

A SAVINGS ACCOUNT

It is well known that a person in poor physical condition is more subject to attacks of disease than a person who is strong. It is just as true that a person who is in poor circumstances financially, is more liable to misfortune than one who is protected by some ready money in the bank. A savings account is the best means of strengthening yourself financially. Open an account at once. This bank accepts deposits of one dollar or more and interest is paid at the rate of 4 per cent per annum.

"I had an acute attack of Bright's disease with inflammation of the kidneys and bladder, and diarrhea," says Mrs. Cora Thorp-Jackson, Mich. BORDER TOWN TAKEN BY REBELS

Mexicali Captured by Insurrectos Who Smuggle Arms Across From American Territory.

Mexicali, Lower California, Jan. 30.—Mexicali, the first border town in Mexico to be captured by the rebels, was taken with little resistance early Sunday. The only man killed was the jailer, who was shot when he refused to set free his prisoners.

The customs house was seized. Reinforcements are said to be flocking to the rebel standard from the surrounding county.

The capture of the town is the first sign of activity of the rebels on the western coast of Mexico. The move was a complete surprise.

Mexicali is a small town, inhabited chiefly by natives of Mexico. It is just across the border from the American city of Calexico, Cal. It is situated on the Imperial Valley branch line of the Southern Pacific Railway, 41 miles south of Imperial Junction.

Two men were in command of the rebel invading party. Leyva appeared to be chief in command. His aid was Simon Barthold, a socialist agitator from California, known in Los Angeles and various coast cities.

Children Cry FOR FLETCHER'S CASTORIA

A machine now on sale in Denver is advertised to make two pounds of butter out of one pound. A pound of butter and a pint of cream are placed in the machine and merged into two pounds of butter. When the process is finished the butter contains from 35 to 50 per cent water, while the federal law limits the percentage to sixteen.

THIRTY YEARS TOGETHER.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—the worthiness of a bad one. So there's no guess work in the evidence of those who have used Dr. King's New Discovery for 30 years, and its best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it for forty years. It's the most infallible throat and lung medicine on earth. Unparalleled for influenza, grippe, hay-fever, croup, quinsy or sore lungs. Price 50c, \$1.00, trial bottle free. Guaranteed by all druggists.

Carlyle an Intemperate Smoker.
For about seventy of his early years Carlyle smoked and made most of his contemporaries smoke. The trouble with him was that he was too fond of smoking a rank pipe on an empty stomach. That gave him pains and his contemporaries particularly pains, for "putr and Carlyle" was as savage as a bent horse dog all the time. He cured for two men in the world, Tompkinson and Dickson. All the rest were "putr, feckless, reckless, intemperate bladders and gas bags," and all because Tom did not know how to clean his pipe and keep it clean and would smoke before breakfast.—Tobacco Leaves.

BACKACHE, RHEUMATISM, SLEEPLESSNESS

Result from disordered kidneys. Foley's Kidney Pills have helped others, they will help you. Mrs. J. B. Miller, Syracuse, N. Y., says: "For a long time I suffered with kidney trouble and rheumatism. I had severe backache and felt all played out. After taking two bottles of Foley's Kidney Pills my backache is gone and where I used to lie awake with rheumatic pains I now sleep in comfort. Foley's Kidney Pills did wonderful things for me." Try them now.—F. S. Duffy.

Family Preserves.
The following recipe was sent to the editor of a newspaper who had established a household column. It was evidently given by a person of experience:
To make a good jam place one finger or possibly two lightly on the upper edge of an open desk or bureau drawer, close the drawer quickly with the other hand and keep closed for two or three seconds.
Open it, remove the finger or fingers, adding plenty of interference. This recipe has been tried by every member of my family and has never failed.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it ought to get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

INDEXING BOOKS.

The Custom is an Old One That Developed Rather Slowly.

The custom of indexing books developed gradually. Clerks used the word "index," but in the sense of a table of contents. Seneca provided some works which he sent to a friend with notes of particular passages, "so that he who only aimed at the useful might be spared the trouble of examining them entire." This was at least a partial "index" in the modern sense. Annotated, or at least explanatory, tables of contents seem to have preceded the index proper.

Such tables followed the order of appearance of the subjects in the book itself. Alphabetical arrangement, which was the beginning of the real index, appears not to have been thought of until the invention of printing, and even then it spread but slowly. Erasmus was one of the first to provide his works with alphabetical indexes. The custom did not become universal until well into the sixteenth century.

The first index to an English book is said to be that printed in Polydore Vergil's "Anglice Historiae," in 1546. An edition of this work published ten years later has an index of thirty-seven pages.

Proper Breathing.
To breathe properly take a deep slow breath, another and another. Put both the hands on your ribs and see how they expand and contract as you breathe in and out. Put one hand on the low ribs in front and the other opposite it on the back. Feel how the back swells as you breathe. There is a powerful muscle called the diaphragm that divides the chest from the abdomen. As the heart and lungs are in the chest, the diaphragm may be called the floor of the chest. It is fastened to the backbone, the ribs and the sternum, or breastbone. And when people speak of diaphragmatic breathing they mean just what we are doing now—filling the lungs with air and emptying them by the expansion and contraction.—Boston Herald.

Cleverness and Cunning.
Cleverness and cunning are incompatible. I never saw them united. The latter is the resource of the weak and is only natural to them. Children and fools are always cunning, but clever people never.—Byron.

SIX VILLAGES ARE RUINED

Tidal Wave's Destruction at Manila Greater Than Reported.

Manila Feb. 1.—Reports from the region of Mount Taal, on the island of Taal, show the volcanic eruption and subsequent tidal wave to have been far more destructive than at first believed. It is now feared that 600 people lost their lives in the six villages that were practically destroyed.

Talisay, Tanauan, Calambra, Lemery Taal were almost obliterated by the quake and influx of water. These towns are now depopulated, the survivors having fled to escape a repetition of Mount Taal's violence.

The entire island is enveloped in a thick layer of mud, which has worked incalculable damage to the vegetation. Orchards are bentened to the ground and even houses crushed by the weight of falling mud and ashes.

Gossip and Scandal.
Many people confuse gossip with scandal, but the two things are quite different. The scandal monger is usually detested, while the gossip is often universally popular. In fact, the popularity which it brings in its train is one of the strongest incentives to gossip. A really accomplished gossip is a social acquisition. Thousands of people who do not gossip themselves like to listen to it. It saves them the trouble of talking. The gossip is generally good natured. The scandal monger seldom is. After all, what is more interesting than human nature? That is the stock in trade of the gossip, as it is of the novelist and dramatist.—London Gentlewoman.

Anne Boleyn and the Lemon.
Who ever thinks of connecting such a commonplace article of diet as the lemon with the romantic history of ill-fated Anne Boleyn? Yet indirectly she was the cause of its first introduction into England and so into popular notice. Henry VIII gave such splendid feasts and pageants in honor of the coronation of Anne and of their previous nuptials as had seldom been accorded to queens of the blood royal. These highly entertaining were in turn followed by the great civic feasts of London, for which the whole world was searched for delicacies to add to the splendor. At one such banquet, graced by the presence of the royal pair, a lemon was introduced as an elegant novelty. To an epicure such as Henry the acquisition of a castle in France would have proved less acceptable, and such was the importance attached to the discovery—so says an old biographer—that a special record was made of the fact that the cost of this precious lemon was six silver pence!

Unavoidable Delay.
A woman went before the magistrate and modestly inquired:—"Your honor, can I have a warrant for the arrest of my husband? He boxed my ears yesterday."
"Certainly, ma'am," replied the judge. "I will make out a warrant on the ground of assault and personal injuries."
"Can I fetch the warrant in about a month?"
"In a month? Why won't you take it at once?"
"Please, your honor, when my husband slapped my face I took my rolling pin and hit him on the head so that he had to be removed to the hospital. The doctors say, however, that he will be on his legs again in a month."

Fedatory habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, are the most common causes of stomach troubles. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will soon be well again. For sale by all dealers.

The Brown Rat.
The best way to make a good clear space of rats is to turn a cobra into the place they inhabit. It will clear them out in an amazingly short time. But most people prefer the rats. Were it not for cats, owls, weasels and a few other animals in combination with man, in a short time the whole country would be one vast rattry, for the rate at which these animals increase is stupendous. They are without doubt one of the worst forms of vermin, but they possess one good quality. In a tight corner few animals are more courageous than the brown rat. Rats had pressed have been known to fly at a man's throat. Two or three, secure in a little fortress with a small opening only large enough for one at a time to come in and go out, will defy a score of ferrets, and if one ferret with more courage than his brothers does venture to enter the lions' den he must look well to himself or he will never come out alive.—London Globe.
