NEWSPAPER WHISKEY ADVERTISING.

The coming out of the Greensboro News, in its public declaration that no longer will it accept whiskey advertising, is a progressive move that its proprietors will never regret.

Refusing to accept whiskey advertising need not indicate fanaticism or prudery. To accept whiskey advertising is not a sign of business sagacity, because it is a way to make "easy money" by forcing those who have a contra band article to pay a high price for the introduction of their goods by allowing display advertising in territory where the law forbids the manufacture and sale of these goods.

The prohibition law in North Carolina was enacted and voted for by a large majority, thus emphasizing the will of the people of this Commonwealth. The fact of a minority vote in no way lessens the force and integrity of this State's prohibition law, and this being true it is the duty of every citizen to uphold this law. Laws are laws for every one to observe, and the prohibition law, particularly by its great majority vote would seem to call for a stronger upholding than many of the laws that are but legislative enactments.

If public sentiment expressed at the polls means anything the prohibition law call for a united maintenance by every one. In this upholding of the prohibition or any law, what influence should be first and always in front but the newspaper? The whiskey ad like the near beer saloon is but making the prohibition law, an evasion that no self-respecting newspaper can countenance in its columns, much less endorse by its acceptance and publication.

WAR IS BUSINESS

NOT SENTIMENT.

The romance and chivalry that once made war themes for poetry and song, is not seen today. The nation going to war must have the financial backing to as great an extent, as it has men and battle ships. Gold is the basis of war in this age, and the nation engaging in the war game must provide in advance, and not entertain the delusion that it can live off the enemy. And war is not just for the two nations engaged. It affects not only the nearby nations but the entire world, and the most powerful nation today is not going to let even a petty little country start any war, unless there be protection and a guarantee to preserve international rights. There may be revolutions and insurrections, but unless the country in which these break out, the rulers, can curb the insurrectionists; there is going to be a change of rulers.

The Mexican disturbance is an example. Some two billion dollars of outside money is invested in Mexico, and the investors are far from satisfied with the Diaz government which cannot check the insurrection. There is no longer confidence, and those who have money in railroads, mines, plantations, etc. demand that their country, the United States, specifically, England and Germany in western as well, shall give Mexico a government that shall insure peace and safety for their investment. There is no pleasure to any Mexican president that may be

involved. There is the one issue, protection, certain and sure to investors, and Mexico must give this protection, or the present government must stop, and a stable government, one that can preserve the investors properties, be set up. There is going to be no war these days, that is of the Sherman brand for financial interests and investors.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

minute jellyfish.

In the northern seas there exists an extremely minute jellyfish, termed Lilia koelkeri, which are so transparent that a single individual can scarcely be seen in clear water and so small that a wineglass of water can contain 8,000 of them. Yet this jellyfish occurs in such numbers off the coast of Greenland that the sea is at times tinged brown by its presence.

WOMEN

Women of the highest type, women of superior education and refinement, whose discernment and judgment give weight and force to their opinions, highly praise the wonderful corrective and curative properties of Chamberlain's Stomach and Liver Tablets. Throughout the many stages of woman's life, from girlhood, through the ordeals of motherhood to the declining years, there is no safer or more reliable medicine. Chamberlain's Tablets are sold everywhere at 25c a box.

How Sheridan Paid a Debt

No one knew better the power possessed by a really polished compliment than Sheridan, and on innumerable occasions during that stormy the atrial management of his did he extricate himself from a difficulty by means of one. A good instance is the following: An English nobleman who had married a beautiful actress once applied with much dignity in the greenroom to Mr. Sheridan for the arrears of her salary and vowed that he would not set till they were paid.

Graveyard Marriages.

A strange custom prevails among a certain tribe in the Caucasus. When a single young man dies some one calls upon a bereaved parent who has carried to the grave a marriageable daughter in the course of a year and says: "Your son is sure to want a wife. I'll give you my daughter, and you shall deliver to me the marriage portion in return." A friendly offer of this description is never rejected, and the two parties soon come to terms as to the amount of the dowry, which varies according to the advantages possessed by the girl in her lifetime. Cases have been known where the young man's father has given as much as thirty cows to secure a dead wife for his dead son.

FOLEY KIDNEY PILLS

FOR RHEUMATISM, KIDNEYS AND BLADDER. The negotiations for the loan of \$50,000,000 to China by American financiers are in final shape.

WARNING TO RAILROAD MEN.

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroading. Geo. E. Bell, 689 Third St., Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroading left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley's Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley's Kidney Pills to many of my railroad friends." - F. S. Duffy.

Warranted Not to Fail.

Doctor—Your wife needs outdoor exercise more than anything else. Husband—But she won't go out. What am I to do? Doctor—Give her plenty of money to shop with.

Knew All About It.

"Do any perquisites come in your way at the office?" "Not much they don't. We have a husky janitor who throws them kind of folks out." - Baltimore American.

When you have rheumatism in your foot or instep apply Chamberlain's Liniment and you will get quick relief. It costs but a quarter. Why suffer? For sale by all dealers.

The Original Paul Pry. Thomas Hill, familiarly called Tommy Hill, was, says Dr. Brewer, the original Paul Pry. It was from him also that Theodore Hook drew the character of Gilbert Gurney. Planchin in his "recollections" says of Hill: "His specialty was the accurate information he could impart on all the petty details of the domestic economy of his friends, the contents of their wardrobes, their pantries, the number of pots of preserves in their store closets and of the table napkins in their linen presses, the dates of their births and marriages, the amounts of their tradesmen's bills and whether paid weekly or quarterly. He had been on the press and was connected with the Morning Chronicle. He used to drive Matthew's crazy by ferreting out his whereabouts when he left London and peeping the information in some paper."

The most common cause of insomnia is disorders of the stomach. Chamberlain's Stomach and Liver Tablets correct these disorders and enable you to sleep. For sale by all dealers.

JUST IN TIME.

Some New Bern People May Wait Till It's Too Late.

Don't wait until too late. Be sure to be in time. Just in time with kidney pills Means curing the back. Before backache becomes chronic; Before serious urinary troubles set in Doan's Kidney Pills will do this. Here is New Bern testimony to prove it.

Mrs. William T. Hadder, 126 East Front street, New Bern, N. C., says: "I have had no occasion to use any kidney medicine since Doan's Kidney Pills cured me in 1908. I publicly endorsed them in January of that year, and at this time I give you permission to continue the use of my statement. My back ached nearly all the time and was often so severe that I could hardly get out of bed in the morning. The kidney secretions bothered me and I felt tired and languid. Doan's Kidney Pills were so highly recommended that I got a box from Bradham Drug Co. It did not take them long to restore me to good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States. Remember the name—Doan's—and take no other.

It is planned to electrify the Chesapeake beach railroad from the District line and to extend it to Drum Point.

President Taft returned to Washington and assured Mexican Minister de la Barra that the concentration of troops along the border was for patrol purposes and maneuvers only.

Children Cry FOR FLETCHER'S CASTORIA

A New Illness.

A Chicago broker, who is not noted for his humor nearly so much as he is famed for his fear of his wife, found himself in his club at dinner time one evening much the worse for drink. He called a messenger boy and, with great difficulty, wrote this note: "Dear Wife—Will not dine at home. Have been taken unexpectedly drunk." - Popular Magazine.

FOR DISEASES OF THE SKIN.

Nearly all diseases of the skin such as eczema, tetter, salt rheum and barbers' itch, are characterized by an intense itching and smarting, which often makes life a burden and disturbs sleep and rest. Quick relief may be had by applying Chamberlain's Salve. It allays the itching and smarting almost instantly. Many cases have been cured by its use. For sale by all dealers.

Hard on Baby.

First we teach the baby to talk and then we teach him to hold his tongue. - Smart Set.

A MOTHER'S SAFEGUARD.

Foley's Honey and Tar for the children. Is best and safest for all coughs, colds, croup, whooping cough and bronchitis. No opiates. - F. S. Duffy.

A Good Lesson.

Riley—How about that gold mine you bought stock in last year? Smiley—Why, we've called it "the Bulldog." It's the bravest little mine you ever heard of. Riley (puzzled)—Bravest? Smiley—Sure! There isn't a yellow streak anywhere in it! - Puck.

SPRING MILLINERY OPENING

Miss Blythe's Establishment A Scene of Activity All During Yesterday.

Yesterday was an occasion of importance to the ladies of this city as the annual elaborate Spring millinery opening of Miss Sadie Blythe was in full progress all during the day. If as many ladies visit the store today and tomorrow as did yesterday, from the viewpoint of attendance and results this opening will make a record for the establishment.

The decorations were unusually effective in design and appointment and they were complimented by every patron who called during the day. The decorative scheme was green and white. Potted plants bamboo and artificial flowers were used with much taste and beauty and the effect was very pleasing indeed.

There were many beautiful hats on display and many orders have already been placed by those who called yesterday. Despite this fact, however, there are countless creations of art still on exhibit and it is expected that the majority of these will be sold before the exhibit has closed.

Tri-cornered shapes Duchess bonnets are plentiful, so are Bolero shapes with brims rigidly turned up all around. These latter are shown not only in the customary sizes but in the large ones as well. Unusually handsome and picturesque are the larger shapes.

A very pretty model was a Bolero sailor made of hemp and trimmed with a large butterfly made of maline and gold cloth.

The old but still popular Gainsborough is still in vogue, this time trimmed with white Oriental lace over lavender-crepe with the crown made of rose petals and overtopped by two willow plumes.

Cabriolet Bonnets and Pokes are having a revival, and promise very well for Summer. Every conceivable shape pertaining to the First Empire period is the height of fashion in Paris according to the latest reports. This means a revival of the Conch, the Phrygian Cap the Casque shaped like the helmet of a Roman gladiator, and a variety of Turbans and quajut Poke Bonnets, a lot of which were the accepted styles in Empress Josephine's days. Smart Panama hats are shown, which in outline, bear close resemblance to the Charles V Hat. The style will be seen in the court dresses of Spanish Grandees. This hat is a tall crown, straight and a trifle smaller in circumference at the top, and a rather narrow brim rolled upon one side but otherwise flat.

Among the Spring materials, Hemp, Horsehair, Leghorn, Milan Chip are the ones chiefly employed in the blocked shapes. Many hats are shown in braids of all kinds as well as in plateaux of every denomination. Straw shapes are very good, so are tagal and hemp all over, shown mostly in a lid colors, but in a variety of fancy weaves. Combinations of lace and straw are frequent and are featured among the most exclusive Spring novelties in Parisian millinery. Crown bands with rounded tab ends are shown which are comprised of inch-wide applique insertion, alternating with narrow strips of leghorn or Tuscan braid.

The opening will continue until tomorrow evening and every lady in this city is extended a cordial invitation to attend the store and inspect the display.

FORCED TO LEAVE HOME.

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "I cured me of lung trouble," writes W. R. Nelson, of Calanine, Ark., "when all else failed and I gained 47 pounds in weight. It surely the king of all cough and lung cures." Those who owe their lives and health to it, it's positively guaranteed for coughs, colds, lagrippe, asthma, croup—all throat and lung troubles, 50c and \$1.00 Trial bottle free at all Druggists.

Two Men That Knew.

In an article on Thomas B. Reed in the Century Henry Cabot Lodge recalls an anecdote which Reed used to tell with glee. It was about his examination for admission to the bar of California. A young southerner came before the judge for examination at the same time. The judge asked the southerner if the legal tender acts were constitutional and the young man answered without a moment's hesitation, "No." Then the judge turned to Reed and asked him the same question. Mr. Reed with equal promptness answered "Yes."

Very well, said the judge, "you are both admitted. Two men who can answer that question without hesitation ought to be admitted to any bar."

"Foley's Honey and Tar is the best cough remedy I ever used as it quickly stopped a severe cough that had long troubled me," says J. W. Kuhn, Princeton, Neb. Just so quickly and surely it acts in all cases of coughs, colds, lagrippe and lung trouble. Refuse substitutes. - F. S. Duffy.

The Auger Fish.

The auger fish, half fish, half crab, is the terror of all vessels but iron-clads that use the south sea. This creature, which is not bigger than a snail, has a proboscis like an enlarged gnat sting that can bore through even sheet iron. Auger fish frequent many of the lagoons of the coral islands and burrow holes for themselves in the coral, but they have a peculiar habit of doing the same thing to ships lying at anchor, and the damage done by it is very great when the vessel is at anchor in bad weather with the sea running.
