PROCEEDINGS IN SUPERIOR COURT

Yesterday Was a Busy Day, Quite a Number of Cases Were Disposed of.

Yesterday was one of the busiest days of the present term of superior court for the trial of criminal cases, and at the close of the session both the judge and the counsel were tired out. A large number of cases were disposed of, many of them being of considerable interest, and all during the day the court room was filled with spectators who were interested in the outcome of the different cases.

In the case of the State vs. S. H. Barnett, the young white man who was charged with the embezzlement of \$240 from the Hall Tailoring Co., of this city several days ago, and who was arrested at Wilmington and brought to this city and placed in jail to await a hearing, the grand jury failed to return a true bill and he was released from custody. The following other cases were disposed of during the day:

State vs. Will Jones, charged with larceny, guilty; 4 months on the county road.

State vs. Joe Anderson, larceny, guilty; 4 months on the county road.

State vs. Charlie Hall, assault, guilty; 60 days on the county road.

State vs. Robert Jones, carrying a concealed weapon, guilty; 60 days on the county road.

State vs. Oscar White, Charles Slade and David Bryan, larceny, guilty; six months each on the county road.

State vs. Ernest Cooper, abandonment, guilty; 3 months on the county road.

State vs. Ed Moore, retailing, guilty; 4 months on county roads.

State vs. Romeo Ebron, larceny, guilty; 4 months on county roads.

State vs. John Gaston, disturbing religious services, guilty; 60 days on the county road.

State vs. Henry Korman, larceny, guilty; sentence not yet passed.

To Kill Flies.

The following formula when properly mixed and not in some place at which they congregate will kill flies as fast as they alight upon it.

One tablespoonful of formalin in half pint cupful of equal parts milk and water. Expose this mixture in shallow plates with a piece of bread in the center, to permit more space for the flies to alight on to feed.

Opposing Any Party Until Women Vote.

Stockholm, Sweden, June 19.—At a sitting of the sixth Congress of the International Women Suffrage Alliance the Rev. Dr. Anna Shaw urged the suffragettes not to support any political party until they had been granted the vote. A resolution to this effect was adopted.

Teeth Now Needs Extracting Bady.

Shepard Harrison is a colored man, employed in one of the local livery stables, and takes his meals at the kitchen of the proprietor. Shepard is past the meridian of life, but he likes to conform to the fashion of the times, in dress, spectacles, gold filled teeth, etc. Some time ago a colored dentist set up shop in town, and Shepard forthwith discovered that he needed a new set of grinders, at least part of a new set, six or seven. They were procured and worn with great pride. Not pride, it is known, goes before a fall.

Yesterday morning while Shepard was eating his breakfast, his false front-teeth loosened and he swallowed them, every one knew the precious child he got them out of him.

It is far from a joke to keep. He was taken to the hospital and given medical attention, and his teeth extracted, but it is quite likely that he is scheduled for a surgical operation.

High Price Cotton Glass Ties.

Mobile, Ala., June 18.—The Mobile Cotton Mill Company, employing 150 hands, has shut down its plant. The Eastern States Mill, employing 300 hands, will work on a four days a week basis.

On account of the high price of cotton, which it is stated makes it impossible to produce a profit, the State Mills, with the thousands upon thousands of bales of cotton, have been ordered to stop spinning.

Washington, D. C., June 17.—Overriding a summer, Justice Wright, in the District Court, gave Federal Police G. Thompson, an indefinite suspension from duty, on a charge of bribery. It is alleged that Thompson, who is president of the Chamber of Commerce, sent a \$100 bill to Major W. P. Tamm, who was passing on a subpoenaed witness, and that the bill was held in Washington pending the trial.

ALLEGED WHISKEY DEALER CAUGHT

S. D. Jones, Of Fort Barwell, Arrested Yesterday By Revenue Officer.

For some time the revenue officers in this section have known that some one at Fort Barwell or in that vicinity was engaged in the sale of whiskey. A quiet investigation was made with the result that S. D. Jones, of that place was arrested at Maple Cypress charged with selling whiskey without a government license.

Deputy Marshall Lill made the arrest on a warrant sworn out upon complaint of Deputy Collector Cameron by Commissioner C. B. Hill. Upon being questioned in regard to the matter Jones solemnly declared that he had never sold a drop of whiskey in his life and his arrest was entirely without foundation, but when he was carried before Commissioner A. J. Loftin, at Kinston, three witnesses swore positively that they had purchased whiskey from him.

Despite this fact, however, Commissioner Loftin allowed the defendant a continuance until he could have a number of witnesses subpoenaed to prove that he was not guilty.

Tabernacle Pic Nic.

Onslow County, June 14.—There will be a picnic at Tabernacle on the 29th of June. Every body come and bring well filled baskets.

Managers.—D. S. Aman, D. R. Phillips, W. H. Mallard, S. B. Holland, M. R. Sabiston, C. B. Melville.

Trade Report.

Bradstreet's tomorrow will say for Richmond and vicinity:

Rains have broken the long drought which has existed throughout the district and improved crop conditions are noted, though the wheat and hay crops have been affected beyond recovery. Cotton is reported growing satisfactorily. In most lines in the wholesale trade business is quiet. Provisions are moving north more easily, however, slight increase in prices is noted. Manufacturers and dealers in paints, oils and varnishes report good sales, and locally the demand for building is active, building especially in large structures being active. Lumber is quiet except in hardware. Retail trade shows some improvement. Collections are fair.

Neither Side Satisfied With Decision.

El Paso, Tex., June 16.—The International Arbitration Court which has been sitting in the so-called Chamizero case in El Paso to decide ownership of seven million dollars' worth of property is the southern part of El Paso has rendered its decision which is a compromise.

The decision gives Mexico part of the land in question and El Paso part of it. Both the United States and Mexico dissent.

Pays Loving Tribute To Memory of Mistress.

Fredericksburg, Va., June 15.—A simple and touching tribute was paid for "Missie" by an old negro woman a few days ago. Willie Carter, a former slave in the family of the late J. P. Coakley, of Spotsylvania, has been living in California since a short while after the war. She has prospered and a few days before the last Decoration Day she sent a check for \$5 to be used in purchasing flowers for her former mistress' grave. This act shows the pure loyalty that still exists among the old negroes for their ante-bellum owners.

SUPERIOR COURT NEARING CLOSE

Today The Last of a One Week Term. Number Cases Disposed of Yesterday.

Today is the last day of a one week term of Craven County Superior Court for the trial of criminal cases which has been in session here all this week and when the last case has been concluded both judge and the counsel will doubtless breathe a sign of relief for the past few days have been very strenuous ones for them. At yesterday's session the following cases were disposed of:

State vs. J. E. Gosley, of Bridgeton, charged with false pretense the jury rendered a verdict of not guilty.

State vs. Matthew Williams, charged with retailing, found guilty and sentenced to serve a term of 3 months on the county road.

State vs. Bud Green, charged with resisting arrest, found guilty and sentenced to serve 30 days on the county road.

One or two other small cases were also disposed of during the day by the defendants paying all of the costs.

Will Confine Their Work on Tariff.

Washington, June 16.—An attempt to extend the legislative program of the Democratic majority in the house at this extra session of Congress failed completely at a caucus of the Democratic representatives. The result is a reinforced determination of the Democrats to confine their legislative efforts at this session to the tariff.

Among matters which the caucus turned down was the bill providing for a change from three to five years as the enlistment period in the army and other organization bills introduced by Chairman Flay, of the committee on military affairs. Bills which the committee on naval affairs wished to have passed at this session and other minor bills and emergency measures were denied consideration.

"The action of the caucus simply means that we will go ahead with the tariff program as originally outlined at the opening of the session," said Democratic Leader Underwood. After the caucus several members declared there might be another caucus later to determine upon a short extra program, but the party leaders expressed the opinion that nothing further would be added to the legislative program.

Rheumatism Relieved in Six Hours

Dr. Detchon's relief for Rheumatism usually relieves severest cases in a few hours. Its action upon the system is remarkable and effective. It removes at once the cause and the disease quickly disappears. First dose: 75c and \$1.00. Sold by Bradburn Drug Co.

Uncle Sam's Strong Box In Good Shape.

Washington, D. C., June 6.—The end of this month promises to find the Federal Treasury in a better condition than it has enjoyed for two years. While the fiscal year already shows an ordinary surplus of more than \$8,000,000 against a deficit of \$13,000,000 a year ago at this time, there is promise that the total deficit now standing at \$21,000,000 may be much reduced before the new fiscal year begins.

All corporate taxes should be in by the end of the month. Nearly \$2,000,000 has been paid so far this month. The estimated total income from that source is \$28,000,000.

All sources of income except customs receipts have produced more this year than last year. Expenditures will show little change.

Ohio Cities Will Have Right to Recall.

Cleveland, June 16.—Ohio cities today have the privilege of initiative and referendum, as the result of the signing by Governor Harman of the Crosser bill. Thirty per cent. of the vote is necessary for petition.

Senate Confirms Appointment of Lewis.

Washington, June 16.—After a fight lasting more than two months the Senate today confirmed William H. Lewis, the Boston negro attorney, to be Assistant Attorney General of the United States. The fight on Lewis' confirmation was waged by Southern Senators who presented a motion.

WANTS ROCKEFELLER PROSECUTED

Pathway Marked By Many Victims Says Ohio Senator.

Washington, June 16.—Making a direct demand for the criminal prosecution of John D. Rockefeller, Senator Pomerene (Dem., Ohio) delivered a powerful arraignment of Standard Oil and Tobacco Trust magnates in the Senate, saying of Rockefeller:

"His pathway is marked by a greater number of victims whose business careers have been ruined by his unlawful methods than that of any other man in the industrial history of this country, and yet he has gone unwhipped of justice."

In his peroration Pomerene exclaimed:

"Speaking for myself, I think it high time the American people should understand whether the Stars and Stripes are to be the emblems of their power and authority or the emblems of the oil barrel and the tobacco tag!"

Pomerene spoke on his resolution instructing Attorney General Wickham to institute criminal proceedings immediately against the men behind the big trusts recently found guilty by the highest court. In part he said:

"The law is no respecter of persons, and the Government ought not to be. Statutes should be enforced, or they should be repealed. The poor and lowly are not above the law, and the rich and the strong in combination ought not to be permitted to violate it with impunity."

King Cotton Clothes World Potentates.

San Benito, Texas, June 16.—President Taft, the King of England and the Governor-General of Canada are to be presented with suits of clothes made from the first bale of cotton of this season's growth.

At a meeting of the Commercial Club of San Benito it was decided to trace the cotton, which was raised in this country, to Manchester, England, where it is destined, and have it woven into cloth from which the clothes are to be made.

Shows Steady Growth.

We desire to call attention to the advertisement of the State Normal and Industrial College which appears in this issue. Every year shows a steady growth in this institution devoted to the higher education of the women of North Carolina.

The College last year had a total enrollment of 909 students. Eighty-seven of the ninety-eight counties of the State had representatives in the student body.

Nine-tenths of all the graduates of this institution have taught or are now teaching in the schools of North Carolina.

RECIPROCITY A SURE THING

Sixty Senators Favor The Bill Without Amendment.

Washington, June 17.—That the Canadian reciprocity agreement will be passed without amendment by the Senate at an early date is positively announced by Senator Penrose, chairman of the finance committee, who is in charge of the measure.

"A careful canvass of the Senate shows that sixty senators—two-thirds of the Senate—are in favor of the measure," said Penrose in a formal statement. "The canvass also shows that more than that number are against the Root amendment."

Penrose served notice that the Senate would remain in session every day until a vote is reached. Senators in favor of the bill will be asked to make speeches, and Penrose expects that it will be passed just as soon as the opposing Senators have concluded their speeches.

If it passes without amendment, it will be ready for President Taft's signature, as the measure before the Senate already has been passed by the House.

"It would be well if the bill could be passed before the Canadian Parliament re-assembles, the latter part of July," continued the Penrose statement. "The probabilities are that the Wool bill will reach the Senate in a few days and the finance committee will be called together for the purpose of considering the Wool bill and the so-called Free List bill."

Farmers Praying For Rain.

A farmer from the neighborhood of Truitts, this county in town yesterday, said that crops in that section was badly suffering from the drought, so much so that today has been set apart for fasting and praying for rain. In fact, this same man visited the clergymen of the city and asked that they each, and collectively, invoke heaven for moisture. He says that if it does not rain in a few days crops will be entirely ruined.

Death of Wm. B. Duncan.

All that was mortal of the late William B. Duncan, who died at Raleigh on Friday, were tenderly laid to rest in the cemetery at Beaufort, Saturday. Mr. Duncan was known to a number in this city. A gentleman of quiet demeanor, courteous and affable to all whom he met. He had been ill for some three months, but always active during life and taking a keen interest in business affairs.

While many will mourn, the keenest grief must be that of his devoted son, Mr. Carl Duncan. For years at Beaufort he had been the elder Mr. Duncan's partner, and the elder Mr. Duncan spent his last years, father and son have been inseparable companions, each bound up in the other by love and the deepest appreciation of the other, each a sharer and partaker in all that concerned the other. To Mr. E. C. Duncan will the bereavement be severe, and yet in the sorrow of the son, there is the reflection that such a father was given to gladden so many years of his life. To Mr. E. C. Duncan goes the sincere sympathy of all his many friends and acquaintances.

Says-Women's Place Is Home.

Baltimore, Md., June 17.—Cardinal Gibbons, in an address yesterday at the commencement exercises of St. Joseph's College and Academy, Emmitsburg, scored woman's suffrage. He said:

"I think the place for the true woman is in the home. Women should not want to vote, but if they took such interest in the affairs of their husband's and brother they could easily have them cast the ballots in the right manner. In doing this woman will be the champion of what is right."

Mirrors to Save Women.

Greedy, Col., June 17.—To prevent women from meeting with accident by alighting backwards, it is proposed to put mirrors on the forward sides of the exits of the street cars here. It is believed that the irrefragable desire to see if their hats are on straight will keep the women's faces the right way.

Black Mountain Inn Opens June 20.

The Black Mountain Inn opens June 20th and will be under the management of Mrs. W. D. Many. It is conceded that the location of this house is the most beautiful in the State, even if this seems like a wide statement. The terms are moderate, but satisfaction is promised to all guests. Water has been put in the house and restrooms will be a feature.

Many improvements and changes have been going on at Black Mountain, with many new houses, and \$30,000 spent in macadam roads. A new macadam road has been voted that will lead to the inn, and the county will build a bridge across the Swannanoa river at the old ford. The Y. M. C. A. has begun improvements, the main building being under contract for \$20,000, located just South of the Inn, and will be ready by the first of the year.

NORFOLK'S NEW UNION STATION

Norfolk-Southern Are Of The Roads That Will Use It.

Norfolk, June 17.—The construction of the big union passenger station and office building in East Main street, this city, for which construction an issue of bonds to the amount of \$2,000,000 was authorized by the Norfolk and Western Railway, Virginian Railway and Norfolk Southern, which roads have undertaken to build it for their joint use and for the use of such other railways as may desire, was formally begun yesterday, when L. E. Johnson, president of the Norfolk and Western Railway and also president of the Norfolk Terminal Railway Company, which will construct and operate the terminal, threw the first shovel of earth.

J. Henry Miller, the contractor, came here yesterday and arrangements for beginning work with simple but impressive ceremony were made. The first work which is now under way is to dig the necessary trenches preparatory to driving the great number of piles which will form the substantial foundation for the great building which the contract provides shall be completed in ten months or by April 16, 1912.

An unique feature of this construction is the lying near the site of the depot of several sections of brick of various sorts and colors so that the effect may be seen and a suitable brick chosen for use in the building.

A large company was attracted by the sight of the workmen and the railway officials gathered upon the site where the great depot is to be built, perhaps five hundred persons being assembled there by ten o'clock, many Norfolk business men being among the number.

The officials of the various railways now actively interested in the enterprise repaired to the scene, especially to view the brick exhibit with a view to selecting material which should be suitable both in color and in texture. These included L. E. Johnson, president of the Norfolk and Western, E. M. Graham, general agent at Norfolk for that road, Raymond Du Puy, vice-president and general manager of the Virginian Railway, Henning Fernstrom, chief engineer of the same road; E. T. Lamb, president and general manager of the Norfolk Southern Railroad, and others.

The indications about the scene are that there is going to be some quick work done on this big job. Laborers were leveling the vacant ground east of the old building now the temporary depot of the Virginian Railway while another gang were attacking the old frame house fronting East Main street, on the corner of the lane which is perhaps 400 feet west of the temporary depot tearing the weather boarding from the front, while others were bringing in tools and material for use on the job.
