

We use Live Leather only

Some shoe dealers will tell you they can't give you a good, durable shoe for \$2.00 or \$2.50. They are right, they can't. The \$2.00 shoe they sell is made to fill a demand at this price—not to wear. It is made of seconds—from sole to heel.

The Southern Girl \$2.00 Shoe \$2.50

This shoe is an "Autograph" brand, \$2.50 and \$3.00. In our College Women's Walking Shoe, \$3.00, \$3.50, \$4.00. It equals the best custom made.

is a revelation to every woman who tries it for the first time. In style it is the equal of shoes that cost double the money. It makes the foot feel perfectly at home. It wears better than any shoe you ever bought for \$2.00—because we use live leather—a quality sole, insole, counter, heel, linings. How can we afford it?

Go to the Craddock dealer in your town; he knows—he will tell you. Look for the Red Bell on the Box.

CRADDOCK-TERRY CO.,
Lynchburg, Va.

SHORT PASSING EVENTS

FRIDAY.

There are now 17 people confined in Craven county jail. Of this number several are women. Jailor Williams informed the writer yesterday that there was no sickness among any of his "boarders" and that all of them seemed content with their environment.

Last Wednesday morning Helmet Hartwig, a young white man who resides in this city and is employed by the Norfolk-Southern Railroad Company, had the misfortune to get both of his legs badly mashed in a freight wreck near Chocowinity. He is now in the hospital at Washington.

In the case of Deppe, Adm. vs. A. C. L. R. R. Co., which was tried in the Superior Court this week the jury returned a verdict in favor of the plaintiff allowing them damages in the sum of \$4,042. This action was brought after several buildings, the property of the plaintiff, had been destroyed by sparks from the defendant's locomotives.

The reporter was informed yesterday morning that the condition of the young man Edwards who is now confined in Stewart's sanitarium suffering from the effects of an overdose of bichloride of mercury which he took Wednesday afternoon in an attempt to end his life, was much improved and that he would doubtless be able to be on the streets gain within a few days.

Rosecoe Rivenbark, the young Goldsboro man who killed a woman of ill fame in that town a few months ago was placed on trial for his life Wednesday morning. His counsel offered a plea of insanity and after the evidence had been heard the jury returned a verdict in accordance. The judgment was that Rivenbark be committed to the State's prison criminal insane department until such time as he shall be legally discharged.

SATURDAY.

There was no session of the police court yesterday on account of the primary being held. There are several cases on the docket but they were postponed until today.

Mr. G. S. Waters, of the firm of G. S. Waters & Son, informed the writer yesterday that his firm had recently added an automobile repair department

LOST APPETITE AND HOPE

Neglected Cold Caused Complication, Promptly Restored by Peruna.

Mr. Rosa Boyer, 1421 Sherman Ave., Evanston, Ill., writes: "If any one has reason to praise Peruna it is surely myself. Last spring I became so run down from the serious effects of a lingering cold, that several complications united in pulling me down. I could neither eat nor sleep well, and lost flesh and spirit. It was a long trial. I tried Peruna and it did wonders for me. In two weeks I was able to eat and sleep well, and in a month I felt better than I ever had."

FOR RECORDERS COURT

It is wonderful what an imagination some people have. It is easy to draw on one's imagination when facts help on one side of an argument cannot be secured.

An opponent of the Recorder's Court recently said,

"Any one familiar with the jail knows that for many months the convicts, who were then working near town, were brought to the jail each night, and they were also fed there."

A Recorder's Court certainly could not have helped save much expense in that case."

The fact is the prisoners did sleep in the jail, but they were fed from an entirely different fund than that quoted in this paper in yesterday's issue.

If some of the opponents to the establishment of the Recorder's Court would cut out personality and get down to serious facts they might have more influence with serious thinking men.

We have shown in previous articles where the establishment of a Recorder's Court for Craven county would save a large sum of money annually to tax payers. We have quoted from Chairman of County Commissioners, Mayors, and other prominent public citizens telling of the good work that the Recorder's Courts are doing for their communities. None of these statements have been denied.

The Honorable, Aubrey L. Brooks, who for ten years was Solicitor of the Ninth District has the following to say:

"This court has been in operation here (Greensboro) for about a year and a half, and I think almost without exception the people and the bar are pleased with its results. In large communities where there are a great many petty offenses, such as would naturally arise in New Bern, Greensboro, Durham and similar places, this court disposes quickly of the offenders, saves jail fees and quickly facilitates the trial of such offenders, so as to relieve the Superior Court docket of much congestion, which has been incident to the former practice. I understand from the county Auditor here that the first year's operation of our Municipal Court proved a saving to the county of about \$250,000 and an increase in revenue to the city of Greensboro, by way of fines of about \$300,000. I notice from the grand jury report at this week's term of Guilford Superior Court that only twelve indictments were returned. During the ten years that I was Solicitor of this District I do not recall any term of court here in which there was less than fifty and some time one hundred and fifty indictments found."

From a considerable experience with the administration of the criminal law, I unhesitatingly approve of Municipal and Recorder's Court, and believe that under our present judicial system it is by far the most feasible and successful method of relieving the congestion in the Superior Court, at the same time satisfactorily administering the criminal law."

Yours very truly,
W. J. CRISWOLD,
Mayor.

Those who cannot pay their fines and those that in the judgment of the Recorder should do so, go to the roads, are sent there as soon as they are convicted.

The Recorder's Court, since it has been in operation here, has shown a profit rather than an expense to the county. Our Recorder gets \$1,200.00 a year, and our prosecuting attorney gets \$1,000.00 a year, both of which are paid from the proceeds of the Recorder's Court, and there is usually a balance which is equally divided between the county and city after paying all the expenses, viz. Recorder, Prosecuting Attorney, and Clerk.

What is Electricity?
Many persons young and old often wonder how the modern electric cars, trains and locomotives are operated and what electricity is. No one knows what electricity is. We know some of the things that it will do. We have to a certain extent learned how to control it and for want of a better name call it a fluid. We have discovered, too, that it is one of the most important forces, if not the most important force, of which we have any knowledge. We are almost as ignorant of many other great forces of nature—as, for example, the attraction of gravitation. For the present we must be content to observe such forces in action and to devise the best methods to control them. In this knowledge mankind has progressed wonderfully within a few years.—St. Nicholas.

A GOOD RECORD.
The Washington Recorder's Court has so far tried since it was started on February 20 to April 1, 59 cases. In all these cases there were only six acquittals. There has been turned into the county from the court in the way of fines two hundred and twenty-five dollars. There was one case for murder and one case for embezzlement. Both of these cases were bound over to the next term of Beaufort county superior court.—Washington News April 13th.

RECORDER'S COURT QUITE EFFECTIVE IN DURHAM.
Durham, N. C., April 4, Mayor's office City of Durham.

Dear Sir:—I am in receipt of your esteemed favor of April 1st, inquiring about Recorder's Court of Durham. I would say that generally speaking the people here are very well satisfied with it. Of course you always find some one that is opposed to almost anything in which there is a change. Before we established a Recorder's Court which only governs Durham towns up, our jail was always crowded with the class that commit small misdemeanors and afterwards ran the city and county to a great deal of expense in the way of feeding prisoners that would be necessary to keep in jail. Since the establishment of the Recorder's Court our jail is kept practically empty, as all these small offenses are tried either the day or the next day after they are committed, and the cases are disposed of at once.

Old Furniture.
Mahogany or Rose Wood needs simply washing and a coat of Varnish. The L. & M. Home Finish Varnish is the best.

If painted wood-then wash it, and apply one coat of L. & M. Domestic Paint. Makes Furniture as good as new at a cost of about 25 or 30 cents. Get it from Gaskill Hardware & Mill Supply Co., New Bern, N. C.

Japan's Snapping Turtle Farm.
One of the oddest farms in the world turns out each year tens of thousands of snapping turtles and has solved the problem of preserving the supply of what is to the Japanese as great a delicacy as diamond back terrapin is to some Americans. This queer farm consists of a number of ponds. Certain of them are set apart as breeding ponds. Once a day a man goes over the shores and with little wire baskets covers up all new egg deposits. Sometimes thousands of these wire baskets are in sight at a time marking the places where the eggs lie and preventing turtles from scratching the earth from them. Hatching requires from forty to sixty days, according to the weather. The young as soon as they appear are put in separate small ponds and are fed with finely chopped fish. They eat this during September and October and late in the winter, coming out in April or May. Most of them are sold in the market when they are from three to five years old, at which time they are most delicate.—Harper's.

Past That Now.
Bystander—My boy, some day you'll bring sorrow to your father's gray hairs. The Bad Boy—No danger, sir. Worrying about me has made him bald.—Philadelphia Times.

A Few Words.

A WEAK WOMAN AND HER STORY

In Floral, Ark., Lives a Lady Who Feels That Her Strength Was Restored by Cardui.

Floral, Ark.—"I must speak a good word for Cardui," writes Mrs. Viola Baker, of this place.

"About a month ago I was in very bad health. I was so weak and nervous that I was not able to do my housework."

"My husband bought me one bottle of Cardui, the woman's tonic. I took it according to directions and now I am in good health."

"I think Cardui is a fine tonic for weak women."

And you are not the only lady who thinks so, Mrs. Baker.

Thousands, like you, have written to tell of the wonderful benefit Cardui has been to them.

Cardui contains no minerals, or other powerful drugs. It contains no glycerin or other unwholesome ingredients.

It is just a pure, natural extract, of natural vegetable herbs, that have been found to regulate the womanly functions and strengthen the female system.

All druggists sell Cardui. See yours about it.

N. B.—Write to Ladies' Advisory Dept., Chas. H. Moore Medicine Co., Chattanooga, Tenn., for specific instructions, and for a booklet, "Household Remedies for Women," sent in plain wrapper, on request.

FIGHT AGAINST MORMONISM

On Increase in European Countries Efforts to Stem Growth of Mormon Propaganda.

London, April 17.—Almost hourly the crusade against Mormonism throughout the United Kingdom and Europe augments its forces with writers, religious teachers and artists, who, now that the campaign against Mormonistic propaganda is well under way, wish to join hands with those sworn in to stamp out this creed on European soil.

Foremost among those who are fighting the spread of Mormonism in England and Europe is Winifred Graham, the English novelist, who electrified the public with her book, "Exra the Mormon," which embodies a violent attack upon the creed. Miss Graham, in an article published in a London paper, makes the assertion that she has positive information leading her to believe that there are now well over 40,000 converts in the United Kingdom alone, and that proselytism is rapidly spreading throughout Europe where the golden future painted by the Mormon missionaries greatly appeals to the poor peasant girls. Miss Graham claims that if the spread of this creed is not stopped it will instill its invidious doctrine into the homes of England and work havoc with the established order of Christianity, she says:

"What we want is a great meeting to expose the wretched, ghastly hypocrisy under which the Mormon missionaries work. But the English people are very hard to stir, even when the case is as tragic as this."

Another writer, under an anonymous title, claims that there were over 4,000 converts to the Mormon faith during the past year, and that the Mormons are augmenting their missionary force with teachers imported from Utah, the home of the faith.
