MAIL POUCHES.

by June 19-The weather They Cost From a Few Cents to The

Uncle Sam has twenty-eight differthey range in cost from 22 cents to \$2,156 each. There are mail pouches for almost every conceivable use, and you can ship almost anything that comes within the postal regulations with a minimum of loss and breakage, saya Harper's Weekly. Probably the post peculiar mail bag is the one ar ranged for carrying bees. Sending before the "bee bag" was adopted Usually the bees arrived at their des they were of little use. Now these little honey makers can be shipped by mail several thousand miles in the bee bag" without suffering and can obtain air and a good supply of food during their transit.

Mail bags are made of various materials. The cheapest are of cotton and the most costly of leather. Those used on fast expresses are re-enforced with metal so that they can be fluing from fast moving trains without damage. Even then these bags, or "catcher pouches," do not last much more than year and a half, while some of the cotton bags used for the work will re-

In parts of the west, where the mail must be carried for many miles on norseback, special pouches are in use for slinging over the animal's flanks. In the far frozen north special bags are made for sled transportation, and in the cities a bag in use for pneumatic tube service is made of a composition called "leatheroid." The ordinary cotton mail bags are woven so closely that they are practically waterproof, and in the weave there are thirteen stripes of blue. Each country marks its own mail pouches in some individual way, so that if one gets lost in a far country its ownership can be readily detected.

Nearly 65,000,000 mail bags are used each year by the whole country, and heels inclosing diamonds scaled down as they are being worn out all the time the supply has to be kept up. ployed with decided and profitable There are mail bag hospitals, where tens of thousands of them go every week.
