Cola Success.

The Pepsi-Cola Bottling Co. are mailing out their catalogue for 1911. This company has only been established in Winston-Salem about three years, but under the management of Mr. F. M. Hahn, the business has increased beyond expectation, Winston-Salem and vicinity being considered one of their best territories explains this phenomenal success.

## Her Tribute to Emerson.

A poor washerwoman in Concord was seen to be hurrying her work and rolling down her sleeves considerably before her usual hour for leaving.

"I'm going out," she informed her employer, with a pleased and rather consequential air.

"Where are you going, Bridget?"

"To hear Mr. Emerson lecture."

"Why, he is very deep, Bridget. Most of us can't understand him very well."

"Oh, I don't understand him, mum, but I like to see him stand up there and talk as if he thought everybody else was as good as he was."

The great philosopher was absolutely free from pride, and he made his hearers realize his perfect democracy of faith.

## THURMAN NOTES.

Jan. 16.—The weather has been so spring like for the past few days that the farmers and their families have been visiting around and enjoying themselves generally, especially, the young men and girls.

School seems no longer a distasteful duty to teacher and pupils but a real pleasure. The teacher reports interest and good work from her pupils and consequently great progress.

Most of the young people for several miles down the road were invited by Messrs. J. W. Conner and G. L. Hardison to go with them to Graywood school house to organize a Sunday school. A number went. The Sunday school was organized with thirty-nine members.

Dr. Ernest Moore spent Saturday and Sunday with Mr. Jay L. Humphrey at Clarks.

Mr. Morris Bray and his father spent Sunday at Beech Grove.

Mr. Alarie Simpson spent Saturday and Sunday at Clarks.

We are very glad to hear that Mrs. Avis Riggs is home again and feeling so much better than when she went away.

Next Sunday there will be preaching in the Methodist church by Rev. J. T. Pate.

The church choir meets at Mrs. W. E. Moore's Wednesday night and the Sunday School choir at Mrs. A. W. Conner's on Friday night. Every member should be present at these meetings as they are very enjoyable as well as profitable.

"Vale."

Our Shoe stock must go regardless of price this week. Great Shoe bargains. J. J. Baxter.

## FOR A HARBOR OF REFUGE

### Large Delegation Visits Washington City in the Interest in This Project.

The delegations from New Bern, Morehead City and Beaufort, appeared before the Board of U. S. Engineers in Washington City Monday in the interest of Cape Lookout as a harbor of refuge and commerce.

This board has in charge the matter and their decision controls.

In the delegation there were: from New Bern, L. I. Moore and S. M. Brinson. From Morehead City, W. L. Arrendell, G. D. Canfield, Daniel Bell and G. L. Arthur. From Beaufort, W. S. Chadwick, C. I. Abernathy, W. A. Mace, T. F. Duncan, Atonzo Thomas, Ben May, Capt. A. I. Lewis, Capt. H. Mason and Capt. Oscar Noe.

Senator Simmons and Congressman Thomas accompanied the delegation, and both made speeches. Messrs. Moore, Brinson, Duncan and Abernathy also spoke.

Messrs. Arthur, Noe, Lewis and Mason, all of whom are familiar with conditions at Hatteras and Lookout, gave strong testimony favorable to Lookout as the proper location for the harbor.

At about one-third the cost of breakwater at Hatteras, a safe harbor for the largest vessels of the world can be made at Lookout.

The delegation returned very much encouraged.

It is believed the work will be undertaken at Lookout.

When the appropriation is made the Norfolk-Southern will extend its road to the Cape.

With the completion of the Panama Canal, and the construction of this harbor, which will be the best on the South Atlantic coast, a very great commercial development will come to Eastern North Carolina.

## PILES CURED IN 6 TO 14 DAYS

CAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

## Southport's Railroad.

After suspended activities for about three months, work on the railroad from Navassa to Southport was resumed yesterday morning when a large force of hands began grading at a point just below Bolivia, at which place the road has already been constructed from Navassa. The work is being done by contractor Jones, and information from Brunswick county is to the effect that the company building the road hopes to have the road completed by June 1st.

The road has been constructed from Navassa to Bolivia, via Town Creek, a distance of about 15 miles, and the road has been used during the past few months in transporting lumber etc. Two engines are used on the road. It is only about 14 miles from Bolivia to Southport and people in Brunswick Co. are no reason why the road cannot be completed by the time set by the officers of the company, June 1. Mr. Z. W. Whitehead, of Wilmington, is president of the company which is building the road. It is said that there are no bills and no streams of consequence between Bolivia and Southport and this end of the line should be constructed in much less time than was required to build the end connecting with the Seaboard and Coast Line at Navassa.—Wilmington Star.

## To Hear Argument Wednesday.

Raleigh, Jan. 18.—The house committee on liquor traffic announces that it will hear argument Wednesday of next week for and against state-wide prohibition of near beer and other drinks of this class. The bill under consideration is that by representative Kent, of Caldwell county.

## WOOD'S HIGH-GRADE Farm Seeds.

We are headquarters for the best in all farm seeds.

Grass and Clover Seeds  
Seed Corn, Cotton Seed,  
Cow Peas, Soya Beans,  
Sorghums, Alfalfa Corn,  
Millet Seed, Peanuts, etc.

"Wood's Crop" issued Special monthly gives timely information as to seeds to plant each month in the year, also prices of Seasonable Seeds. Write for copy, mailed free on request.

T. W. WOOD & SONS,  
Seaboard - Richmond, Va.

## Hyde County Rust Proof Oats For Seed.

Burt Seed Oats, Feed Oats, Seed Rye, Early Rose, White and Red Bliss Seed Potatoes, Hay, Grain and Feed. International Stock Food. Orders by mail will receive prompt attention.

### Chas. B. Hill

MIDDLE STREET NEW BERN, N. C.
