THE MATTER OF SAVING.

The matter of saving cannot be taught children at too early an age. Like any habit it gains force and strength through cultivation.

A local banking institution is developing the idea of saving by offering an attractive little bank to all who will become its patrons.

No child needs to be taught to spend money. The penny in itself has so small a value, that it calls for education to teach the child that just one cent has power, and as the cents become dimes and dollars, their power proportionally increases.

The secretary of agriculture asked the chief of the weather bureau, "As a scientific man, can you tell me anything definite about an earthquake?"

THE AMUSEMENT PATRONAGE OF NEW BERN.

The coming of Creator to this city this week, together with one or two excellent entertainments previously given this season, and added to these the splendid course furnished by the graded school gymnasium course, shows a revival in New Bern of a better class of entertainment, that has for years been lacking.

New Bern has always been noted for its demand for amusements, and these of a high order. That for several years past in this city the class of amusement furnished has been inferior, with loud bill board announcements, with the result that patrons of entertainments were deceived, was no fault of the people, and led to theatre failure, as it deserved.

Moving pictures shows followed, and while liberally patronized, generally beyond their merits, the local public had to accept these or nothing. Thanks to the two gentlemen who at the first of the present season inaugurated a different course of amusement or entertainment, New Bern is getting back into its old form, and is feeling that life is worth living here with the return of clean, healthy and first class amusements.

New Bern amusement patrons have never balked at prices asked for meritorious shows or entertainments. Make it first class, with all that the name implies, and crowded houses were the result. The same has been the result at the grand entertainments.

it is to be hoped that henceforth the people of this city will have only first class amusement present ed them to enjoy.

It is not for the hour, that an entertainment serves, if it has genuine merit. Its exhilaration is beneficial for days, and its educational effect, for any really good entertainment educates one way or another, perhaps more in inspiring and cultivating the senses for what is clean and wholesome.

Children Cry FOR FLETCHER'S CASTORIA. An Earthquake.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity.

Breakfast Habits. Mrs. X.—When my husband stays out all night I refuse to get him any breakfast.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days.

Charles E. Erbelein, a Chicago lawyer charged with bribing a juror in the trial of Lee O'Neal Browne an Illinois legislator, was acquitted by the jury.

Foley's Kidney Pills. What They Will Do for You. They will cure your backache, strengthen your kidneys, correct urinary irregularities, build up the worn out tissues, and eliminate the excess uric acid that causes rheumatism.

Threatening feverishness with children is quickly and safely calmed by Prevention. These little Candy Cold Cure Tablets should always be at hand for promptness is all-important.

DOWN THE BACK OF HIS HEAD

A Parting of the Hair From Which We've Partly Parted.

What has become of our well known fellow townsman that used to brush his hair two ways from a line extending from crown to collar and saving the ends over his ears? He was a leading citizen. He sat in the next pew in front at church and always attended the shows.

Well, he's still in town, although greatly changed. It was all the barber's fault. When he was in his prime and known to everybody the barber used to trim him. Later he began to cut it. It wasn't long before our well known fellow citizen was nipped by the shears, his locks curled on the calico pinned around his neck and rolled to the floor, and there wasn't anything to part.

The Music of the Nightingale. But the nightingale, another of my airy creatures, breathes such sweet loud music out of her little instrumental throat that it might make mankind to think miracles are not ceased.

Children Cry FOR FLETCHER'S CASTORIA. The Site of the White House.

The site of the president's palace, as the first map name it, was selected by President Washington and Major L'Enfant when they laid out the federal city in 1792. They purposed to have the president's house and the capitol reciprocally close to the long vista formed by Pennsylvania avenue.

Get Health

Don't think even a penny—until health returns. And I mean just exactly that. I am the one physician who says to the sick, "I will cure you on my own pocket, pay for your medicine if it fails to bring you health."

Then why pay the cash, and at your risk, for other untried and uncertain medicines? Thousands upon thousands have in the past successfully used Dr. Shoop's Restorative.

Tolstoy's Thoughts on Death. The fear of death is unnatural. The fear of death is the consciousness of sin.

The fear of death emanates from the fact that people regard as life only a small part of it, limited by their own erroneous conception.

Just as the owner of the fig tree knows the time when the fruit is ripe, so God knows when to call the righteous from this world.

Strive to keep your life at a point where you neither fear death nor desire it.—Tolstoy's "Cycle of Readings."

Fine Language. In the school year of 1896-7, in the town of Topsfield, Mass., there was at least one committeeman whose command of language was unusual.

The primary center school was instructed by Miss Under the guidance of this master hand in genuine philosophic simplicity the school presented the same phase of unvarying successful advancement as in former years.

One Magazine

AND One Newspaper

are indispensable to every person of intelligence.

The "one magazine" is CURRENT LITERATURE, because it alone sweeps the whole field of human thought and action in both hemispheres.

It contains a monthly review of the world's news; quotations from and comments on the press of the world; numerous graphic cartoons and other illustrations; photographs and biographic sketches of the conspicuous personalities of the month; the most recent advances in science and discovery; the noteworthy events in religion, literature and art, critical reviews of the best fiction, dramatic and musical works; a page of the best humor and a condensation of the leading plays of the month.

It gathers impartially from every field of human thought and activity those facts which are best worth knowing and gives the reader a clear, well defined and illuminating view of what the whole world is doing.
