FARMERS DESCEND ON SENATE

Attack Taft's Reciprocity Policy. Think It Furthers Hill's Railroad Schemes.

Washington, May 12.—A militant delegation of farmers from Minnesota, descended upon the Senate Committee on Finance today with protests against the Canadian reciprocity agreement declaring that it was discrimination of the rank and file. It was free trade for the farmer and protection for the manufacturers.

"We repudiate the action of President Taft, manufacturers, boards of trade and the Great Northern Railroad Company, in their efforts to force this unjust proposition through Congress," said Henry Feig.

"The high cost of living is not due to the farmer. It is caused by the railroads and middle men. The farmers receive only 35 per cent. of the price paid for the commodity."

"Since the Civil War," declared P. E. Collins, editor of the Northwestern Agricultural paper, "there has been no question that so aroused people as has this iniquitous pact aroused the farmer. No other issue compares with it."

"I challenge President Taft to show that there is any justice in sacrificing the farmer to the interest of the manufacturers in the East."

"There are many unsophisticated men in the East who are easily deceived by Western jokers. You had a joker here in James J. Hill, president of the Great Northern Railway. Hill is no longer interested in the State traversed by his railroad. He has 20 spots extending from his railroad to the Canadian border and sees a pot of gold in the long haul involved in the development of the Canadian West. The lines will be extended into Canada, with a Dominion subsidy of \$10,000 a mile."

CRISIS IN MEXICO CITY

Conference of All Foreign Ministers Held at American Legation. Will be Neutral.

Mexico City, May 12.—A history making conference, having for its object the safeguarding of lives and property of foreigners, is in progress at the American legation.

Participating in it are the ambassadors, ministers, and charge d'affaires of all the countries represented in the diplomatic corps. The outcome is likely to be an offer to the Mexican government of the services of five thousand leading Mexicans and members of the foreign colony to act as a reserve police force and prevent murder and rapine in this city.

The foreign guards will be absolutely neutral. Their work will be confined to protecting the public buildings and the foreign quarters from assaults by bandits.

Feeling in the city now is divided over the result of the fall of Juarez. Some of the leading Mexicans believe it will make for peace, as it will bring President Diaz to a realization that only his immediate resignation will prevent a protracted civil war.

Others, and they are in the majority, say that Diaz cannot now relinquish his office, but must fight on to the bitter end. It is unofficially stated that the government will not change its plans to wage relentless warfare on the Mandarinos. The great fear here today is that the United States government, now that Juarez is in the hands of the insurgents, will recognize them as belligerents.

Albro-Wood.
Yesterday afternoon at 2:30 o'clock at the home of the bride on Broad street Mrs. Annie D. Wood became the bride of Mr. C. H. Albro, of Wilmington. Immediately after the ceremony the couple drove to the depot and boarded the train for Wilmington where they will make their future home.

Accident Yesterday Afternoon.
An automobile accident that came near proving fatal to the victim occurred on lower Middle street yesterday afternoon when Mrs. R. S. Primrose, who was driving her husband's car, ran into a dray belonging to the Gaskill Hardware Co. and driven by Henry Jones, colored. The machine was going down the street at a pretty lively clip, and in the crowded condition in which the street was, it was impossible for Mrs. Primrose to avoid striking the dray when Jones turned the corner. When the collision occurred Jones was thrown to the pavement and sustained serious injuries. He was taken into a nearby drug store where after medical attention had been rendered him he was carried to his home. The automobile was badly damaged, but fortunately none of its occupants were injured.

Not Very Inviting.
Dining car waiters on railroads in India ate beef-steak dinners in hot white gowns held in at the waist by a broad band, their heads wrapped up in progress in light suits. The dinner service, says an English paper is rough and coarse and the price higher than in this country. Most of the food served comes in tins. Between courses dishes are piled on the floor. India is a land of contrasts, and this contrast between the dirty black feet and the dirty white dishes is one of the things to which the traveler gets accustomed but never reconciled.

GARIBALDI IS PROMOTED

Victorious Colonel Will Lead Advance on The City of Mexico.

El Paso, Tex., May 12.—Two thousand and insurgents, part of the band operating in the districts south of here, are reported today to be marching on Chihuahua.

Already the advance guards are encamped around the city. An armed mob just before daylight today entered Nombre de Dios a suburb looked all the stores and took all the horses and escaped, despite the presence of 1,500 Federal troops in nearby barracks.

Few of the insurgent leaders now believe that Diaz will discuss peace. They think he will elect to fight the battle to the end, and that it will be necessary for the rebels to capture Mexico City before the revolution will end. So strong is this feeling that a large part of the conference between the insurgent caudillos at Juarez is being devoted to discussion of the "most feasible way of approaching the national capital and the easiest way to capture it."

The insurgent leaders expect to have upwards of 20,000 troops by the time the Mexico City march is underway. Meanwhile General Orozco has completed his plans for engaging the relief forces of Colonel Rabago and General Luque, who are marching against Juarez. Orozco expects to experience no difficulty in disposing of these forces.

Provisional President Madero announced today that as a reward for excellent work in connection with the capture of Juarez, Colonel Giuseppe Garibaldi and his American legion will be assigned to lead the advance on Mexico City. This honor was requested by a number of the revolutionary chiefs, but Madero said that he considered Garibaldi had earned it.

Shriners Return Home.
Yesterday afternoon the annual Oases of the Ancient Arabic Order of the Mystic Shriners, ended which convened in this city Friday morning and the majority of the visitors returned to their homes.

At 10 o'clock yesterday morning the entire party of visitors assembled at the Middle street dock and at the revenue cutter Pamlico's landing where they boarded the Elfrida and the Pamlico for a delightful trip down Neuse river. At 3 o'clock yesterday afternoon they returned to the city, each one expressing himself as having the time of his life.

From the boat they repaired to the headquarters where cooling refreshments were served to them. At 5:30 the visitors were driven to the depot where they boarded their special cars enroute to their homes.

Each one of the visitors was profuse in his praise of our city, especially the hospitality of the citizens, and expressed an intention of returning here for a visit at the first opportunity.

SECRETARY OF WAR RESIGNS

No Reason Others Than Press of Private Business Given. Republicans Satisfied.

Washington, May 13.—Secretary of War Dickinson has resigned. President Taft has appointed Henry L. Stimson, recently defeated Republican candidate for governor of New York, in his place.

In the letters exchanged between the President and Mr. Dickinson, no reason other than that of pressing private affairs is given for the secretary's resignation.

Unofficially Washington tonight discussed with relish the resignation of the Secretary of War. Unofficially also there were those who found other reasons than that given in his letter.

Mr. Dickinson is a Democrat. His presence in the Cabinet of a Republican President has not been looked upon with favor by some of Mr. Taft's political advisors who were of the opinion that the office of Secretary of War should be held by some one of the President's own party and who also pointed out that Mr. Dickinson might prove a source of embarrassment when the 1912 Presidential campaign begins. Natural to Mr. Dickinson also found the discussion in the Cabinet on party measures often a personal embarrassment.

ILLEGAL FREIGHT DISCRIMINATION

More Rate Kicks, Oil, Fruit and Packing Products Complainants.

Washington, May 13.—Six oil refining companies have filed complaints with the Interstate Commerce Commission charging the Union Pacific and the Missouri, Kansas and Texas Railroads with violating the Interstate Commerce law regarding petroleum rates between Kansas and Nebraska.

On the eve of gathering their peach crop, Georgia fruit growers are informed that their petition to decrease the minimum carload weight, which rail roads apply to shipments to Northern markets, was rejected by the Interstate Commerce Commission as unreasonable.

The Interstate Commerce Commission began an investigation of rates on packing house products between Chicago and the Far West, and of charges made by railroads for the milling-in-transit of grain shipped to Chicago. Complaints in both cases charged illegal discrimination.

A number of local enthusiasts will also leave today and tomorrow to attend the event.

Hugo and Dumas.
During Victor Hugo's exile Dumas went to Guernsey, where Hugo received him kindly and took him to breakfast on a veranda overlooking the ocean. It did not take Dumas long to discover that Hugo was already posing as the prescribed prophet, and the poet said, with an Olympian wave of his hand, "You see me, my dear Dumas, on my rock of exile like the proscribed one of antiquity."

"Never mind," said Dumas, with his mouth full. "The butter is far better here than in Paris. There is no disputing that."

WAYS AND MEANS PEOPLE TO HAVE A BILL READY WITHIN TWO WEEKS.

Chairman Underwood Will Endeavor to Get His Committee to Agree Upon a Revision Next Week So That the Bill Can be Framed and Presented to the House Inside of Two Weeks.

Washington, May 15.—The Ways and Means Committee met today to begin the revision of the wool schedule. A majority of the Democrats on the committee is in favor of free wool, but does not believe it would be wise to make such a reduction at this time. It is thought that the cut will be about fifty per cent.

Chairman Underwood will endeavor to get his committee to agree upon a revision next week so that the bill can be framed and presented to the House inside of two weeks.

"We are certain of only one thing," said a member of the committee "and that is, that we will bring out a bill that every Democrat in the House will support. We will not have any serious differences on the floor of the House."

ADVANCE ON MEXICO CITY

All Saloons Closed and Soldiers Hurry to Suburbs to Meet the Invaders.

Mexico City, May 15.—The people here are greatly excited over a report that three thousand men are marching on the capital from Ajuzac, a town about fifteen kilometers south of here. The advancing rebels are said to be depending on thousands of armed insurgents scattered throughout the capital awaiting the psychological moment for an uprising. All saloons and pulque shops were ordered closed this afternoon, and rurales, soldiers and police are going to the suburbs, where trouble is looked for first.

The total number of soldiers, rurales and police here is now about sixty-five hundred, one thousand men being added to the police today. Two batteries of artillery have been at the national palace since yesterday. Business houses are closing and barring windows in fear of possible rioting. Except for the decided apprehension, however, the city is perfectly quiet.

Four Potent Objections to the Parcels Post.
There are a hundred reasons why we should have the extended parcels post, but four gigantic reasons why we should not. These are Adams, American, Southern and Wells Fargo Express Companies. We need the parcels post. And necessity is the mother of invention. But necessity is also the mother-in-law of prevention and the mother-in-law in this case is the Express Company with its necessity foremost, which is true of all well-regulated express companies and mothers-in-law. Yes, the big quartette, who have Senators among their stockholders, and so-called defenders of their "rights," regardless of the people and their corresponding wrongs, some way, some how, have kept Congress from passing the much-talked-of measure. From the People's Plea for the Parcels Post, Sophie Irene Lohb, in June Columbian.
